If 911 is dialed from a Microsoft provided app on the phone, laptop, tablet, or desktop; or from a stationary desk IP Phone using a data network connection, the location defined for 911 by your Microsoft Administrator within Microsoft Teams will be used for routing purposes. **\*Please see Verizon Mobile for Microsoft Teams Terms and Conditions Addendum for other important information about 911 configuration and other service limitations.\***

**Voice Mail Removal and Retention.** Adding the Verizon Mobile for Microsoft Teams feature will remove the Verizon voice mail associated to any existing and identified wireless line. It is the customer's responsibility to move and save any needed voicemail prior to activation of the service with Verizon. Verizon does not guarantee that voice mail will be retained in any form. The end user will switch to Microsoft Teams provided voice mail and must setup according to established Microsoft configuration and procedures.

**Wireless Priority Service.** Wireless Priority Service (WPS) is impacted by call routing to Microsoft. Verizon will support WPS call prioritization at its radio access network. Such prioritization will be removed when the call is transferred to the Microsoft Data network for PBX call routing.

**Vendor Privacy.** Verizon Mobile for Microsoft Teams enables Verizon wireless smartphone voice communications by routing calling through Microsoft Teams. When you enable this feature, Verizon shares information with Microsoft about end users, such as the phone number and call-related data. This information will be handled by Microsoft in accordance with Microsoft's privacy practices. You authorize Verizon to share your data with Microsoft and acknowledge that any customer requirements for data security will be covered under your separate agreement with Microsoft.

**Availability:**

This feature is available to any U.S. federal, state and local government customers ("USG Customers") that do not require high security FED RAMP compliance and utilize Microsoft Teams GCC Low or Medium government security platforms. Access to the feature is also regulated appropriately by governing State or Federal contract independently

**Verizon Mobile for Microsoft Teams Terms and Conditions Addendum**

Verizon Mobile for Microsoft Teams is a service that utilizes existing Verizon Wireless network services to route calls through Microsoft Teams (the "Service"). The service, when applied to an eligible Verizon Wireless voice plan, will fully integrate your chosen Verizon Wireless telephone number into the Microsoft Teams cloud calling and team collaboration solution. Once connected, your end user will be able to use their wireless numbers to receive inbound and make outbound calls integrated with their Enterprise Microsoft Teams instance. The end user's wireless number becomes a true Microsoft Teams endpoint allowing them to access the Microsoft Teams enterprise experience enabled by your Microsoft Teams license while utilizing the existing Verizon Wireless network services enumerated on your voice plan for PSTN and wireless termination. This provides the end user the option of placing outbound calls through the traditional collaboration enhanced Microsoft Teams application, integrated IP Phone, or now directly through the native dialer on the end user's Verizon mobile device.

Before you start using the Service, we want you to know some important things. This Addendum modifies the contract (the "**Agreement**") between you as our Customer ("**you**") and Verizon Wireless ("**Verizon**", "**VZW**", "**we**" or "**us**") under which you purchase cellular service. It sets forth the terms and conditions

under which you agree to use and we agree to provide the Service. By using the Service, you accept these Terms and Conditions, which may be modified by us from time to time. By continuing to use the Service after we have notified you of changes, you agree to accept those changes.

1. **Customer Agreement.** Your use of the Service is subject to all of the terms in your Agreement, whether the Service is paid for by a business customer or by an end user.
2. **Term.** Notwithstanding any provisions to the contrary regarding service or term commitments in any other part of the Agreement, the following provisions govern the use of the Service. When Verizon Mobile for Microsoft Teams is activated, service for each line will be on a month-to-month basis. You may terminate the Service for any line upon thirty (30) days prior written notice, without penalty.
3. **How the Service Works.** For the Service to work, you must select the lines on your companies' profile to which you wish to add the Verizon Mobile for Microsoft Teams feature. Each Verizon Mobile for Microsoft Teams phone number must be added to a single smartphone 4G or 5G capable device. Verizon will enable the Service and send the applicable telephone number(s) you assigned to the identified Microsoft Teams customer tenant. Once the telephone number is available to assign in Microsoft Teams it is your responsibility to complete setup with your Teams interface to create users and assign them to the appropriate telephone number. Once assigned Verizon will route all traffic to and from Teams to the PSTN as needed to complete calls utilizing the Verizon wireless cellular network.

4. **Verizon Mobile for Microsoft Teams Management and Support**

**Verizon Management.** Verizon will manage and support call routing into our platform, to Microsoft, and to the PSTN as needed for external termination. Verizon will provide appropriate administration tools to allow you to add or remove the feature from your Verizon line and to understand the feature routing status for each provisioned line. Verizon will communicate with Microsoft to send the telephone numbers assigned by you to Microsoft. Verizon will route calls to Microsoft once configuration is completed in Microsoft Teams to allow successful calling.

**Microsoft Management.** Microsoft is responsible to handle active calls once sent by Verizon and to apply any call treatments based on current Microsoft Teams PBX call configurations established by you. Microsoft is solely responsible for any voice mail or call recording as is set in the Microsoft Teams platform. All Microsoft Teams phone or device apps are managed and controlled exclusively by Microsoft. All licensing for feature management is similarly managed and controlled by Microsoft with capabilities available per your Microsoft Teams licensing agreements.

5. **Feature Responsibilities**

#### Key Definitions

\***Inbound Caller ID Number** – This is supported and displayed as received by Verizon.

\***Inbound Caller ID Name** – Receipt of Inbound CNAM is dependent on the wireless subscriber's active subscription to the *Premium Caller ID Calling Name* service offered by Verizon.

\***Outbound Caller ID Number** – Supported through Microsoft Teams Caller ID Policy Settings.

\***Outbound Caller ID Name** – Verizon Mobile for Microsoft Teams end users must use Verizon services to set outbound Caller ID Name (CNAM). Corporate accounts may update all lines with *Share Name ID* feature or use the *Company Name ID* service for individual line identification.

## 6. Charges

**Charge Initiation.** For each Verizon Mobile for Microsoft Teams line activated, Verizon will charge a monthly fee (Monthly Recurring Fee) for the Service, and Verizon will bill data, voice, and messaging charges based on your existing service plan. The charge will begin when the Service has been successfully added and the telephone numbers are available for assignment to any identified user setup by your Microsoft Teams administrator.

**Charge Termination.** Line level Monthly Recurring Fee will be stopped only when your Verizon administrator removes the Service from the given telephone number and associated voice service plan. Termination is not dependent on Microsoft Teams routing status and telephone number association.

**General.** Charges for international use may apply according to your Verizon Wireless calling plan. You may be assessed additional 911 surcharges if required by law, for up to a maximum of three devices on each mobile phone number during the applicable billing cycle.

## 7. Emergency 911 Calls

**Description.** 911 will be terminated by Verizon Wireless according to the end user's cellular geo-location if dialed from an assigned mobile device native dialer using the Verizon cellular network. If 911 is dialed from a Microsoft provided app on the phone, laptop, tablet, or desktop; or from a stationary desk IP Phone using a data network connection, the location defined for 911 by your Microsoft Administrator within Microsoft Teams will be used for routing purposes.

**Microsoft Configuration.** It is your responsibility to update the assigned 911 address for each user according to the management policies defined by Microsoft. If there is no address assigned within Microsoft Teams for a user initiating a 911 call from a Microsoft Teams client application or connected IP phone, Verizon will complete the call into an Emergency Call Relay Center for live address determination and or verification.

**Data or Wi-Fi Origination.** When using a Verizon Mobile for Microsoft Teams desk phone or data connected app, voice functionality (including the ability to make 911 calls) will not be available during a power outage, connectivity failure or other service disruption. Note: the end user can make a 911 call over a Wi-Fi connection when using the Service, but is advised that 911 calls over a Wi-Fi connection will not work if there is a failure of the connection, electrical power, or the 911 system does not recognize the end user's address.

**Emergency Calling Testing.** Emergency calling testing for both native and ported numbers must be performed by you unless additional professional services are ordered via a separate Professional Services Order. You must ensure that a test emergency call is placed and that the address as shown in the relevant local emergency number management system is validated as being correct.

**End User Notification.** You are solely responsible for informing your end users about any emergency calling restrictions. Your failure to do so may result in emergency calls failing to be delivered or being sent to the wrong location and thus delay or preclude emergency service response, which could result in injury or death.

## 8. Privacy. We may use information about your use of the Service in accordance with the [Verizon Privacy Policy](#).

**Vendor Privacy.** Verizon Mobile for Microsoft Teams enables Verizon wireless smartphone voice communications by routing calling through Microsoft Teams. When you enable this feature, Verizon shares information with Microsoft about end users, such as the phone number and call-related data. This information will be handled by Microsoft in accordance with Microsoft's privacy practices. You authorize Verizon to share your data with Microsoft and acknowledge that any customer requirements for data security will be covered under your separate agreement with Microsoft.

## 9. Confidentiality. You agree that any information (e.g., Microsoft Customer Tenant ID) that is shared with Verizon in configuring Verizon Mobile for Microsoft Teams will remain our Confidential Information.

## 10. Third Party Products

**General.** If you use any third party products or applications with Verizon Mobile for Microsoft Teams, you authorize us to share information with third parties, including Microsoft, that is necessary for these services to operate. Some information from those third party products or applications may be transmitted into your account with us if you authorize such transmissions (Third Party Account Information) and any such Third Party Account Information transmitted to our applications or services will then be covered by our Privacy Policy. You may opt not to disclose such information to us from third party products or applications, but keep in mind some information may be needed in order for you to take advantage of some or all of the applications' or products' intended features.

**Disclaimer.** With respect to all third party products and applications, you agree that: (1) we disclaim all warranties, express or implied, (2) we are not responsible and shall have no liability for such products or applications, and (3) you are solely responsible and liable for you and your end user's use of such

products and applications.

## 11. Service Limitations

**Services Compatibility.** The Service is not compatible with certain Verizon services such as One Talk, Premium Voice Mail, Voice Mail Block, and Number Share. These services must be removed prior to feature enablement and may not be enabled while Verizon Mobile for Microsoft Teams service is active.

**(x)11 Services.** Verizon will support all (N)11 services from the users assigned mobile device native dialer. Microsoft does not support the following (N)11 services from their managed calling applications or IP phones accessed over a data network: 211, 311, 511, 711, 811.

**Dial Plan Conflicts.** Microsoft Teams is responsible for all dial plan permissions. For any calling permissions that Verizon allows but Microsoft Teams does not allow, the Microsoft Teams PBX will be in control of that permission. This includes for international dialing/calling capability, and any caller ID specified

**Short Dial.** Verizon will not support short dialing from the Verizon wireless phone native dialer to another Microsoft Teams Enterprise user.

**Voice Mail Removal and Retention.** Adding the Verizon Mobile for Microsoft Teams feature will remove the Verizon voice mail associated to any existing and identified wireless line. It is your or your end user's responsibility to move and save any needed voicemail prior to activation of the Service with Verizon. Verizon does not guarantee that voice mail will be retained in any form. The end user will switch to Microsoft Teams provided voice mail and must setup according to established Microsoft configuration and procedures.

**Wireless Priority Service.** Wireless Priority Service (WPS) is impacted by call routing to Microsoft. Verizon will support WPS call prioritization at its radio access network. Such prioritization will be removed when the call is transferred to the Microsoft data network for call routing.

**Network Performance Dependency.** Call routing and overall quality of service is dependent upon Microsoft for completion. Verizon is not responsible for call traffic while it is in the Microsoft Azure data center(s) or network for routing and termination, nor if delivered through customer specific non-Verizon owned data networks for app or IP phone connectivity.

**Domestic (US Based) Data Handling Dependency.** You must address directly with Microsoft Teams their handling of your data.

**12. Important Service Disclosures.** YOU ACKNOWLEDGE AND AGREE THAT THE SERVICE IS IMPLEMENTED WITHOUT SPECIFIC CONTROLS THAT MAY GENERALLY BE REQUIRED OR CUSTOMARY FOR CUSTOMERS IN ANY PARTICULAR INDUSTRY AND ARE NOT DESIGNED TO SATISFY ANY SPECIFIC LEGAL OBLIGATIONS. YOU ARE SOLELY RESPONSIBLE FOR DETERMINING THAT THE SERVICE SATISFIES ANY LEGAL, REGULATORY OR CONTRACTUAL OBLIGATIONS YOU MAY HAVE. YOU AGREE THAT YOU AND YOUR END USERS WILL USE THE SERVICE IN ACCORDANCE WITH ALL APPLICABLE LAWS AND NOT TO USE THE SERVICE IN ANY MANNER THAT MAY IMPOSE LEGAL, REGULATORY OR CONTRACTUAL OBLIGATIONS ON US, OTHER THAN THOSE WITH WHICH WE HAVE EXPRESSLY AGREED TO COMPLY IN THIS ADDENDUM.

**13. Service.** We grant you a limited, non-exclusive, non-transferable license to use the Service solely as authorized in this Addendum. All rights regarding use of the Service are not expressly granted in this Addendum are reserved by Us and/or any third-party licensors.

5.1 Intrepid warrants to Customer that the Service will be provided in a professional and workmanlike manner. As Customer's exclusive remedy for breach of the foregoing warranty, Intrepid shall, at its option, repair or replace the nonconforming elements of the Service. Intrepid shall have no obligation hereunder if software or other intellectual property used in the Service, or hardware utilizing the Service, is modified, altered, merged or subjected to misuse, neglect, accident or improper use by Customer or any third party. If at any time Customer becomes unsatisfied with the Service, Customer's sole remedy is to cease using the Service.

EXCEPT AS EXPRESSLY PROVIDED HEREIN, THE SERVICE IS PROVIDED "AS IS" AND INTREPID, ITS SUPPLIERS AND VENDORS EXCLUDE ALL WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE. INTREPID AND ITS SUPPLIERS AND VENDORS SPECIFICALLY DISCLAIM ALL EXPRESS OR IMPLIED WARRANTIES OF DESIGN, NON-INFRINGEMENT, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, THAT THE SERVICE OR DEVICES WILL MEET ALL OF CUSTOMER'S REQUIREMENTS, OR THAT THE SERVICE WILL BE UNINTERRUPTED, TIMELY, SECURE, VIRUS FREE, OR ERROR-FREE. NOR DOES INTREPID (OR ITS VENDORS OR SUPPLIERS) MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF THE SERVICE OR THAT ALL ERRORS IN THE SERVICE WILL BE CORRECTED.

5.2 INTREPID, ITS VENDORS AND SUPPLIERS ENTIRE LIABILITY FOR ANY CAUSE OF ACTION, WHETHER IN CONTRACT, WARRANTY, OR IN TORT (INCLUDING NEGLIGENCE) FOR ALL CLAIMS RELATING TO THIS AGREEMENT AND ITS PERFORMANCE, SHALL BE LIMITED IN THE AGGREGATE

TO THE LESSER OF THE FEES PAID BY CUSTOMER TO INTREPID DURING THE TWELVE (12) MONTH PERIOD PRIOR TO THE CLAIM OR \$25,000.

5.3 IN NO EVENT SHALL ANY PARTY BE LIABLE FOR ANY LOST PROFITS, LOST REVENUE, INDIRECT, SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES EVEN IF SUCH PARTY HAS BEEN ADVISED OF, OR COULD HAVE REASONABLY FORESEEN, THE POSSIBILITY OF SUCH DAMAGES.

5.4 Customer acknowledges that the limitations of liability and disclaimers of warranty set forth in this Agreement are independent of any remedies hereunder and apply regardless of whether any remedy fails its essential purpose. Customer acknowledges that Intrepid has set the pricing for the Service and other fees and charges in reliance on the disclaimers of warranty and limitations and exclusions of liability set forth in this Agreement and that the same form an essential basis of the bargain between the parties.

5.5 Intrepid shall indemnify Customer from and against any third-party liabilities, losses, damages, claims, suits, and expenses, including reasonable legal expenses, of whatever kind and nature ("Losses"), imposed upon, incurred by or asserted against Customer relating to or arising out of any third-party claim brought against Customer alleging that the Service used as contemplated by this Agreement violates any proprietary rights of such third party. This Section 5.5 states Intrepid's entire obligations regarding infringement of a third party's intellectual property rights with respect to the use of the Service.

5.6 Customer shall indemnify Intrepid, its suppliers and vendors from and against any and all Losses imposed upon, incurred by, or asserted against Intrepid relating to or arising out of a claim alleging that Intrepid's authorized use of the Customer Data violates the proprietary rights of, or has caused harm to, any third party (including, without limitation, any User).

5.7 In addition to, and without limiting, any and all obligations of Customer set forth herein, Customer hereby assumes entire responsibility and liability for any and all damage or injury of any kind or nature to all persons, and to all property, real or personal, caused by, resulting from or associated with the use by Customer, or any of Customer's employees, representatives or agents (whether a User or not), of the Service and agrees to indemnify, defend, and hold harmless Intrepid, its suppliers and vendors from and against any and all Losses or injury to persons or to property caused directly or indirectly by Customer or any of Customer's employees, representatives or agents (whether a User or not), Customer's property or equipment, or any and all persons acting on Customer's behalf or under Customer's supervision or control, whether direct or indirect.

5.8 In consideration of the obligations of Intrepid hereunder, Customer acknowledges that the use of the Service by Customer is voluntary and may involve known and unknown risks that could result in physical injury (including death) and/or property damage. Customer, on behalf of itself and its employees, representatives and agents, (the "Customer Parties") hereby releases, remises, requites, satisfies and forever discharges Intrepid, its suppliers and vendors and their respective heirs, personal representatives, successors and assigns from any and all Losses whatsoever, in law, in equity or in arbitration that the Customer Parties have, had or may have (through all stages of settlement and litigation, including all appeals and all collection proceedings) arising out of or resulting from the Customer Parties' voluntary use of the Service.

5.9 The indemnity obligations set forth in this Section 5 are contingent upon (a) the indemnified party giving prompt written notice of any indemnified claim,

(b) the indemnified party allowing the indemnifying party the sole control of the defense and related settlement negotiations for such claim; and (c) the indemnified party providing reasonable assistance and cooperating in

the defense and settlement negotiations as requested by the indemnifying party and at the indemnifying party's expense.

## **6. CONFIDENTIALITY AND DATA PROTECTION**

By virtue of this Agreement, each party may have access to the Confidential Information of the other party. The parties expressly acknowledge that the Customer Data shall be governed by Sections 2.7 and 4 and shall not constitute Confidential Information. Each party agrees to keep confidential all Confidential Information disclosed to it by the other party or a third party, and to protect the confidentiality thereof in the same manner as it protects the confidentiality of similar information and data of its own (at all times exercising at least a reasonable degree of care in the protection of such Confidential Information). This Section 7 shall not apply to anything that: (i) is or becomes (through no improper action or inaction by the receiving party) generally available to the public, or (ii) was in the recipient's possession or known by it, without restriction, prior to receipt from the disclosing party, or (iii) was rightfully disclosed to the receiving party by a third party, or (iv) is required to be disclosed by a subpoena, request for documents, or other validly issued judicial or administrative process, provided that the party so required to disclose it promptly notifies the other party of the receipt of process and permits the other party a reasonable opportunity to respond to such process; or (v) is necessary to be disclosed by a party in order to meet its obligations under this Agreement. If a party wishes to rely on one of these exclusions it shall give prompt written notice to the other party detailing the relevant information and the reason for disclosure.

## **7. TERM AND TERMINATION**

7.1 This Agreement shall commence on the Effective Date and shall remain in effect through the Initial Term unless earlier terminated as set forth below.

Either party may terminate this Agreement upon notice to the other party if the other party materially breaches this Agreement and such breach is not remedied within 30 days of such notice, except for breaches relating to non- payment for which such cure period shall be 5 business days.

Either party may terminate this Agreement immediately upon notice if the other party becomes subject to any proceeding under any statute of any governing authority relating to insolvency or the rights of creditors that is not dismissed within 60 days, or the equivalent occurs in any jurisdiction.

Upon termination of this Agreement for any reason, all accrued rights to payment shall become due, all licenses shall immediately terminate, Customer shall immediately discontinue all use of the Service and delete or remove any copies of the Service in its possession, and each party shall promptly return (or, if requested by the other party, destroy) all Confidential Information of the other party in its possession. Upon termination, Intrepid may immediately terminate Customer's access to the Service without notice and within 30 days thereafter delete Customer's Data and any related data.

7.2 Sections 1, 2.4, 2.5, 2.6, 3, 4, 5, 6, 7, 8, and 9 shall survive the termination or expiration of this Agreement in accordance with their terms.

## **8. EXPORT**

If, at the time or times of Intrepid's performance hereunder, a validated export license or other export authorization is required for Intrepid or its agents to lawfully export the goods, source code, or technical data from the United States of America or such other country of origin, then the issuance of such license or

authorization to Intrepid or its agents in accordance with the rules and regulations of the applicable country(ies) shall constitute a condition precedent to Intrepid's performance of its obligations hereunder. Customer agrees to comply with all applicable export laws and regulations of the United States of America or such other country of origin. Specifically, but without limitation, customer agrees that it will not resell or re-export Intrepid products, source code, or technical data in any form without obtaining appropriate export or re-export licenses from the respective governmental authority of the United States of America, other country of origin, or country of export or re-export. Violation of this provision shall constitute cause for termination of this Agreement by Intrepid without liability to customer.

## 9. MISCELLANEOUS

9.1 Neither party shall be liable for any delay or failure in performing any of its obligations under this Agreement if such delay or failure is caused by circumstances outside the reasonable control of the party concerned. The Service may be subject to limitations, unavailability, delays, and other problems inherent in the use of the internet, mobile telephone networks and electronic communications. Intrepid is not responsible for any delays, delivery failures, or any loss or damage resulting from the same. Notwithstanding the foregoing, nothing herein shall relieve Customer of its obligations to pay monies due and owing to Intrepid hereunder.

9.2 Intrepid may reference Customer's status as a user of the Service on Intrepid's website, in marketing materials and in sale presentations.

9.3 The waiver by either party of any default or breach of this Agreement shall not constitute a waiver of any other or subsequent default or breach.

9.4 Customer may not assign or transfer any of its rights or obligations under this Agreement in whole or in part without Intrepid's prior written consent. Intrepid may freely assign, transfer, and sub-contract this Agreement and any or all of its obligations herein.

9.5 This Agreement shall not be amended or modified except in a writing executed by the duly authorized representatives of Intrepid and Customer.

9.6 If any provision of this Agreement is held to be invalid or unenforceable, the parties or any applicable tribunal shall substitute an enforceable provision that preserves the original intent and economic positions of the parties and the remaining provisions of this Agreement will remain in full force and effect.

9.7 All notices that are required to be given under this Agreement shall be in writing and sent to the addresses of the parties set out on the Order Form or to such other address as a party may designate by notice to the other party and shall be effective (a) on the date of delivery if sent by recorded delivery;

(b) on the business day following the date of transmission of a fax as evidenced by a successful transmission report; or (c) immediately if delivered personally to the relevant address.

9.8 This Agreement forms the entire understanding of the parties in respect of the matters dealt with in it and supersedes all previous agreements, understandings, proposals, and negotiations between them.

9.9 This Agreement shall be governed by the laws of the State of Florida, without regard to its conflicts of laws principles. Any suit, action, or proceeding with respect to this Agreement shall be brought in the courts of Orange County, Florida or in the U.S. District Court for the Middle District of Florida, and the parties hereby accept the exclusive jurisdiction of those courts for the purpose of any suit, action, or proceeding.

9.10 The parties acknowledge that they are familiar with transactions of this nature and agree that the fact one of the parties may have drafted or structured any provision of this Agreement shall not be considered in construing the particular provision either in favor of, or against, such party.

9.11 The parties hereto are independent contractors and this Agreement does not create a joint venture or partnership, and neither party has the authority to bind the other party to any third party.

9.12 This Agreement may be executed in any number of counterparts, each of which, when taken together, shall be an original.

STANDARD INSTALL	POTSOLVE_INS TALL	Under the standard installation process for the POTSolve system, the site point of contact (POC) is asked to contact their monitoring service to place fire and security panels into test mode for at least four hours when life safety lines are involved. The POTSolve enclosure and 66-block are then mounted, by CSG Technicians, the system is powered up, and internet connectivity is confirmed. Two speed tests are performed and documented, and the ATAs are verified to be online. Test calls are made from the	751952	\$299.00	N/A
		66-block for all provisioned lines before crossconnects are started, and the site POC confirms that fire and security panels are in test mode. Cross-connect wiring is removed from the existing demarc punch down, and connections are made to the POTSolve 66-block for each provisioned line. Each line is tested as close to the device as possible, and if no access is available, testing is conducted at the POTSolve 66- block. The customer may need to contact their vendor to test from fire and security panels. Post-install, photos are taken of the installed POTSolve enclosure, the 66-block, and the interior of the enclosure. Limited to 2 hours.			

SITE SURVEY	POTSOLVE_SITE_SURVEY	POTSolve site survey, by CSG technicians, is On-Site Support (OSS), of the installation process includes identifying the installation area, which requires a 2ft by 2ft backboard space in the demarcation area, and verifying the AC power outlet within 5ft of the install area. OSS also ensures the verification of the Verizon LTE signal and, if the signal is below acceptable levels, the identification and documentation of the best pathway and mounting area for an external antenna. Existing lines being replaced by POTSolve in the demarc area are traced and tagged, and if there are multiple demarcs, the corresponding lines for each demarc are identified. OSS checks for an active LAN connection within 10ft of the install area for life safety lines and verifies that all devices moving to POTSolve are functioning correctly. Post-install, photos are taken of the end devices, the entire room where the demarc is located, demarc punch down fields, proposed backboard space, closest power outlet in relation to the install area, and the closest active LAN connection when life safety lines are involved.	776202	\$299.00	N/A

Additionally, complex installations involve undocumented or untagged existing lines being replaced by POTSolve and situations where the LTE signal is below acceptable levels at the proposed installation area, typically near the demarcation location.	751953	\$75.00	N/A

## APPENDIX

### 911 Terms and Conditions

1. 911 Terms and Conditions. CSG provides its 911 Services (defined below) subject to the terms and conditions set forth below (the "911 Terms").

1.1. Definitions. For the purposes of these 911 Terms, the following terms will have the following meanings:

1.1.1. "911 Call(s)" means any call made dialing the digits 9-1-1, regardless of whether such call is made using Basic 911, Enhanced 911, or a PSAP.

1.1.2. "911 Services" means functionality that allows end users to contact emergency services by dialing the digits 9-1-1.

1.1.3. "Approved Uses" means the provision of Enhanced 911 and/or Basic 911 to (a) 911 Users who principally utilize such services at such 911 User's residence and occasionally at other locations; (b) 911 Users that are enterprises that use either an on-site or PBX during customary business hours and should reasonably be expected to have reasonably customary 911 usage patterns due to the nature of such enterprise's business or operations; for clarity, the provision of Enhanced 911 service and/or Basic 911 service to enterprises that use either an on-site or hosted PBX but operate outside customary business hours, including, without limitation, assisted living facilities, nursing homes and other similar facilities, and to which (c) and/or (d), below, do not apply; or should not reasonably be expected to have reasonably customary 911 usage patterns due to the nature of such enterprise's business or operations, do not constitute "Approved Uses"; (c) 911 Users that operate non-emergency call center(s) that should reasonably be expected to have only occasional use of 911 due to the nature of such call center's business or operations; for clarity, central station alarm and other similar call centers that direct calls to emergency services do not constitute "Approved Uses"; and (d) 911 Users that operate call center(s) that support the deaf and/or hard of hearing community, which are more commonly known as "relay services."

1.1.4. "Basic 911" means the ability to route an emergency call to the designated entity authorized to receive such calls serving the Customer's Registered Emergency Address. With Basic 911, the 911 professional answering the phone will not have access to the 911 User's telephone number or emergency address information unless the 911 User provides such information verbally during the emergency call.

1.1.5. "E911 Authority" means a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local government units to whom authority has been lawfully delegated to respond to public emergency telephone calls, at a minimum, for emergency police and fire services through the use of one TTN. For clarity, an E911 Authority may be an individual PSAP, or an entity responsible for the management and operation of multiple PSAPs within a given geographic area.

1.1.6. "911 User" means the individual placing a 911 Call from a 911 User's TTN (defined below).

1.1.7. "Enhanced 911" or "E911" means the ability to route an emergency call to the designated entity authorized to receive such calls serving the Customer's provided address and to deliver the Subscriber's telephone number and corresponding Registered Emergency Address or REA information automatically to the

911 professional answering the call.

1.1.8. “P-Asserted-Identity” means a header field used among trusted SIP entities (typically intermediaries) to carry the identity of the user sending a SIP message as it was verified by authentication.

1.1.9. “Private Branch Exchange” or “PBX” means a telephone system within an enterprise that switches calls between enterprise users on local lines while allowing all users to share a certain number of external phone lines.

1.1.10. “Public-Service Access Point” or “PSAP” means an answering location for 911 Calls originating in a given area. The E911 Authority may designate a PSAP as primary or secondary, which refers to the order in which calls are directed for answering. Primary PSAPs answer calls; secondary PSAPs receive calls on a transfer basis. PSAPs are public safety agencies such as police, fire, emergency, medical, etc., or a common bureau serving a group of such entities.

1.1.11. “Registered Emergency Address” or “REA” means the physical address provided by the Customer to be used for E911 and Basic 911, which may be used to dispatch police, fire, emergency medical and other emergency response resources.

1.1.12. “SIP” means Session Initiation Protocol, which is the signaling protocol used between VoIP networks to establish, control and terminate voice calls.

1.1.13. “Subscriber” means an end user or telephone device assigned a DID.

1.1.14. “Trunk Number” or “TTN” means a United States or Canada telephone number bought by the Customer and assigned to a trunk for use with CSG’s elastic SIP trunking service.

1.1.15. “VoIP” means Voice over Internet Protocol.

## 1.2. Service Description and Use of Service.

1.2.1. E911 Services. With E911, when a Customer places a 911 Call, such call will typically be routed to the local PSAP that covers Customer’s REA. In limited circumstances, as further described below, the 911 Call may be routed to a PSAP. Regardless of which PSAP the 911 Call is routed to, if and only if the associate trunk is properly provisioned, the 911 professional will receive the (1) TTN associated with the 911 Call and (2) Customer’s REA. Customer understands that Customer, and not CSG, must properly provision elastic SIP trunking origination services for each trunk associated with each of their TTNs in order for an emergency operator to receive the associated TTN and Customer’s REA.

1.2.2. Basic 911. With Basic 911, when a Customer places a 911 Call, this call is always sent to the local PSAP serving the Customer’s physical location. 911 professionals answering 911 Calls from Customer will not automatically receive the associated TTN or REA because the PSAP to which the 911 Call was routed will not be equipped to receive, capture, or retain Customer’s assigned TTN or REA. Accordingly, Customer must provide both call-back and emergency address information to the 911 professionals. If the 911 Call is dropped or disconnected, or if the Customer is unable to speak, then the 911 professional will not be able to call the Customer back or dispatch emergency assistance to the Customer’s physical location. As additional local PSAPs

are able to answer E911 calls, CSG may upgrade Customer from Basic 911 to E911 service. CSG is not obligated, however, to notify Customer of the upgrade. In limited circumstances, Customers equipped with Basic 911 may have their calls routed to a PSAP, as further described below.

1.2.3. PSAP Service. Certain TTNs will not have access to either Basic 911 or E911 services. If Customer has TTNs that do not have access to either E911 or Basic 911, 911 Calls will be routed to a PSAP. A 911 professional at the PSAP will ask for the 911 User's name, telephone number, and location, and then transfer the 911 User to the appropriate local PSAP or otherwise determine the best way to provide emergency services to the 911 User. As with Basic 911, 911 professionals answering calls in a PSAP will not receive the 911 User's TTN or REA because PSAPs are not equipped to receive, capture or retain this information. Accordingly, the 911 User must provide this information to the 911 professional. Other reasons that a 911 User's 911 Calls may be sent to a PSAP is if (a) there is a problem validating the REA provided by Customer during provisioning, (b) Customer is located in an area that is not covered by the landline 911 network, or (c) Customer has Basic 911 or E911 service but these calls fail to complete and are routed to a PSAP for failover purposes.

1.3. Notwithstanding any term or condition of these 911 Terms to the contrary, Customer will only utilize CSG's E911 and/or Basic 911 services pursuant to these 911 Terms for Approved Uses.

1.4. Customer will not block their TTN on a device they are using when placing a 911 Call and the TTN shall be made available in the From/P-Asserted-Identity SIP headers of the incoming SIP request.

1.5. Customer acknowledges and agrees that CSG can only provide E911 call routing in territories where the PSAP or E911 Authority offers E911. All other 911 calls made by 911 Users successfully registered in CSG's database will be routed using the ten-digit outbound trunks or a 911 professional.

1.6. Customer will provide CSG with and keep current the correct and valid REA for each TTN for which the Customer desires 911 Services. The REA provided must include sufficient information to enable emergency responders to locate the 911 User and must comply with all Multi-line Telephone System ("MLTS") requirements applicable to Customer. For example, one MLTS requirement may be that for Customer located in a multi-floor building, Customer must include a floor or suite number as part of the REA. CSG AND ITS AUTHORIZED RESELLERS WILL NOT HAVE ANY LIABILITY WHATSOEVER FOR ANY DAMAGE, LIABILITIES, LOSSES, OR ANY OTHER CONSEQUENCES CAUSED BY CUSTOMER'S FAILURE TO KEEP ITS INFORMATION UPDATED. Customer will provide a TTN with Customer call presented to CSG for processing. CSG will have no obligation to provide 911 Services with respect to any Customer call that does not include a TTN and will not be liable for any claims arising from any efforts undertaken by CSG to provide 911 Services under such circumstances.

1.7. Customer Obligations. (i) Customer will be solely responsible for compliance with all applicable laws and/or other governmental requirements imposed or required by any state or other applicable governmental authority; and (ii) Customer will inform any party using (or any party that might use) the 911 Services of the difference between traditional 911 and VoIP 911 service in compliance with all applicable laws and/or other governmental requirements imposed or required by any governmental authority, including, without limitation, the Federal Communications Commission ("FCC"). For clarity, CSG will not be responsible if 911 Service is unavailable due to loss of power; certain features may not be compatible with 911 service; and CSG reserves the right to refuse provisioning or modification of features or service if such provisioning or modification adversely affects 911 service. Customer agrees not to move any equipment associated with the 911 Services and acknowledges that any such movement could impact 911 Services functionality and/or the ability to

determine the location of the equipment. CSG and its authorized resellers disclaim all liability arising out of any movement of the equipment by Customer.

1.8. Customer Testing. Customer will be solely responsible to test the 911 Services after installation and periodically throughout the 911 Term (as defined in below) and will notify CSG if Customer notes any issues at any time with the Service. Customer agrees to test 911 Services and share the results of such testing at the request of CSG.

1.9. Equipment; Connection; Customer's Responsibilities. CSG will not provide any equipment or any electronic tools, except as may be expressly agreed to and set forth in writing. Customer must connect to CSG's network in a manner and at locations determined by CSG. If Customer elects to self-install, Customer will, at Customer's sole cost and liability as between Customer and CSG, be solely responsible for installing any and all equipment, software and the like necessary for Customer to use the 911 Services.

1.10. Charges and Rates. If applicable, Customer shall pay an additional fee per TTN enabled to use the 911 Services ("911 Fee").

1.11. Term. The term of these 911 Terms shall be the same as the period during which the CSG is providing the Services (the "911 Term").

1.12. DISCLAIMER. CUSTOMER ACKNOWLEDGES AND AGREES THAT CSG'S EMERGENCY SERVICE IS INTERNET-BASED AND THAT INTERNET 911 SERVICES ARE DIFFERENT THAN THAT OF A TRADITIONAL WIRELINE SERVICE. CUSTOMER FURTHER ACKNOWLEDGES THAT THE CSG EMERGENCY SERVICE MAY NOT SUPPORT BASIC 911 OR E911 DIALING IN THE SAME MANNER AS A TRADITIONAL WIRELINE PHONE SERVICE. FOR BASIC 911 OR E911 TO BE ACCURATELY ROUTED TO THE APPROPRIATE EMERGENCY RESPONDER, THE CUSTOMER MUST PROVIDE THE REA FOR THE ASSOCIATED TTN IN ACCORDANCE WITH THE CUSTOMER DOCUMENTATION

1.13. CUSTOMER ACKNOWLEDGES THAT THERE ARE POTENTIAL COMPLICATIONS ARISING FROM BASIC 911 OR E911 DIALING. SPECIFICALLY, CUSTOMER ACKNOWLEDGES AND AGREES TO INFORM ALL EMPLOYEES, GUESTS, AND OTHER THIRD PERSONS WHO MAY ALSO BE 911 USERS THAT BASIC 911 AND E911 SERVICES WILL NOT FUNCTION IF THERE IS A SERVICE FAILURE DUE TO ANY OF THE FOLLOWING CIRCUMSTANCES: (A) POWER FAILURE, (B) SUSPENDED OR TERMINATED BROADBAND SERVICE, (C) SUSPENSION OF SERVICES DUE TO BILLING ISSUES, (D) USE OF CERTAIN FEATURES WHICH ARE NOT COMPATIBLE WITH 911 SERVICES, AND/OR (E) ANY OTHER SERVICE OUTAGES NOT DESCRIBED HEREIN. CSG RESERVES THE RIGHT TO REFUSE PROVISIONING OR MODIFICATION OF FEATURES OR SERVICE IF SUCH PROVISIONING OR MODIFICATION ADVERSELY AFFECTS THE 911 SERVICES.

1.14. CUSTOMER FURTHER ACKNOWLEDGES THAT FAILURE TO PROVIDE A CORRECT PHYSICAL ADDRESS IN THE REQUISITE FORMAT MAY CAUSE ALL BASIC 911 OR E911 CALLS TO BE ROUTED TO AN EMERGENCY SERVICE PROVIDER NOT LOCATED NEAR THE CUSTOMER. FURTHERMORE, CUSTOMER RECOGNIZES THAT USE OF THE 911 SERVICES FROM A LOCATION OTHER THAN THE LOCATION INDICATED IN THE REA MAY RESULT IN BASIC 911 OR E911 CALLS BEING ROUTED TO AN EMERGENCY SERVICE PROVIDER NOT LOCATED NEAR THE CUSTOMER.

1.15. CUSTOMER ACKNOWLEDGES AND AGREES THAT NEITHER CSG, ITS UNDERLYING CARRIER, AND ANY OTHER THIRD PARTIES INVOLVED IN THE ROUTING, HANDLING, DELIVERY OR ANSWERING OF 911 SERVICES

OR IN RESPONDING TO 911 CALLS, NOR THEIR DIRECTORS, MEMBERS, OFFICERS, SHAREHOLDERS, EMPLOYEES, OR AGENTS MAY BE HELD LIABLE FOR ANY CLAIM, DAMAGE, LOSS, FINE, PENALTY, OR COST (INCLUDING, WITHOUT LIMITATION, ATTORNEYS' FEES AND COSTS) AND CUSTOMER HEREBY WAIVES ANY AND ALL SUCH CLAIMS OR CAUSES OF ACTION, ARISING FROM OR RELATING TO THE PROVISION OF ALL TYPES OF EMERGENCY SERVICES TO CUSTOMER.

1.16. Limitation of Liability.

1.16.1. Customer agrees that CSG and its authorized resellers, and their respective directors, officers, members, shareholders, employees, and agents will not be liable for any loss or damage sustained by Customer or 911 Users due to any failure in or breakdown of the communication facilities associated with providing the 911 Services, or for any delay, interruption, or degradation of the Services whatsoever; provided, however, that CSG remains liable for any gross negligence or willful misconduct by CSG, its directors, members, officers, shareholders, employees, and agents.

1.16.2. In no event will the liability of CSG and its authorized resellers, to Customer for any loss arising out of the 911 Services provided pursuant to these 911 Terms or any errors, interruptions, defects, failures or malfunctions of the 911 Services provided pursuant to these 911 Terms, including, without limitation, any and all equipment and data processing systems associated therewith, exceed an amount equal to the total amount paid by Customer during the twelve (12) month period preceding the first incident out of which the liability arose. Customer waives any claim that these exclusions or limitations deprive it of an adequate remedy or cause these 911 Terms to fail of their essential purpose. Customer further acknowledges, understands and agrees that CSG has no control over how a foreign administration or third party carrier establishes its rules and conditions pertaining to international telecommunications service.

**2. Services.** For purposes of POTS replacement, MarketSpark shall provide certain services to Customer (“**Services**”), which shall include but not be limited to the following:

**2.1.** POTS replacement line(s) at each of the Customer locations as selected and identified by Customer (“**Customer Locations**”).

**2.2.** Installation of the Services by MarketSpark up to the demarcation point(s) (each, a “**Dmarc**”) at the Customer Locations. Customer's list of Authorized Individuals must be kept current at all times. A change requires the authorization of a currently Authorized Individual for Customer's account. Updates and authorizations shall be sent to support@MarketSpark.com. Customer further agrees to keep the Equipment at the Customer Location where it has been installed and to not make any alterations, additions, or replacements to the Equipment except as authorized in writing by MarketSpark.

**9.2.** MarketSpark does not control how emergency 911 calls are answered or handled by any local emergency response center. MarketSpark disclaims all liability and responsibility for the actions and conduct of any and all national and local emergency response centers. MarketSpark relies entirely upon third parties to route emergency 911 calls to local and national emergency response centers. MarketSpark and its authorized resellers disclaim any and all liability and responsibility resulting from the absence, failure or outage of the emergency 911 services, including without limitation the emergency dialing service or access to emergency service personnel, or in the event such third-party data used to route the calls is incorrect or produces an erroneous result. Confidential Information disclosed under these Terms shall be treated with the same degree of care (provided that such is at least a reasonable degree of care) to avoid disclosure to third parties as Customer would normally use to protect its own confidential or proprietary information.

**11. Maintenance.** MarketSpark may perform maintenance that may affect the availability or functionality of all or part of the Services. Except in emergencies, MarketSpark will endeavor to provide prior notice of maintenance windows. Any impact on the Services as a result of maintenance will not be deemed a breach of these Terms and will not entitle Customer to any credit, refund, or right to terminate any affected Service.

## **APPENDIX**

### **911 TERMS AND CONDITIONS**

MarketSpark provides its 911 Services (defined below) subject to these 911 Terms and Conditions (the "911 Terms").

- 1. 911 Definitions.** For the purposes of these 911 Terms, the following terms will have the following meanings:
  1. "911 Call(s)" means any call made dialing the digits 9-1-1, regardless of whether such call is made using Basic 911, Enhanced 911, or a PSAP.
  2. "911 Services" means functionality that allows end-users to contact emergency services by dialing the digits 9-1-1.
  3. "Approved Uses" means the provision of Enhanced 911 and/or Basic 911 to (a) End Users who principally utilize such services at such End User's residence and occasionally at other locations; (b) End Users that are enterprises that use either an on-site or hosted Private Branch Exchange ("PBX") during customary business hours and should

reasonably be expected to have reasonably customary 911 usage patterns due to the nature of such enterprise's business or operations; for clarity, the provision of Enhanced 911 service and/or Basic 911 service to enterprises that use either an on-site or hosted PBX but operate outside customary business hours, including, without limitation, assisted living facilities, nursing homes and other similar facilities, and to which Sections 1.c.vii and/or 1.d, below, do not apply; or should not reasonably be expected to have reasonably customary 911 usage patterns due to the nature of such enterprise's business or operations and do not constitute "Approved Uses"; (c) End Users that operate non-emergency call center(s) that should reasonably be expected to have only occasional use of 911 due to the nature of such call center's business or operations; for clarity, central station alarm and other similar call centers that direct calls to emergency services do not constitute "Approved Uses"; and (d) End Users that operate call center(s) that support the deaf and/or hard of hearing community, which are more commonly known as "relay services."

4. "Basic 911" means the ability to route an emergency call to the designated entity authorized to receive such calls serving the Customer's Registered Emergency Address. With Basic 911, the 911 professional answering the phone will not have access to the End User's telephone number or emergency address information unless the End User provides such information verbally during the emergency call.
5. "E911 Authority" means a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local government units to whom authority has been lawfully delegated to respond to public emergency telephone calls, at a minimum, for emergency police and fire services through the use of one TTN. For clarity, an E911 Authority may be an individual PSAP, or an entity responsible for the management and operation of multiple PSAPs within a given geographic area.
6. "End User" means the individual placing a 911 Call from a Customer's TTN (defined below).
7. "Enhanced 911" or "E911" means the ability to route an emergency call to the designated entity authorized to receive such calls serving the Customer's provided address and to deliver the Subscriber's telephone number and corresponding Registered Emergency Address or REA information automatically to the 911 professional answering the call.
8. "P-Asserted-Identity" means a header field used among trusted SIP entities (typically intermediaries) to carry the identity of the user sending a SIP message as it was verified by authentication.
9. "Private Branch Exchange" or "PBX" means a telephone system within an enterprise that switches calls between enterprise users on local lines while allowing all users to share a certain number of external phone lines.
10. "Public-Service Access Point" or "PSAP" means an answering location for 911 Calls originating in a given area. The E911 Authority may designate a PSAP as primary or secondary, which refers to the order in which calls are directed for answering. Primary PSAPs answer calls; secondary PSAPs receive calls on a transfer basis. PSAPs are public safety agencies such as police, fire, emergency, medical, etc., or a common bureau serving a group of such entities.
11. "Registered Emergency Address" or "REA" means the physical address provided by the Customer to be used for E911 and Basic 911, which may be used to dispatch police, fire, emergency medical and other emergency response resources.
12. "SIP" means Session Initiation Protocol, which is the signaling protocol used between VoIP networks to establish, control and terminate voice calls.
13. "Subscriber" means an End User or telephone device assigned a TTN.
14. "TTN" or "MarketSpark Trunk Number" means a United States or Canada telephone number bought by the Customer from MarketSpark and assigned to a trunk for use with MarketSpark's elastic SIP trunking service.
15. "VoIP" means Voice over Internet Protocol.

## 2. 911 Service Description and Use of Service.

1. **E911 Services.** With E911, when an End User places a 911 Call, such call will typically be routed to the local PSAP that covers Customer's REA. In limited circumstances, as further described below in Section 1.c.ii, the 911 Call may be routed to a Regardless of which PSAP the 911 Call is routed to, if and only if the associate trunk is properly provisioned, the 911 professional will receive the (1) TTN associated with the 911 Call and (2) Customer's REA.
2. **Basic 911.** With Basic 911, when an End User places a 911 Call, this call is always sent to the local PSAP serving the End User's physical location. 911 professionals answering 911 Calls from End Users will not automatically receive the associated TTN or REA because the PSAP to which the 911 Call was routed will not be equipped to receive, capture, or retain End User's assigned TTN or REA. Accordingly, End Users must provide both call-back and emergency address information to the 911 professionals. If the 911 Call is dropped or disconnected, or if the End User is unable to speak, then the 911 professional will not be able to call the End User back or dispatch emergency assistance to the End User's physical location. As additional local PSAPs are able to answer E911 calls, MarketSpark will upgrade Customer from Basic 911 to E911 service. MarketSpark is not obligated, however, to notify Customer of the upgrade. In limited circumstances, Customers equipped with Basic 911 may have their calls routed to a PSAP, as further described below.
3. **PSAP Service.** Certain TTNs will not have access to either Basic 911 or E911 services. If Customer has TTNs that do not have access to either E911 or Basic 911, 911 Calls will be routed to a PSAP. A 911 professional at the PSAP will ask for End User's name, telephone number, and location, and then transfer the End User to the appropriate local PSAP or otherwise determine the best way to provide emergency services to the End User. As

with Basic 911, 911 professionals answering calls in a PSAP will not receive the End User's TTN or REA because PSAPs are not equipped to receive, capture or retain this information. Accordingly, the End User must provide this information to the 911 professional. Other reasons that an End User's 911 Calls may be sent to a PSAP is if (a) there is a problem validating the REA provided by Customer during provisioning, (b) Customer is located in an area that is not covered by the landline 911 network, or (c) Customer has Basic 911 or E911 service but these calls fail to complete and are routed to a PSAP for failover purposes.

3. Notwithstanding any term or condition of these 911 Terms to the contrary, Customer will only utilize MarketSpark's E911 and/or Basic 911 services pursuant to these 911 Terms for Approved Uses.
4. Customer will ensure that End Users do not block their TTN on a device they are using when placing a 911 Call and the TTN shall be made available in the From/P-Asserted-Identity SIP headers of the incoming SIP request.
5. Customer acknowledges and agrees that MarketSpark can only provide E911 call routing in territories where the PSAP or E911 Authority offers E911. All other 911 calls made by End Users successfully registered in MarketSpark's database will be routed using the ten-digit outbound trunks or a 911 professional.
6. Customer will provide MarketSpark with and keep current the correct and valid REA for each TTN for which the Customer desires 911 Services. The REA provided must include sufficient information to enable emergency responders to locate the End User and must comply with all Multi-line Telephone System ("MLTS") requirements applicable to Customer. For example, one MLTS requirement may be that for each End User and Subscriber located in a multi-floor building, Customer must include a floor or suite number as part of the REA. MARKETSPARK WILL NOT HAVE ANY LIABILITY WHATSOEVER FOR ANY DAMAGE, LIABILITIES, LOSSES, OR ANY OTHER CONSEQUENCES CAUSED BY CUSTOMER'S FAILURE TO KEEP ITS AND ITS END USERS' REA INFORMATION UPDATED. Customer will provide a TTN with every Subscriber and/or End User call presented to MarketSpark for processing. MarketSpark will have no obligation to provide 911 Services with respect to any Subscriber or End User call that does not include a TTN and will not be liable for any claims arising from any efforts undertaken by MarketSpark to provide 911 Services under such circumstances.
7. **Customer Obligations.** (i) Customer will be solely responsible for compliance with all applicable laws and/or other governmental requirements imposed or required by any state or other applicable governmental authority; and (ii) Customer will inform any party using (or any party that might use) the 911 Services of the difference between traditional 911 and VoIP 911 service in compliance with all applicable laws and/or other governmental requirements imposed or required by any governmental authority, including, without limitation, the Federal Communications Commission ("FCC"). For clarity, MarketSpark will not be responsible if 911 Service is unavailable due to loss of power; certain features may not be compatible with 911 service; and MarketSpark reserves the right to refuse provisioning or modification of features or service if such provisioning or modification adversely affects 911 service.
8. **Customer Testing.** Customer will be solely responsible to test the 911 Services after installation and periodically throughout the Term and will notify MarketSpark if Customer notes any issues at any time with the Service. Customer agrees to test 911 Services and share the results of such testing at the request of MarketSpark.
9. **Equipment; Connection; Customer's Responsibilities.** MarketSpark will not provide any equipment or any electronic tools, except as may be expressly set forth in writing and executed by Customer and MarketSpark. Customer must connect to MarketSpark's network in a manner and at locations determined by MarketSpark. Customer will, at Customer's sole cost and liability as between Customer and MarketSpark, be solely responsible for (i) providing and successfully installing any and all equipment, software and the like necessary for End Users to use any service offered or sold by Customer; and (ii) any and all support for any End User to which Customer offers or sells services.
10. **Charges and Rates.** If applicable, Customer shall pay an additional fee per TTN enabled to use the 911 Services ("911 Fee").
11. CUSTOMER ACKNOWLEDGES AND AGREES THAT MARKETSPARK'S EMERGENCY SERVICE IS INTERNET-BASED AND THAT INTERNET 911 SERVICES ARE DIFFERENT THAN THAT OF A TRADITIONAL WIRELINE SERVICE. CUSTOMER FURTHER ACKNOWLEDGES THAT THE MARKETSPARK EMERGENCY SERVICE MAY NOT SUPPORT BASIC 911 OR E911 DIALING IN THE SAME MANNER AS A TRADITIONAL WIRELINE PHONE SERVICE. FOR BASIC 911 OR E911 TO BE ACCURATELY ROUTED TO THE APPROPRIATE EMERGENCY RESPONDER, THE CUSTOMER MUST PROVIDE THE REA FOR THE ASSOCIATED TTN.
12. CUSTOMER ACKNOWLEDGES AND AGREES TO INFORM END USERS OF THE POTENTIAL COMPLICATIONS ARISING FROM BASIC 911 OR E911 DIALING. SPECIFICALLY, CUSTOMER ACKNOWLEDGES AND AGREES TO INFORM ALL EMPLOYEES, GUESTS, AND OTHER THIRD PERSONS WHO MAY ALSO BE END USERS THAT BASIC 911 AND E911 SERVICES WILL NOT FUNCTION IF THERE IS A SERVICE FAILURE DUE TO ANY OF THE FOLLOWING CIRCUMSTANCES: (A) POWER FAILURE, (B) SUSPENDED OR TERMINATED BROADBAND SERVICE, (C) SUSPENSION OF SERVICES DUE TO BILLING ISSUES, (D) USE OF CERTAIN FEATURES WHICH ARE NOT COMPATIBLE WITH 911 SERVICES, AND/OR (E) ANY OTHER SERVICE OUTAGES NOT DESCRIBED HEREIN. MARKETSPARK RESERVES THE RIGHT TO REFUSE PROVISIONING OR MODIFICATION OF FEATURES OR SERVICE IF SUCH PROVISIONING OR MODIFICATION ADVERSELY AFFECTS THE 911 SERVICES.
13. CUSTOMER FURTHER ACKNOWLEDGES THAT FAILURE TO PROVIDE A CORRECT PHYSICAL ADDRESS IN THE REQUISITE FORMAT MAY CAUSE ALL BASIC 911 OR E911 CALLS TO BE ROUTED TO AN EMERGENCY SERVICE PROVIDER NOT LOCATED NEAR THE END USER. FURTHERMORE, CUSTOMER RECOGNIZES THAT USE OF THE 911 SERVICES FROM A LOCATION OTHER THAN THE LOCATION INDICATED IN THE REA MAY RESULT IN BASIC 911 OR E911 CALLS BEING ROUTED TO AN EMERGENCY SERVICE PROVIDER NOT LOCATED NEAR THE END USER.

14. CUSTOMER ACKNOWLEDGES AND AGREES THAT NEITHER MARKETSPARK, ITS UNDERLYING CARRIER, AND ANY OTHER THIRD PARTIES INVOLVED IN THE ROUTING, HANDLING, DELIVERY OR ANSWERING OF 911 SERVICES OR IN RESPONDING TO 911 CALLS, NOR THEIR DIRECTORS, OFFICERS, SHAREHOLDERS, EMPLOYEES, OR AGENTS MAY BE HELD LIABLE FOR ANY CLAIM, DAMAGE, LOSS, FINE, PENALTY, OR COST (INCLUDING, WITHOUT LIMITATION, ATTORNEYS' FEES AND COSTS) ARISING FROM OR RELATING TO THE PROVISION OF ALL TYPES OF EMERGENCY SERVICES TO CUSTOMER AND CUSTOMER HEREBY WAIVES ANY AND ALL SUCH CLAIMS OR CAUSES OF ACTION ARISING THEREFROM.
15. **E911 Limitation of Liability.** Customer agrees that MarketSpark, its affiliates, its authorized resellers, and their respective directors, officers, shareholders, employees, and agents will not be liable for any loss or damage sustained by Customer or ANY End Users due to any failure in or breakdown of the communication facilities associated with providing the 911 Services, or for any delay, interruption, or degradation of the Services whatsoever; provided, however, that MarketSpark remains liable for gross negligence or willful misconduct by MarketSpark, its directors, officers, shareholders, employees, and agents.
16. In no event will the liability of MarketSpark or its authorized resellers to Customer for any loss arising out of the 911 Services provided pursuant to these 911 Terms or any errors, interruptions, defects, failures or malfunctions of the 911 Services provided pursuant to these 911 Terms, including, without limitation, any and all equipment and data processing systems associated therewith, exceed an amount equal to the total Charges paid by Customer in the twelve (12) months preceding the claim. Customer waives any claim that these exclusions or limitations deprive it of an adequate remedy or cause these 911 Terms to fail of its essential purpose. Customer further acknowledges, understands and agrees that MarketSpark has no control over how a foreign administration or third-party carrier establishes its rules and conditions pertaining to international telecommunications service.

Furthermore, Confidential Information of the other party may be disclosed insofar as such disclosure is necessary to allow a party to comply with applicable law, with a decision by a court of law or to comply with requests from government agencies that such party determines require disclosure, but then only after first notifying the other party of the required disclosure, unless such notification is prohibited. Customer shall promptly notify Lookout of any actual or suspected misuse or unauthorized disclosure of Lookout's Confidential Information.

Customer is responsible and shall be liable for any breaches of this Section and any disclosure or misuse of any Confidential Information by Customer's employees or agents (or any other person or entity to which Customer is permitted to disclose Confidential Information pursuant to this Section).

NON-INFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY EITHER PARTY HERETO, ITS AGENTS OR EMPLOYEES SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THE WARRANTIES SET FORTH IN THIS AGREEMENT.

NOTWITHSTANDING ANY PROVISION TO THE CONTRARY, LOOKOUT DOES NOT WARRANT THAT THE SERVICES WILL MEET ALL REQUIREMENTS OF CUSTOMER OR ANY END USER, OR THAT THE OPERATION OF THE SERVICES WILL BE UNINTERRUPTED OR ERROR FREE, OR THAT ALL DEFECTS IN THE SERVICES WILL BE CORRECTED. b. By Lookout. Lookout will indemnify, defend, and hold harmless Customer from and against all damages, and costs (including settlement costs and reasonable attorneys' fees), if any, finally awarded against Customer from any claim of infringement or violation of any U.S. or E.U. issued patent, copyright or trademark asserted against Customer by a third-party based upon Customer's use of the Services in accordance with the terms of this Agreement. The foregoing indemnification obligation for Lookout shall not apply in the following circumstances (each, an "Indemnity Exclusion"): (1) if the Services are modified by any party other Lookout, but only to the extent the alleged infringement would not have occurred but for such modification; (2) if the Services are modified by Lookout at the request of Customer, but only to the extent the alleged infringement would not have occurred but for such modification; (3) if the Services are combined with other non-Lookout products or processes not authorized by Lookout; but only to the extent the alleged infringement would not have occurred but for such combination; (4) to any unauthorized use of the Services; (5) to any superseded release of the Products if the infringement would have been avoided by the use of a current release of the Services that Lookout has provided to Customer prior to the date of the alleged infringement; or (6) to any third party software code contained within the Services.

The indemnifying party has full control and authority over the defense, except that: (i) any settlement requiring the party seeking indemnification to admit liability requires prior written consent, not to be unreasonably withheld or delayed and (ii) the other party may join in the defense with its own counsel at its own expense. THE INDEMNITIES ABOVE ARE LOOKOUT AND CUSTOMER'S ONLY REMEDY UNDER THIS AGREEMENT FOR VIOLATION BY THE OTHER PARTY OF A THIRD PARTY'S INTELLECTUAL PROPERTY RIGHTS.

## **22. General Terms.**

a. Entire Agreement. This Agreement, together with the Enterprise User Terms of Service and any Orders constitute the entire agreement between Lookout and Customer with respect to its subject matter, and supersedes all prior and contemporaneous proposals, statements and agreements. In the event any provision of this Agreement is held by a court or other tribunal of competent jurisdiction to be invalid or unenforceable for any reason, that provision will be enforced to the maximum extent permissible under applicable law, and the other provisions of this Agreement will remain in full force and effect. The parties further agree that in the event such provision is an essential part of this Agreement, they will negotiate in good faith a replacement provision to replicate the intention of such provision to the maximum extent permitted under applicable law.

d. If Customer is a government or an agency or other unit of government located in the United States (a "US Government Customer") and the law establishing or otherwise governing such Customer expressly requires Customer to enter into contracts under a particular law and/or prohibits any choice of law provision imposing any law other than the law under which Customer is authorized to act, then the preceding paragraph shall not apply with respect to the US Government Customer's use of the Lookout Enterprise Service while performing in its official government capacity.

e. Assignment. Customer may not assign or transfer any part of this Agreement without the written consent of Lookout. h. Third Party Beneficiaries. Except as explicitly provided herein, there are no third party beneficiaries to this Agreement.

i. Terms Modification; Waiver. Lookout may revise this Agreement from time to time and the most current version will always be posted on the Lookout website. If a revision, in Lookout's sole discretion, is material, Lookout will notify Customer through the Administrative Console with Subject "NOTICE – AGREEMENT MODIFICATION" or, as otherwise by notice sent to Customer's address on record by Lookout. Other revisions may be posted to Lookout's terms page, and Customer is responsible for checking such postings regularly. Otherwise, no waiver, amendment or modification of any provision of this Agreement, and no variance from or addition to the terms and conditions of this Agreement in any Order or other written notification, shall be effective unless in writing and agreed to by the parties hereto. No failure or delay by either part in exercising any right, power or remedy under this Agreement shall operate as a waiver of such right, power or remedy. ## One Talk<sup>SM</sup> and Message+ from Verizon - Government Terms of Service

One Talk from Verizon, together with its related devices, software and applications ("**Service**" or "**One Talk**"), is a commercially available

business telephone solution that brings together the functions of office phones and mobile devices (smartphones and tablets) into a unified system, with all devices sharing the same communication features. (See <https://www.verizonwireless.com/support/one-talk-features/> for a listing of features currently available with the Service.)

The following terms of service apply to the One Talk Service. "Customer" means the eligible entity purchasing the One Talk service under the Contract along with any Customer end users using the Service.

**Customer Agreement.** Customer's use of the Service is subject to all Contract terms. This applies regardless of whether the end user device is on the Customer's account or paid for by the end user (e.g. a Bring Your Own Device arrangement between Customer and end user).

**How the Service Works.** For the Service to work on wireless devices, Customer must select the line on your agency's profile to which you wish to add the One Talk feature. Each One Talk phone number can be shared between devices with the following limits: (a) up to five smartphones and/or tablets using the One Talk Mobile App or Microsoft® Windows® and/or Apple® Mac® computers using the One Talk Desktop App, a single LTE Desk phone and a single standard desk phone or (b)

up to five smartphones and/or tablets using the OneTalk Mobile App or Microsoft® Windows® and/or Apple® Mac® computers using the One Talk Desktop App, two standard desk phones and a single smartphone using One Talk. You may only make voice and/or video calls with up to three (3) devices per One Talk phone number at the same time. The Service is not compatible with all price plans and desk phones are not available under all contracts. Check with your sales representative for plan compatibility with the Service and the availability of desk phones under the Contract.

Customer is solely responsible for managing its end user access to the One Talk Service, management of end user devices and management of information transmitted via the Service. Addition of devices and associated Service features is managed and administered by the Customer through Verizon Wireless' web portal.

#### **A. One Talk Components**

**One Talk Dialers.** If available, the One Talk Dialers (Basic, Enhanced, and Native) add various business features to a compatible device's native dialer, which on a compatible smartphones (see <https://www.verizonwireless.com/support/compatible-one-talk-devices/> for a current list of supported devices.) With One Talk in Dialer mode, Customer's One Talk phone number will be the same as its Verizon Wireless phone number. Customer can obtain access to One Talk features by dialing numeric codes. Other devices that you select will share the same One Talk phone number.

**One Talk Mobile App.** The One Talk Mobile App is available for smartphone and tablets either from the Google Play™ Store for devices with Android™ 6.0 or higher or from the Apple® App Store for devices with iOS 10.0 or higher. To use the Service, Customer must add a One Talk phone number to the Mobile App and end users must use the Mobile App to make voice and video calls and to send and receive messages. You can also obtain access to One Talk features through the Mobile App. With the Mobile App, the device will have two phone numbers – one for its original native dialer (if available), and the other for the One Talk number. Other associated devices will share the same One Talk number. Users may install the One Talk Mobile App on a compatible device, including devices receiving service from other carriers. In such circumstances, One Talk phone numbers must be added to their devices, and the users will be Verizon Wireless subscribers for purposes of the Service only, even if they continue to use a different carrier for their original mobile telephone numbers. In order to use messaging through the One Talk Mobile App, the customer also must add the Message + App.

**Message+ App.** The Message+ App provides an integrated and customized messaging experience across an end user's mobile phone, tablet, PC, and other devices, and an integrated calling experience across a user's mobile phone and tablet. (Note that integrated calling is not part of the One Talk Service.) An end user can also send group, location and other multimedia messages ("MMS") in addition to traditional text messages. The Message+ App includes an Integrated Messaging feature that lets users send and receive text and multimedia messages on an end user's smartphone, tablet, computer or the web using a user's Verizon One Talk mobile telephone number. The service syncs up to 90 days of messages across an end user's devices.

**One Talk Desk Phones.** Each One Talk Desk Phone is a device that must be approved by and purchased from Verizon Wireless. At your location, you will need separate AC power and connectivity (e.g., through cellular service, broadband service, Ethernet or Wi-Fi). Check with your Verizon Wireless sales representative for the availability of desk phones under the Contract.

**Auto Receptionist: Hunt Group.** In order to utilize either of these features, Customer must activate a new Verizon Wireless line or port in a line from another carrier. The settings for the line must be configured using the One Talk section of the My Business web portal.

#### **B. Charges**

For each One Talk line, you will be charged a monthly recurring fee for the Service, in addition to the charges for data, voice, and messaging based on your service plan. Charges for international use may apply. You may be assessed additional 911 surcharges if required by law, for up to a maximum of three devices on each mobile phone number during the applicable billing cycle.

**Desk Phones.** Voice and video calls to and from One Talk desk phones will consume data on your existing broadband, cellular, or Wi-Fi connection.

The following applies if you use the VZW network to connect to the Service:

**One Talk Dialers** (Basic, Enhanced, and Native). Adding the One Talk feature to a smartphone does not consume any data. If you have a device that supports video calling, the voice portion will be billed as minutes of use and the video portion will be billed as data. Voice calls will be billed as minutes of use only.

**One Talk Mobile App.** Your download of the One Talk Mobile App will consume approximately 30 MB of data. Your use of the Service (including your download of the One Talk Mobile App) will be billed as data.

**One Talk Desktop App.** Your download of the One Talk Desktop App will consume approximately 110 MB of data. Voice and video calls to and from the One Talk Desktop App will consume data on your existing broadband connection.

**Desk Phones.** Voice and video calls to and from One Talk desk phones will consume data on your existing broadband connection. **Auto Receptionist; Hunt Group.** You will be charged a monthly recurring fee for each Auto Receptionist and Hunt Group line in your company's profile.

**Integrated Calling Charges (Message+).** Integrated Calling does not have a separate monthly service fee, but data usage charges will be incurred in accordance with Customer's service plan. If a call is transferred among connected devices, each transfer will be billed as a separate call. Also, depending on the service address, Customer may be assessed an additional 911 charge if required by law. Any call made from a tablet to a U.S. number will be treated as a domestic call, no matter where the call originates. Any call made from a tablet to a non-U.S. number will be treated as an international long distance call that originates in the U.S., which is subject to U.S. taxes, fees and Verizon surcharges, no matter where the call actually originates. These calls will be billed in accordance with Customer's international calling plan and/or international Contract rates.

**Emergency 911 Calls.** End users can make a 911 call over a Wi-Fi connection when using the Service, but whenever possible, end users should avoid doing so because 911 calls over a WiFi connection will not work if there is a failure of your broadband connection or electrical power, or if the 911 system doesn't recognize the address. In addition, when using a One Talk desk phone, voice functionality (including the ability to make and receive 911 calls) will not be available during a power outage, connection failure or other service disruption. Before any desk phone can be activated or the Service can be activated on any device, Customer must enter the U.S. address where Customer wants emergency services to be sent if end users call 911. It is not necessary to use the same address for all devices. It is very important that Customer updates its 911 address whenever Customer changes its location for any of these devices because this is the location that will be given to emergency services when end users dial 911. End users can go to their mobile device's Settings and change their 911 address at any time. Customer can change the 911 address for a desk phone on the One Talk section of the My Business web portal. Note: With a device using the One Talk Mobile App or the One Talk Desktop app, emergency services will use the 911 address you entered only if you use Wi-Fi to make the 911 call; otherwise, your device's built-in capabilities will provide the location of your device.

**Integrated Messaging Text Message Feature.** To send and receive SMS messages, Mobile devices associated with either One Talk Basic Dialer (if available) or One Talk Mobile App must download the Message+ App to the device. The Integrated Messaging functionality of Message+ enables you to synchronize messages across multiple devices, including smartphones, tablets and the web. Text messages sent and received while using the Service are separate from the native texting app (dual numbers) and are only temporarily retained on the One Talk message platform in the cloud. End users with access to the Service on a Smartphone or the Mobile Client can retrieve/download any text message sent or received using the Service.

**HIPAA.** Integrated Messaging is not designed for secure transmission or storage of personal healthcare information. Therefore, Customer agrees not to use Service to store or transmit Protected Health Information (PHI) as defined in the Health Insurance Portability & Accountability Act of 1996 and the Health Information Technology for Economic and Clinical Health Act of 2009 and accompanying regulations (collectively "HIPAA"). Covered Entities and Business Associates (as defined by HIPAA) will not use Integrated Messaging to store or transmit PHI. Customers that do not want its end users to save messages to the cloud (including all Covered Entities and Business Associates, as defined by HIPAA), must have an authorized representative block Integrated Messaging. For further information, go to <https://web.vma.vzw.com/BusinessProduct>. To learn more about HIPAA, go to:

<http://www.hhs.gov/ocr/privacy/hipaa/understanding/index.html>.

## ENTERPRISE MESSAGING TERMS OF SERVICE (PUBLIC SAFETY)

Verizon Wireless's Enterprise Messaging Access Gateway platform and portal ("EMAG") allows public safety customers ("Customer") to send high volumes of text messages. This agreement is between Customer as our subscriber and Verizon Wireless ("VZW") and it sets forth the terms and conditions under which Customer agrees to use and VZW agrees to provide access to EMAG. By using EMAG, Customer accepts these Terms of Service ("TOS"), which may be modified by VZW from time to time.

- Enterprise Messaging.** VZW provides the EMAG Service through two different EMAG plans. The Enterprise Gateway features allows a Customer to send bulk short message service ("SMS") messages and/or bulk multimedia messaging service ("MMS") messages, as applicable, to VZW subscribers, and send individual-to-individual messages to subscribers of most domestic wireless carriers. The Enhanced Messaging Features allow Customer to send bulk SMS messages to VZW subscribers and subscribers of eligible North American Numbering Plan ("NAMP") eligible carriers using VZW provided toll-free numbers. The Enhanced Messaging Features supports the sending and receiving of SMS messages only and not all carriers are supported. Contact your VZW Sales Representative for a complete list of supported destination countries and carriers. Availability, quality of coverage and service is not guaranteed, and supported destination countries may change without notice. Customer acknowledges that intercarrier messaging may be subject to message size, throughput requirements, blocking, throttling and filtering. Delivery of traffic may be affected by another carrier's policies and messaging terms. Customers must have a valid Blanket Purchase Agreement with at least five (5) active Government lines ("MDNs") and a physical address within VZW's licensed service area. Customer is solely responsible for monitoring its messaging operations. Customers using the EMAG Portal must provide a user ID and password and must safeguard the Portal credentials and prevent unauthorized use. VZW has the right to alter or not offer the EMAG service in part or at all. For the term of the TOS, Customer will receive for use the following depending on plan/features type: For the Enterprise On-Net Plan – Five (5) private On Network Messaging sending numbers for use on the VZW network only. For the Enhanced Messaging Features – One (1) Toll Free Enhanced Messaging sending number to use with the Enhanced Plan. VZW reserves the right upon prior notice to reclaim any phone number used for EMAG if Customer does not send sufficient traffic over it and the number may be re-assigned to another customer.
- Term and TOS Termination.** The term of this TOS shall be one year from the date the Customer signs the TOS ("Effective Date"). The TOS shall automatically renew for additional terms of one (1) year each, unless either Party shall give notice of cancellation at least thirty (30) days prior to the expiration of the original term or any renewal term or the TOS or service is otherwise terminated as per the terms of this TOS. Either party may terminate this TOS upon thirty (30) day's written notice to the other party for any reason. Fees are payable on a monthly basis and subject to increase upon thirty (30) days' notice to the Customer. Upon termination by the Customer, fees are due and payable up to the end of the month of termination.
- Intellectual Property.** VZW owns all rights, including intellectual property rights, in EMAG and its components, software, tools, portal, documentation, and other materials relating thereto, including modifications, updates, revisions or enhancements. All rights not explicitly given are reserved by VZW.
- License Rights and Restrictions.** Subject to the TOS and all documentation provided by VZW, VZW grants to Customer a personal, revocable, limited, nonexclusive, non-transferable, non-sublicensable license during the Term to access and use EMAG solely to send text and picture messages for internal business use. Customer will not, and will not allow any Third Party to, (a) modify, copy, or otherwise reproduce EMAG in whole or in part; (b) reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code form or structure of any of the elements used in EMAG; (c) provide, lease or lend EMAG in whole or in part to any Third Party; (d) remove any proprietary notices or labels displayed on EMAG; (e) modify or create a derivative work of any part of EMAG; (f) use EMAG for any unlawful purpose; (g) use EMAG for any high risk or illegal activity; (h) use EMAG in contravention of any of VZW's policies, procedures, rules or guidelines provided or made available by VZW or use EMAG in such a way that it interferes with, disrupts, damages, or accesses in an unauthorized manner the servers, networks, or other properties

or services of VZW; (i) export or re-export EMAG without the appropriate U.S. or foreign government licenses; (j) incorporate or combine EMAG in whole or in part with any open source software in such a way that would cause EMAG, or any portion thereof, to be subject to all or part of the license terms of such open source software; or (k) provide access to or use of EMAG to any Third Party or sublicense any rights in EMAG to any Third Party. Customer is not entitled to resell the EMAG services without the express written approval of VZW.

5. **Content.** Customer is solely responsible for its content it transmits through EMAG (or use by any person or entity Customer permits to access EMAG). Provision of intercarrier messaging is provided through a third-party vendor. Customer agrees that its messaging will comply with applicable industry guidelines (e.g. Mobile Marketing Associate's best practices for messaging, and CTIA's Messaging Principles and Best Practices)), third-party vendor guidelines and content standards, and VZW content standards (attached hereto as Exhibit "A"), which may updated from time to time ("Messaging Guidelines"). Customer will not send any unsolicited bulk commercial messages (*i.e.*, spam), "phishing" messages intended to access private or confidential information through deception, other forms of abusive, harmful, or malicious, unlawful, or otherwise inappropriate messages, messages which required an opt-in that was not obtained, messages containing executable files or links to other content or premium or similar messages that require a subscription or surcharge, and as otherwise set forth in the Messaging Guidelines or as determined by VZW, in its sole discretion. Customer will not transmit any messages that would violate any federal, state or local law, court order, regulation or the Messaging Guidelines. Customer will cooperate with VZW and/or any governmental authority in investigating any violation or prohibited use of EMAG.
6. **Consent Requirements.** Customer agrees that it will send messages only to subscribers that have opted in to receive its messages by: a) establishing an opt-in process that effectively captures each subscriber's consent to receive Customer's messages, informs subscribers of the nature and scope of Customer's messaging campaigns and any financial obligations associated with the messaging; b) maintaining opt-in records for a minimum of 6 months from the date of a recipient's opt-in consent; and c) immediately complying with subscriber opt-out requests such as STOP, END, CANCEL, UNSUBSCRIBE or QUIT in compliance with the Messaging Guidelines. Customer will send messages that require opt-in consent only to those recipients that have affirmatively opted in to receive such messages. Although VZW may provide in the Portal a way to manage lists of opt-out records, it is up to the Customer to obtain the consents and maintain proper records and VZW accepts no responsibility for consents and retention of such records.
7. **HIPAA.** EMAG is not designed for secure transmission or storage of personal healthcare information. Customer will not use EMAG to store or transmit Protected Health Information ("PHI") as defined in the Health Insurance Portability & Accountability Act of 1996 and the Health Information Technology for Economic and Clinical Health Act of 2009 and accompanying regulations (collectively, "HIPAA"). If Customer is a Covered Entity or a Business Associate as defined by HIPAA, Customer will not use EMAG to store or transmit PHI. To learn more about HIPAA, go to: <http://www.hhs.gov/ocr/privacy/hipaa/understanding/index.html>.
8. **Fees.** Customer will pay monthly to VZW the amount in the below chart for each SMS and/or MMS sent through EMAG. The billing and payment terms set forth in Customer's Government agreement with VZW will apply to the EMAG charges set forth on your VZW bill. Additional charges may apply for inter-carrier messaging Application to Person ("A2P") traffic. VZW reserves the right to increase pricing upon thirty (30) days' notice.
9. **Pilot Mobile Phone.** VZW shall provide Customer with one pilot mobile phone at no charge to manage password setup and resets. Customer should safeguard the pilot mobile phone in case password resets are needed as VZW must rely on regular mail delivery of password resets if the phone is not available (password resets cannot be given over the phone or sent via email). This pilot mobile phone will not be capable of making any voice calls. Customer shall promptly notify VZW if the phone is lost, damaged or stolen and VZW reserves the right to charge Customer for replacement phones.
10. **Security and Unauthorized Code.** Customer will comply with VZW's information security requirements available at <http://www.verizon.com/suppliers> (or successor website) as updated from time to time. Customer will implement and maintain effective administrative, physical and technical security controls to protect VZW's assets, network and other facilities, information and EMAG that Customer accesses or uses. Customer will design, develop, build, operate and maintain your access to EMAG to sufficiently prevent the transmission of Unauthorized Code and mitigate security threats, including, but not limited to, unauthorized access, use or fraud. Customer will not send or introduce any Unauthorized Code to EMAG, VZW's network or any other VZW system or facility. Customer will not use EMAG, or permit any Third Party to use EMAG, to engage in any fraudulent, illegal, or unauthorized use. Customer will continually monitor for the presence of any Unauthorized Code. In the event you detect the presence of any Unauthorized Code, Customer will: (a) notify VZW in writing the same day the Unauthorized Code is detected; (b) promptly remove

the Unauthorized Code; and (c) promptly remedy any condition caused by the Unauthorized Code. VZW may audit your use of EMAG. Should such audit request be denied, or should the audit reveal a violation of applicable laws, regulations, policies or procedures, or this TOS, VZW may immediately terminate this TOS and your use of EMAG. **“Unauthorized Code”** means any virus, Trojan horse, worm, rootkit, back door, trap door, time bomb, drop-dead device, timer, clock, counter or other limiting routine, as well as any other instructions, designs, software routines, or hardware components designed to: (a) disable, erase, or otherwise harm software, hardware, data, text or any other information stored in electronic form; (b) cause any of the foregoing with the passage of time; or (c) place a program or hardware under the positive control of a Third Party other than an owner or licensee of the program or hardware.

**11. Certification Tests.** VZW may conduct certification tests in its sole discretion. Customer will pass such certification tests furnished by VZW prior to using EMAG. If Customer fails any such certification tests, then VZW may, in its sole discretion, refrain from providing Customer with access to EMAG.

**12. Data Retention and Access.** VZW provides access to the metadata relating to the messages (time/date/sent/received) for up to one year. For messages sent or received over the EMAG APIs, VZW provides Customer access to messaging content for up to fourteen (14) days, after which time it is deleted. For messages sent or received over the Portal, VZW retains Customer message content for sixty (60) days, after which time it is deleted.

**13. Customer Contact.** Customer will provide to VZW contact information including a phone number and email address of an EMAG contact(s), who shall be available during business hours and during such time as Customer utilizes EMAG to assist with the resolving of service matters and trouble shooting. Customer must provide written notice of changes to contact information fourteen (14) days prior.

**14. Termination of Service.** VZW CAN, WITHOUT NOTICE, LIMIT, SUSPEND, OR CANCEL CUSTOMER'S ACCESS TO OR USE OF EMAG IF CUSTOMER VIOLATES THE RESTRICTIONS OF THIS TOS OR FOR GOOD CAUSE, which shall include, but is not limited to: (a) breaching this TOS or Customer's Government agreement with VZW; (b) spamming or other abusive messaging; (c) using EMAG in a way that adversely affects our network, our customers, or other customers; (d) allowing anyone to tamper with messaging applications in a manner contrary to this TOS; (e) any governmental body of competent jurisdiction suspends or terminates Customer's service or institutes a requirement, ruling or regulation that conflicts with this TOS; or (f) operational or other governmental reasons.

**15. Service Limitations.** VZW may establish limits on the use of EMAG, including, but not limited to, the number of messages sent over a limited time period (i.e., per minute, hourly and daily), the number of active connections, and recommended connections per group, as set out in our User's Guide (available on the EMAG Portal) which may be updated from time to time. VZW provides no service level commitments or quality of service standards for EMAG. VZW will provide to Customer maintenance, technical and support services for EMAG, as determined by VZW in its sole discretion. VZW may extend, enhance, or otherwise modify EMAG at any time and for any reason without notice. There are limitations to wireless messaging which by their nature do not permit or may delay the delivery of text messages. These limitations include, but are not limited to, network limitations, when a wireless phone is not in range of one of our transmission sites or those of another company that carries our customer calls, insufficient network capacity, interference due to subscriber's equipment, terrain, proximity to buildings, foliage, and weather. Further, VZW does not own or control all of the various facilities and communications lines between a Customer's site and VZW's EMAG access point. Experience by carrier and region may cause the experience to vary. Due to these limitations and the limitation in the number of messages that can be sent, EMAG SHOULD NOT BE USED AS THE SOLE MEANS TO SEND MESSAGES THAT CONTAIN INFORMATION THAT IS ESSENTIAL TO THE PROTECTION OF LIFE OR PROPERTY, OR IS MISSION ESSENTIAL OR CRITICAL IN OTHER WAYS. VZW reserves the right to block any messaging traffic that violates this TOS or harms or may harm VZW, EMAG or our assets, network or facilities.

**16. Disclaimer and Limitation of Liability.** EMAG IS PROVIDED ON AN "AS IS" BASIS AND CUSTOMER'S USE OF EMAG IS ITS SOLE RESPONSIBILITY. VZW (AND ITS OFFICERS, EMPLOYEES, PARENTS, SUBSIDIARIES AND AFFILIATES), ITS THIRD PARTY LICENSORS, PROVIDERS VENDORS AND SUPPLIERS, DISCLAIM ANY AND ALL WARRANTIES FOR EMAG OR TEXT MESSAGE DELIVERY, WHETHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, NONINTERFERENCE, AND THOSE ARISING FROM COURSE OF DEALING, COURSE OF TRADE, OR ARISING UNDER STATUTE. VZW DOES NOT WARRANT THAT EMAG WILL BE WITHOUT FAILURE, DELAY, INTERRUPTION, ERROR, OR LOSS OF CONTENT, DATA, OR INFORMATION. VZW SHALL NOT BE LIABLE FOR ANY FAILURE TO PROVIDE EMAG, FOR ANY CONTENT, AND MAKES NO GUARANTEES THAT ANY TEXT MESSAGE WILL BE DELIVERED. NEITHER PARTY, NOR ITS AGENTS OR VENDORS, SHALL BE LIABLE TO THE OTHER PARTY, ITS EMPLOYEES, AGENTS OR ANY THIRD PARTY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES. IN THE EVENT OF ANY BREACH BY VZW OF THIS TOS, VZW'S LIABILITY TO CUSTOMER SHALL NOT EXCEED THE AMOUNT PAID TO VZW BY CUSTOMER UNDER THIS TOS DURING THE PREVIOUS THREE MONTHS.

**17. Indemnification.** Customer shall defend, indemnify, and save harmless VZW and its successors, assigns, employees, and agents, and their heirs, legal representatives and assigns from any and all claims or demands, including claims for bodily injury or death, or damage to property, arising from Customer's use of EMAG, including reasonable counsel fees and costs.

**18. Miscellaneous.** Customer will not resell or aggregate EMAG or allow Third Parties to use or access EMAG without prior written permission from VZW. This TOS supplements Customer's Government agreement with VZW as it relates to EMAG. If there are any inconsistencies between this TOS and Customer's Government agreement with VZW, then this TOS shall control with respect to EMAG. Customer agrees that its use of EMAG will comply with any applicable local, state, national and international laws and regulations. This TOS may not be assigned in whole or in part by the Customer with prior written consent of VZW. Any failure of VZW to perform hereunder shall be excused if caused by failure of a third party wireless or telecommunications provider serving a particular area, power failure, national emergency, interference by any governmental agency, acts of God, strikes, other labor disturbance, severe weather conditions, fire, terrorism, riots, war, earthquakes, or any other causes beyond VZW's reasonable control.

These plans are eligible for monthly access fee discounts.

<b>Monthly Access Fee<sup>1</sup></b>	\$70.00 (41121)	\$90.00 (41135)	\$140.00 (41205)	\$190.00 (41212)
<b>Speed Tier Limit (Up to)<sup>2</sup></b>	10 Mbps	10 Mbps	10 Mbps	10 Mbps
<b>Data Deprioritization Threshold<sup>3</sup></b>	25 GB	50 GB	100 GB	150 GB
<b>Data Throughput Limit Threshold<sup>4</sup></b>	50 GB	100 GB	200 GB	300 GB
<b>Throttled Speed (Up to)</b>	600 Kbps	600 Kbps	600 Kbps	600 Kbps

**Notes:** These plans are restricted to the Verizon Wireless 4G network (domestic and international roaming are not available). Only select Customer-provided 4G data routers can be activated on these plans. <sup>1</sup>The monthly access fee will not be pro-rated when moving to a higher speed tier plan during a billing cycle (the higher access fee will be billed); a line cannot move to a lower speed tier during a billing cycle. <sup>2</sup>Speeds represent the maximum speed but may be lower in the event of network congestion. <sup>3</sup>After the data deprioritization threshold is met on a line during any billing cycle, usage may be prioritized behind other customers in the event of network congestion. <sup>4</sup>If the data throughput limit threshold is exceeded on any line in any given billing cycle, Verizon Wireless will limit the data throughput speeds for additional usage for the remainder of the then-current billing cycle for the line that exceeds the data usage to the applicable throttled speed. Voice calls cannot be placed or received on these plans other than to 611 or 911 (these calls may be placed anywhere in the Nationwide Rate and Coverage Area). If the voice block feature is removed, there will be a \$0.25 per minute charge for voice calls. Text messages cannot be sent or received on these plans. If the text message block feature is removed, there will be a \$0.20 per message charge for messages sent or received. These plans can be used for point-of-sale, mobile terminal, and business productivity applications. Prohibited applications include, but are not limited to, continuously streaming video, web hosting, and public/guest Wi-Fi systems without prior approval from Verizon Wireless. \*These plans are for machine-to-machine service ("M2M Service"). "M2M Service" refers to use of the Wireless Service for the transmission of data between wireless devices and computer servers or other machines, or between wireless devices, with limited or no manual intervention or supervision.

## 5G Business Internet Ultra Wideband Plan (C-Band) for Public Sector\*

This plan is not eligible for monthly access fee discounts.

<b>Monthly Access Fee</b>	<b>\$45.00</b>
<b>5G Ultra Wideband (C-Band) Speed Tier Limit (Up to)<sup>1</sup></b>	100 Mbps
<b>5G Ultra Wideband (C-Band) Domestic Data Allowance</b>	Unlimited
<b>Service Rate Plan #</b>	53974

**Notes:** Current coverage details and additional plan information can be found at [www.verizonwireless.com](http://www.verizonwireless.com). These price plans are restricted to the Verizon Wireless 5G Ultra Wideband @ network and 4G network (domestic and international roaming are not available). Service may fall back to the 4G LTE network if the Verizon Wireless 5G Ultra Wideband network becomes temporarily unavailable. Verizon's 4G LTE network is a separate network from Verizon's 5G Ultra Wideband network. \*This plan is for mobile broadband service and can only be activated on select compatible Customer-provided data routers that enable 5G Ultra Wideband (specifically C-Band) service. Customer will be required to purchase or provide a Verizon approved, compatible 5G-enabled C-Band receiver/router, and any necessary installation or connection to the Verizon Wireless network. Customer should contact Customer's account representative to determine if a Customer-provided router is compatible. <sup>1</sup>Speeds represent the maximum download speed but may be lower in the event of network congestion. Uplink speeds may be lower than downlink speeds. This plan is a fixed location plan, and 5G Ultra Wideband service is being provided at the qualified service address that Verizon Wireless approved at the time the Service was activated. Where Customer chooses to use the Service in a mobile environment, Customer acknowledges and agrees that Service may fall back to Verizon's 4G LTE network where Verizon Wireless 5G Ultra Wideband service is not available. In order to protect its network, operations, and other customers, Verizon Wireless may suspend or terminate service to affected lines with prior written notice, deny activation of new lines or, upon Legal Notice, may terminate the Service, if Customer uses the Wireless Service or Devices (a) in an illegal or improper manner (including "spamming" or other abusive messaging or calling); (b) in a manner prohibited by these terms; or (c) in a manner that, in Verizon Wireless's sole discretion, has an adverse impact on its network, operations or customers.

## Business Unlimited Plus Data Device Plan

This plan is NOT eligible for monthly access fee discounts.

<b>Monthly Access Fee*</b>	<b>\$45.00</b>
<b>4G and 5G Ultra Wideband Data Allowance including Mobile Hotspot<sup>1, 2</sup></b>	Unlimited

**Notes:** This is a generally available retail plan, and is subject to change without notice. Current coverage details and additional plan information can be found at [www.verizonwireless.com](http://www.verizonwireless.com). Coverage includes the Verizon Wireless 5G Nationwide® network, 5G Ultra Wideband network, 4G network; and the 3G and 3G Extended networks, while available. Lines activating on this plan must be on a 5G or 4G mobile broadband data device, including jetpacks, USBs/air cards, netbooks, and notebooks. A 5G device is required to receive 5G Ultra Wideband (UWB) service.

\*Corporate Subscribers on this plan cannot place or receive voice calls other than to 611 or 911 (these calls may be placed anywhere in the Nationwide Rate and Coverage Area). If the voice block feature is removed, there will be a \$0.25 per minute charge for voice calls.

<sup>1</sup>If the combined 4G and 5G data usage exceeds 60 GB of domestic data usage on any line in any given billing cycle, usage may be prioritized behind other customers in the event of 4G or 5G Nationwide network area congestion and Verizon Wireless will limit the data throughput speeds to up to 600 Kbps for additional usage while on the 4G and 5G Nationwide network, and up to 3 Mbps when on the 5G UWB network for the remainder of the then-current billing cycle for the line that exceeds the data usage. For data usage in Canada and Mexico, after the first 512 MB of usage in a day, throughput speeds for additional usage will be reduced for the remainder of the day. Usage outside of the United States requires a 4G LTE GSM/UMTS global-capable device.

<sup>2</sup>Mobile Hotspot is available on all capable devices and allows the line to share data allowance with multiple Wi-Fi enabled devices.

To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at up to 720p while on the 4G and 5G Nationwide networks, and, will apply video streaming up to 4K when on the 5G UWB network.

Coverage includes the Verizon Wireless 5G Ultra Wideband network, 5G Nationwide® network, and 4G LTE network. For avoidance of doubt, the Verizon Wireless 5G Nationwide network is a separate network from the Verizon Wireless 5G Ultra Wideband network. <sup>(1)</sup> Data usage on this rate plan is not subject to speed reductions (“throttling”) within a given billing cycle. However, in the event data usage exceeds 25GB each billing cycle for three (3) consecutive billing cycles, data throughput speeds will automatically be reduced to 600kbps for data usage exceeding 25GB per billing cycle on a go-forward basis. Data usage for actively engaged and deployed fire, police, emergency medical technicians, emergency management agency, and assigned federal law enforcement users on this plan will not be subject to speed reductions regardless of data usage during any billing cycle. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at 480p. This service plan includes Mobile Broadband Priority and Preemption. Mobile Broadband Priority allows customers to connect to the network with priority by leveraging a pool of radio resources dedicated to enable their connection. Mobile Broadband Priority identifies the user with an Access Priority setting, giving them higher priority for network access than lower Access Class users. Preemption automatically activates to provide approved personnel uninterrupted access to the network in those uncommon times when the network is fully utilized. 911 calls are never preempted.

**\*Verizon Wireless will proactively contact Customer to facilitate the plan migration as a brief service outage and device reboot may be required in order for the new service plan to take effect.**

## Verizon Wireless Plan and Feature Details

**Plans and Associated Charges:** Billing, shipping and end-user address must be within an area where Verizon Wireless is licensed and provides service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Unused monthly minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber first presses SEND or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses END or the call disconnects. Calls made on the Verizon Wireless network, are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free, Airtime may be charged when dialing toll-free numbers.

**Anytime Minutes:** Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. . Airtime is rounded up to the next full minute. If you have a Data Only plan and use voice service, domestic voice calls will be billed at \$0.25/minute.

Verizon Wireless is implementing optimization and transcoding technologies in our network to transmit data files in a more efficient manner to allow available network capacity to benefit the greatest number of users. These techniques

include caching less data, using less capacity, and sizing the video more appropriately for the device. The optimization process is agnostic to the content itself and to the website that provides it. While Verizon Wireless invests much effort to avoid changing text, image, and video files in the compression process, and while any change to the file is likely to be indiscernible, the optimization process may minimally impact the appearance of the file as displayed on your device. For a further, more detailed explanation of these techniques, please refer to the Network Performance attachment. . Verizon Wireless strives to provide customers with the best experience when using our network, a shared resource among tens of millions of customers. To further this objective, Verizon Wireless has implemented Network Optimization Practices designed to ensure that the overwhelming majority of data customers aren't negatively impacted by the inordinate data consumption of a few users. If you use an extraordinary amount of data and fall within the top 5% of Verizon Wireless data users, Verizon Wireless may reduce your data throughput speeds when connected to a congested cell site. The reduction can last for the remainder of the current bill cycle and the immediately following bill cycle to ensure high quality network performance for other users at locations and times of peak demand. For a further more detailed explanation of these techniques please refer to the Network Performance attachment.. Data transfer amounts will vary based on application. If you download an audio or video file, the file may be downloaded in sections or in its entirety; data charges will apply to the portion downloaded, regardless of whether you listen to or watch all of it. You may access and monitor your own data usage during a particular billing period, including during the Return Period, by accessing My Verizon online or by contacting Customer Service.

**Data Services: Permitted Uses:** You can use Verizon Wireless Data Services for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

**Data Services: Prohibited Uses.** You may not use our Data Services for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the Departments of Commerce, Treasury or any other U.S. government agency, that interferes with network's ability to fairly allocate capacity among users, or that otherwise degrades service quality for other users. Examples of prohibited usage include: (i) server devices or host computer applications that are broadcast to multiple servers or recipients such that they could enable "bots" or similar routines (as set forth in more detail (ii) below) or otherwise denigrate network capacity or functionality; (ii) "auto-responders, "cancel-bots," or similar automated or manual routines that generate amounts of net traffic that could disrupt net user groups or e-mail use by others; (iii) generating "spam" or unsolicited commercial or bulk e-mail (or activities that facilitate the dissemination of such e-mail); (iv) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless' services or the Internet-based resources of others, including the generation of dissemination of viruses, malware, or "denial of service" attacks; (v) accessing or attempting to access without authority, the information, accounts or devices of others, or to penetrate, or attempt to penetrate Verizon Wireless' or another entity's network or systems; or (vi) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "any keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time.

Verizon Wireless further reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and Verizon Wireless reserves the right to deny, modify or terminate service, with or without notice, to anyone Verizon Wireless believes is using Data Services in a manner that adversely impacts the Verizon Wireless network. **Verizon Wireless may monitor your compliance, or other subscribers' compliance, with these terms and conditions, but Verizon Wireless will not monitor the content of the communications except as otherwise expressly permitted or required by law. [See the attached Verizon Full Privacy Policy]**

and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

For individual use only and not for resale. We will protect our network from harm, which may impact legitimate data flows. We reserve the right to limit throughput or amount of data transferred exceeding 25 GB in any given billing cycle on any line, in any given billing cycle, for all additional usage for the remainder of the then-current bill cycle for the line that exceeds the data usage, and reserve the right to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. Anyone using more than 25 GB per line in a given billing cycle is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We reserve the right to adjust data throughput limitation thresholds to as low as 5GB in with prior written notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited , Mobile BroadbandAccess, and InternationalAccess data sessions may be used for the following purposes:

(i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Additionally, Unlimited Mobile BroadbandAccess services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment's native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync. Unlimited Mobile BroadbandAccess and data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment.

**Data Roaming:** International Eligibility is needed to roam in many destinations. See attached International services pricing for further details.

**International Data Optional Features:** International PC Card required for international use. International PC Cards will not work in the United States or Canada and GlobalAccess Subscribers will need a Mobile BroadbandAccess PC card for domestic use. The domestic and International PC Cards cannot be used at the same time. International Data Optional Features subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles.

## M2M Data Plans and Feature Details

A data session is inactive when no data is being transferred, and may seem inactive while data is actively being transferred to a device, or seem active when actually cached and not transferring data. Customer must maintain virus protection when accessing the service and is responsible for all data sent and received including "overhead" (data that is in addition to user-transmitted data, including control, operational and routing instructions, error-checking characters as well as retransmissions of user-data messages that are received in error) whether or not such data is actually received. Verizon Wireless will not be liable for problems receiving Service that result from Customer's device.

**Megabyte (MB) Data Plans:** M2M data usage is rounded to next full kilobyte at end of each billing cycle. Any unused portion of the megabyte allowance is lost. Equipment will not indicate kilobyte usage.

**Data Roaming:**International eligibility is needed to roam in many destinations. Only the Canadian Broadband Rate and Coverage Area supports EV-DO. Please refer to the attached international services pricing for additional details.

### ***M2M Data Plan Share Options:***

**Share Options:** Sharing is available only among Government Subscribers on applicable M2M Low Usage and High Usage calling plans.

**Account Share:** Customer may activate up to 15 share groups per account. Sharing is available only among M2M Lines on the Mobile Broadband M2M Account Share Plans on the same billing account, in the same usage group (e.g. Low Usage and High Usage plans cannot share with each other). Unused allowance will be distributed to M2M Lines with an overage on an as needed basis to M2M Lines on the same billing account that have exceeded their allowance during the same monthly billing period. At the end of each bill cycle any unused allowances will be applied to the overages of the other M2M Lines on the same account beginning with the line with the lowest overage need until depleted. Customers subscribing to Mobile Broadband M2M Account Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Profile Share Plans.

## Call Filter Service Attachment to Verizon Wireless Agreement: Government Terms of Service

This Call Filter Service Attachment (“Call Filter Attachment”) to the Agreement between Customer and Verizon Wireless sets forth the terms and conditions specific to the Call Filter Service (described below) to be provided by Verizon Wireless to Customer hereunder. If there are any inconsistencies between this Call Filter Attachment and the Agreement, this Call Filter Attachment shall control with respect to the Call Filter Service functionality or operation. Any capitalized but undefined terms used in this Call Filter Attachment shall have the meanings given such terms in the Agreement.

- 1. Call Filter Service Overview.** Verizon Wireless’s Call Filter Service allows Customer to take manage its calls (the “Service”).
- 2. Call Filter and Call Filter Plus Service Description.** Call Filter is available to Customer for no additional monthly charges, and provides spam protection (spam alerts, blocking and reporting). Call Filter Plus provides added protection with caller ID and other premium features for a monthly charge, which are set forth in the Call Filter Plus Service Fees exhibit attached hereto. Call Filter utilizes network-based functionality to provide spam alerts and caller ID information on Customer’s devices, and will not require the Call Filter application for these features. Spam blocking and other enhanced spam protection tools require the Call Filter application and a compatible device. Availability of certain features will vary depending on the device.  
. Basic phones will receive network-based spam protection. Call Filter requires Verizon Wireless’s 4G LTE network; limited features of the Service may be available if Customer is roaming on a VoLTE network outside of Verizon Wireless’s 4G coverage area.
- 3. Call Filter Limitations.** Call Filter is not available for incoming calls from restricted or unlisted numbers. Call Filter does not detect spam calls from international numbers, but Customer may choose to block calls from international numbers. Call Filter utilizes analytics and databases that are continually evolving, including spam reporting by customers. Call Filter may not work with some of our other services like NumberShare or eSIM lines.
- 4. Spam Protection and the Call Filter Application.** Call Filter will alert Customer when Customer receives potential spam calls and allows Customer to turn on the spam filter to automatically block (send directly to voicemail) spam calls based on Customer’s preferred risk level (as determined by Customer in the Call Filter application). If Customer enrolls in Call Filter through the Call Filter application, Verizon will automatically turn on Customer’s spam filter to block all high-risk spam calls, but Customer can always turn off or adjust the blocking within the Call Filter application. Call Filter Plus, provides additional protection with caller ID for unknown numbers, access to a risk assessment meter for each spam call, reverse spam number lookup, and additional categories of spam alerts including "Robo Caller" or "Potential Fraud." With Call Filter Plus, depending upon Customer’s device, Customer may also be able to view a list of callers that have been identified as spam or blocked, and block and un-block specific numbers. Call Filter’s spam detection and block management may inadvertently mislabel or block legitimate callers including those to whom Customer may have given consent to communicate with via Customer mobile number. Customer should check Customer voicemail to determine if the caller is legitimate (if they left a voice message and if Customer have voicemail enabled). Verizon Wireless does not guarantee that all calls that are spam will be detected. Customer’s spam settings such as spam filters and personal block and spam lists will be permanently deleted once Customer changes devices, uninstalls the Call Filter application, unsubscribes or downgrades the Service, or in the case of Android users, disables the Call Filter application or clear application cache or data.
- 5. Caller ID.** Caller ID, available with Call Filter Plus, displays the name, phone number, city and state of a caller's phone number, if these details are available and supported by Customer’s device. Some devices may only display the caller's name as the Call Filter may not be available on all devices. Some devices also allow identification of text messages when using an eligible messaging application. Android users may also see the caller's uploaded photo if available.

6. The caller's identity may not show if they are labelled as Robo Caller, Potential Spam or Potential Fraud on certain operating systems. Customer's saved contact names will show instead of the caller identification (so if a call would normally show as a Robo Caller with the Service, but is in Customer's list of contacts, that contact name will show instead). If Customer uploads a photo, Customer's photo will be seen by other Verizon Wireless customers that use the Service but will not override a Customer's contact photo (uploading is not available for all devices).
- 7.
8. **Data Charges.** Subject to the Agreement, data charges may apply for download of the application and use of the Service. Call Filter does not operate on Wi-Fi, so data charges may apply when using the Service even if Customer device is also connected to Wi-Fi. If Customer's device is eligible for the uploading or receiving of a picture, data charges apply to such uploading and also for receiving pictures. Such data charges will be billed to Customer's Verizon Wireless account according to Customer's data plan. The Service will automatically renew every month unless canceled. For Call Filter Plus, Customer will be billed a Monthly Access Fee as specified in the Call Filter Plus Service Fees exhibit.
9. **Privacy.** Verizon Wireless may use information about Customer's activity in the Service, subject to our Privacy Policy, please refer to the attached Verizon Full Privacy Policy. . In order to provide the Service to Customer, Verizon Wireless will access the following information: MTN, contacts, call log, and messages (Android devices only). Verizon Wireless does not share information for any other purposes other than to render the Service. While a Customer end user can review or turn off these permissions at any time in the device settings, without access to that information, the Service will not be provided to that device.
10. **Licenses and Restrictions.** Call Filter is the property of Verizon Wireless or its licensors. Call Filter software and any application installed on Customer devices are licensed and not sold to Customer. Verizon Wireless and its licensors grants to Customer a limited, non-exclusive, revocable, non-transferable, personal, non-commercial license to use the Service for its intended use, in the United States.
11. **Restrictions on Use.** Customer will not, or permit anyone else to, sell, resell, distribute, sublicense, loan, lease, otherwise transfer, alter, modify, merge, adapt, copy, delete, record, translate, publish, upload, transmit, export, create derivative works of, make any commercial use of, reverse engineer, decompile, attempt to derive the source code, or disassemble the Service of any software that forms part of the Service. Customer may not use the Service or any part of it for any improper use (including infringement of copyright or other intellectual property rights) and must follow all laws. Customer will not alter, disable, or circumvent any features embedded in the software. All rights not expressly granted to Customer herein are reserved. Verizon Wireless may revoke this license at any time without notice.
12. **Branding.** All trademarks, service marks, trade names, logos, domain names, and any other features of Verizon Wireless's brand are the sole property of Verizon Wireless and Verizon Wireless does not grant any rights to such branding to Customer for any use at all. Customer may not remove or alter any copyright, trademark, or other intellectual property notices of the Service.
13. **User Content.** For certain eligible devices, the Service allows Customer to upload a photo to display. Customer may choose to attach a photo from Customer own photo gallery, a new photo that Customer take, or a photo available for use from an Internet search that Customer conducts. Customer is responsible for any content that Customer uploads to the Service. Verizon Wireless does not monitor or control the content Customer chooses to send via the Service and, Verizon Wireless disclaims all responsibility for such content. Photos that Customer did not take may be subject to copyright protection which limits or prohibits their copying, transmission and/or use. Customer agrees that Customer will not attach copyrighted content in a way that infringes any copyright, and that Customer is wholly responsible for any copyright infringement resulting from Customer's conduct. If Customer is unsure about whether Customer's conduct is lawful, Customer should not attach the content.
14. **Digital Millennium Copyright Act Notice.** If Customer believe that Customer content has been improperly used in the Service in a way that constitutes copyright infringement please contact Verizon at the address below. Pursuant to Title II of

4. DEFINITIONS

1. **GENERAL**

1.1 **Service Definition.** Verizon DNS Safeguard for Public Safety (DNS Service) is a cloud-based security platform intended to provide a first line of defense against threats on the Internet by detecting and blocking inappropriate and malicious sites and content before the Internet Protocol (IP) connections are established. DNS Service is enhanced with threat intelligence feeds from the Verizon Threat Research Advisory Center which, learning from internet activity patterns, automatically uncovers current and emerging threats to continually keep the network safe.

The DNS Service platform operates as a DNS resolver that converts domain names to IP addresses which allows the platform to prevent IP connections to known malicious sites. When a legitimate domain is resolved, the DNS Service returns the actual IP address.

The DNS Service consists of two offerings: DNS Service Plus and DNS Service Advanced.

1.2 **Service Features for DNS Service Plus.** The following service features are included with DNS Service Plus:

1.2.1 **DNS Layer of Breach Protection.** DNS Service is able to detect and block malicious sites and content before they reach the network as a DNS request is made before IP connections are established. Malware, ransomware, phishing, spyware, botnets, and command & control call-backs are blocked over any port or protocol before such threats can reach users and network.

1.3 **Service Features for DNS Service Advanced.** The following service features are included with DNS Service Advanced.

1.3.1 **Premium Threat Feeds.** DNS Service Advanced includes the Basic Threat Feeds described in the DNS Service Plus and additional threat feeds from the Verizon Threat Research Advisory Center's display of threat analytics and intelligence it gathers from third party proprietary and open source data.
