

Information Technology Independent Verification and Validation

Contract No. 80101507-IVV-15-1

Between Florida Department of Management Services and Gartner, Inc.

This Contract is between the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), with offices at 4050 Esplanade Way, Tallahassee, FL 32399-0950, and Gartner, Inc. (Contractor) with offices at 56 Top Gallant Road, Stamford, CT 06902.

The Contractor submitted a Responsive Proposal to the Department's Request for Proposal (RFP) 05-80101507-IVV-B for information technology independent verification and validation. After evaluation of proposals, the Department determined that the Contractor's proposal is among those that are the most advantageous to the State of Florida and has decided to enter into this Contract.

Accordingly, the Department and Contractor agree as follows:

1. Contract Term

The Contract Term of this Contract for information technology independent verification and validation will be for two (2) years with up to three (3) years of renewals. The Contract Term will begin on September 1, 2016, or the date of the last signature on this Contract.

2. Contract

As used in this document, the term "Contract" (whether or not capitalized) shall, unless the context requires otherwise, be considered to be references to this Contract.

This Contract, together with the following attached exhibits, and RFP [Subject], incorporated by reference, sets forth the entire understanding of the parties and supersedes all prior agreements, whether written or oral, with respect to such subject matter.

All exhibits attached to this Contract are incorporated in their entirety into, and form part of, this Contract. The Contract has the following exhibits:

- a) Exhibit A: Contract Conditions, General and Special
- b) Exhibit B: Contractor's submitted Pricing Sheet from RFP 05-80101507-IVV-B
- c) Exhibit C: Contractor's submitted Work Plan & IV&V Methodology from RFP 05-80101507-IVV-B
- d) Exhibit D: Contractor Performance Survey

In case of conflict, the terms of this Contract shall control. If a conflict exists among any of the attached documents, the documents shall have priority in the order listed below:

- a) The Contract
- b) Special Contract Conditions, Exhibit A, Section 1
- c) General Contract Conditions, Exhibit A, PUR 1000
- d) RFP 05-80101507-IVV-B
- e) Contractor's submitted proposal to RFP 05-80101507-IVV-B

3. Definitions:

- a) Contractor: The IV&V vendor awarded to perform work for a Customer.
- b) Customer Project Manager (or Project Director): The individual, whether a state employee or contracted by the Customer, empowered by the Customer to lead the team that is responsible for achieving the project's objectives.*
- c) Independence: The degree of technical, managerial, and financial independence required of the Contractor performing verification and validation. The Contractor should not be influenced by system developers and/or project, program, or organizational management.
- d) Oversight entities: In Florida, this will typically include, but not be limited to, the Agency for State Technology, the Executive Office of the Governor's Office of Policy and Budget, and the Florida Legislature.
- e) Project Team: Individuals who perform the work of the project. The project team may be comprised of Customer staff and other public sector, private sector, or not-for-profit sector employees. *
- f) Sponsor(s): The Customer individual(s) who provide resources and support for the project and is/are accountable for enabling project success.*
- g) Stakeholders: An individual, group, or organization who may affect, be affected by, or perceive itself to be affected by a decision, activity, or outcome of a project.*
- h) Validation: Contractor will check that the solution meets the user's needs, i.e., was the right system built?
- i) Verification: Contractor will check that the solution is well-engineered, i.e., was the system built right?

**Definition is from or adapted from: A Guide to the Project Management Body of Knowledge (PMBOK Guide) 5th Edition. Newtown Square, PA: Project Management Institute, 2013.*

4. Statement of Work

The Contractor shall provide information technology independent verification and validation services.

The Contractor will provide an objective, neutral, third-party view of the project with the intent of protecting the state's interests. The Contractor will evaluate and assess the project throughout the project lifecycle. The Contractor must comply with IV&V regulatory requirements detailed in US Code of Federal Regulations 45 CFR 95.626 and the Project Management and Oversight Standards, detailed in Chapter 74-1, F.A.C.

The Contractor shall possess the professional and technical staff necessary to perform the information technology independent verification and validation services required by this contract and the staff shall have sufficient skill and experience to perform the services assigned to them.

All of the information technology independent verification and validation services to be furnished by the Contractor under the contract shall meet the professional standard and quality that prevail among information technology professionals in the same discipline and of similar knowledge and skill engaged in related work throughout Florida under the same or similar circumstances.

The Contractor shall maintain during the term of the Contract all licenses, permits, qualifications, insurance and approvals of whatever nature that are legally required to perform the information technology independent verification and validation services.

5. Minimally Required Activities and Deliverables

The Contractor shall perform ongoing project IV&V monitoring activities and will review and validate issues/deficiencies/risks identified with the project. Project monitoring activities include, but are not limited to:

- Providing an independent, objective, third-party view of project efforts with the intent of protecting the State's interests.
- Providing personnel, processes, approaches and tools to perform IV&V services for Florida information technology projects

- Performing assessments on both project and program management processes and work products.
- Providing objective observations and recommendations
- Assessing and reporting overall project performance, extrapolating future project progress and success, and identifying any possible impediments to successful project completion
- Examining all project artifacts and documents to evaluate the effectiveness of the project management controls, procedures and methodology
- Assessing the effectiveness of project communication, assessing Customer involvement
- Developing performance metrics that facilitate the tracking of progress / completion of project tasks and milestones
- Reviewing all project cost and expenditure documentation and making recommendations for efficient use of funds
- Validating identified risks and issues and proposed response(s) and assessing impact to the project progress or success
- Verifying and validating the quality of project work products (deliverables)
- Reviewing statements-of-work, solicitations, and contracts to verify alignment between requirements and solicited or contracted terms
- Providing guidance and training on standards and best practices for project management
- Ensuring project teams follow required standards, including, but not limited to, Administrative Rule, Florida Statutes, and federal requirements.
- If additional specific requirements for any IV&V consulting services are needed they will be determined by the Customer in a project specific Statement of Work attached to a Request for Quote.

In addition to the activities listed above, the Contractor will be required to provide presentations and oral reports, attend meetings and events, perform records management and administrative responsibilities related to the contract, and maintain open and effective communication with the Customer’s Project Manager, Sponsor(s), and oversight entities.

The activities identified above (and others) are necessary to provide input into the deliverables below which will be minimum requirements in Statements of Work issued by Customers in a Request for Quote. Format, frequency, and details related to the activities (identified above and below) shall be detailed in the Customer’s Request for Quote. AST approval must be obtained for any deviation from the below deliverables for any project for which AST provides oversight pursuant to 282.0051 F.S. Pursuant to 74-1, Florida Administrative Code, IV&V contract deliverables, including invoices, will be provided to AST at or around the time they are delivered by the IV&V Contractor to the Agency.

IV&V Management Plan	<p>The Contractor shall develop and submit to the Customer an IV&V Management Plan to include:</p> <ul style="list-style-type: none"> • A detailed description of how the Contractor plans to perform the IV&V services. This description must include methodologies, strategies, standards, and approaches employed by the Contractor for executing each of the IV&V activities within the Customer's Statement of Work. An organizational structure which demonstrates, among other things, coordination activities among the Contractor, the Customer Project Manager and project team, the Sponsor, stakeholders, and any oversight entities involved in the project. • A description of resources assigned to Contractor activities, tasks, and deliverables. • A description of the deliverables the Contractor will produce as a result of the IV&V activities.
IV&V Schedule	<p>The Contractor shall develop and submit to the Customer a schedule of IV&V activities, tasks, and deliverables for the project, including the associated due dates for the activities, tasks, and deliverables.</p>

IV&V Status Reports / Meetings	<ul style="list-style-type: none"> • The Contractor shall hold IV&V status meetings with the Customer Project Manager and Sponsor. • The Contractor shall hold IV&V status meetings with Customer oversight entities as requested by these entities.
Initial Project Assessment Report	<ul style="list-style-type: none"> • The Contractor shall evaluate sufficiency of project scope and objectives, including alignment to legislative intent and its impact on Customer processes and services • The Contractor shall review the Project Management Plan and the planned development of project's schedule, resources, tasks, structures, processes, and procedures, to assess the overall adequacy of the project's planning. • The Contractor shall assess the adequacy of the project's organizational, governance, and communication processes • The Contractor shall review the potential impact of any procurement requirements and deadlines.
Project Lessons Learned	The Contractor shall document lessons learned throughout the project and submit to the Customer a comprehensive report of lessons learned with recommendations for incorporation of best practices into future projects.
Weekly Project Assessment Updates	The Contractor shall provide weekly updates (between Monthly Reports) to the Customer that assess project status, project management strengths and deficiencies, schedule effectiveness and earned value measures and make recommendations for correcting identified variances from best practices.
Monthly Project Assessment Reports	The Contractor shall summarize the results of ongoing project monitoring and provide findings and recommendations for improvement of project management and processes.
Special Communication	The Contractor shall notify the Project Manager, Sponsor and oversight entities immediately in writing when the Contractor determines that circumstances exist that put the scope, budget, schedule, or viability of the project at significant risk as defined in the IV&V Management Plan.
Phase Gate Assessment Reports	<p>The Contractor shall develop and submit to the Customer and the Agency for State Technology, a Phase Gate Assessment Report six weeks before the end of a project phase. The report shall include:</p> <p>An assessment of the project's status and progress made during the current phase of the project, and plans for the upcoming phase</p> <ul style="list-style-type: none"> • An assessment of the project's ability to meet future project milestones and deliverables, and recommendations on project/Customer readiness to proceed to the next phase.

Verification and Validation of Project Deliverables	<p>The Contractor shall conduct verification and validation reviews of project deliverables. Deliverables may include, but are not limited to:</p> <ul style="list-style-type: none"> • Organizational Change Management Plan (includes any training plans) • Requirements Documents (Business, Functional, and Technical) • Requirements Traceability Matrix • Data and Document Conversion / Migration Plan(s) • Project Management Plan • Integrated Master Schedule • Design Specifications • Technical Architecture • Coding standards/style guides • Quality Assurance and Test Strategy / Test Plan / Test procedures • Customer acceptance criteria • Security Plans • Implementation / Cutover Plan • Sustaining engineering plan • Customer Project Management Status Reports • Disaster Recovery Plan
Review of Solicitation and Procurement Documentation	<p>The Contractor shall review any solicitation, procurement, or contract documents to verify that, at a minimum, the evaluation criteria are clearly articulated and are consistent with project objectives, and that the obligations of the Customer, Vendor(s), subcontractor(s), and external staff are clearly defined and aligned to facilitate success.</p>

Customers may augment the minimally required activities and deliverables above with additional activities or deliverables as required by the project.

Customers shall use a Request for Quote per section 287.056(2), Florida Statutes as a result of this state term contract. Customer shall order services from the Request for Quote via a purchase order

In accepting a Purchase Order, the Contractor recognizes its responsibility for all tasks and deliverables contained therein, warrants that it has fully informed itself of all relevant factors affecting accomplishment of the tasks and deliverables and agrees to be fully accountable for the performance thereof.

6. Amendments

No oral modifications to this Contract are acceptable. All modifications to this Contract must be in writing and signed by both parties.

Notwithstanding the order listed in section 2, amendments executed after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent amendment will take precedence over anything else that is part of the Contract.

This Contract is executed upon signature of authorized officers as of the dates signed below:

EXHIBIT A

Contract Conditions

This Exhibit contains the Special Contract Conditions. The General Contract Conditions, Form PUR 1000, are incorporated by reference, and may be downloaded and viewed at:

<http://www.dms.myflorida.com/content/download/2933/11777/1000.pdf>. If a conflict exists between the Special Contract Conditions and the General Contract Conditions, the Special Contract Conditions shall take precedence over the General Contract Conditions unless the conflicting term in the General Contract Conditions is required by Florida law, in which case the General Contract Conditions term will take precedence.

1 Special Contract Conditions

1.1 Electronic Invoicing (eInvoicing)

The Contractor may supply electronic invoices in lieu of paper-based invoices for those transactions processed through the MFMP. Contractor may establish electronic invoicing within ninety (90) days of written request to the Department. Electronic invoices shall be submitted to the Customer through the Ariba Network (AN) in one of three mechanisms as listed below. The Contractor will work with the MFMP management team to obtain specific requirements for the eInvoicing.

1.1.1 Commerce eXtensible Markup Language (cXML)

This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the AN for catalog and non-catalog goods and services. The cXML format is the Ariba preferred method for electronic invoicing.

1.1.2 Electronic Data Interchange (EDI)

This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an EDI environment. This transaction set can be used for invoicing via the AN for catalog and non-catalog goods and services.

1.1.3 Purchase Order (P.O.) Flip via Ariba Network (AN)

The online process allows suppliers to submit invoices via the AN for catalog and non-catalog goods and services. Contractors have the ability to create an invoice directly from their Inbox in their AN account by simply "flipping" the P.O. into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider of MFMP, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor's trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the Contract.

1.2 Purchasing Card (P-card) Program

Contractor must accept the Universal card format Purchasing Cards (e.g., American Express, MasterCard, and Visa). However, the Purchasing Card is not the exclusive method of payment (e.g., Purchase Order). The method of ordering and payment (e.g., Purchase Order, Purchasing Card) shall be selected by the Customer.

1.3 Compliance with Laws

The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of Federal, State, and local agencies having jurisdiction and authority. For example, Chapter 287, of the Florida Statutes and Rule 60A of the Florida Administrative Code, govern the Contract. The Contractor shall comply with section 274A of the Immigration and Nationalization Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of any such applicable laws, roles, codes, ordinances and licensing requirements, shall be grounds for Contract termination.

1.4 Liability and Worker's Compensation Insurance

During the Contract term, the Contractor at its sole expense shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract, which, at a minimum, shall be: workers' compensation and employer's liability insurance per Florida statutory limits (currently \$100,000 per accident, \$100,000 per person, and \$500,000 policy aggregate) covering all employees engaged in any Contract work; commercial general liability coverage on an occurrence basis in the minimum amount of \$500,000 (defense cost shall be in excess of the limit of liability), naming the State as an additional insured; and automobile liability insurance covering all vehicles, owned or otherwise, used in the Contract work, with minimum combined limits of \$500,000, including hired and non-owned liability, and \$5,000 medical payment. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor and is of the essence of the Contract. The Contract shall not limit the types of insurance Contractor may desire to obtain or be required to obtain by law. The limits of coverage under each policy maintained by the Contractor shall not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies shall be through insurers authorized to write policies in Florida.

1.5 Detail of Bills

Contractor shall submit bills for fees or other compensation for services or expenses in detail, sufficient enough for a proper pre-audit and post-audit.

1.6 Return of Funds

Contractor will return to the Customer any overpayments due to unearned funds or funds disallowed pursuant to the terms of this Contract that were disbursed to the Contractor by the Customer. The Contractor shall return any overpayment to the Customer within forty (40) calendar days after either discovery by the Contractor its independent auditor, or notification by the Customer, of the overpayment.

1.7 Bills for Travel

Bills for travel expenses, if permitted, must be submitted in accordance with section 112.061, Florida Statutes.

1.8 Public Records

The Department may unilaterally terminate the Contract if the Contractor refuses to allow access to all public records, including documents, papers, letters, or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from section 24(a) of Article I of the State Constitution or section 119.07(1), Florida Statutes.

If, under this contract, the Contractor is providing services and is acting on behalf of the Department as provided under section 119.011(2), Florida Statutes, the Contractor, subject to the terms of section 287.058(1)(c), Florida Statutes, and any other applicable legal and equitable remedies, shall:

- (a) Keep and maintain public records that ordinarily and necessarily would be required by the Department in order to perform the service.

- (b) Provide the public with access to public records on the same terms and conditions that the Department would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
- (c) Ensure that public records that are confidential or exempt from public records disclosure requirements are not disclosed except as authorized by law.
- (d) Meet all requirements for retaining public records and transfer, at no cost, to the Department all public records in possession of the Contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the Department in a format that is compatible with the information technology systems of the Department.

If Contractor considers any portion of materials made or received in the course of performing the Contract (“contract related materials”) to be trade secret under section 812.081, Florida Statutes, or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as “confidential” when submitted to the Department. Contractor must simultaneously provide the Department with a separate redacted copy of the information it claims as Confidential and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Contract name and number, and shall be clearly titled “Confidential.” The redacted copy should only redact those portions of material that the Contractor claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

If the Department receives a public records request for contract-related materials designated by the Contractor as “confidential,” the Department will provide only the portions of the contract-related materials not designated as “confidential.” If the requester asserts a right to examine contract-related materials designated as “confidential,” the Department will notify the Contractor. The Contractor will be responsible for responding to and resolving all claims for access to contract-related materials it has designated “confidential.”

If the Department is served with a request for discovery of contract-related materials designated “confidential,” the Department will promptly notify the Contractor about the request. The Contractor will be responsible for filing, the appropriate motion or objection in response to the request for discovery. The Department will provide materials designated “confidential” only if the Contractor fails to take appropriate action, within timeframes established by statute and court rule, to protect the materials designated as “confidential” from disclosure.

Contractor shall protect, defend, and indemnify the Department for any and all claims arising from or relating to Contractor’s determination that the redacted portions of its proposal are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Contractor fails to submit a redacted copy of information it claims is Confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request for these records.

1.9 Intellectual Property

The parties do not anticipate that any Intellectual Property will be developed or created as a result of the Contract. However, in such case as it is developed or created, any Intellectual Property developed or created as a result of the Contract will belong to and be the sole property of the State of Florida. This provision will survive the termination or expiration of the Contract.

1.10 Preferred Price Affidavit Requirement

The Department will provide the Preferred Pricing Affidavit, incorporated by reference, for completion by an authorized representative of the Contractor attesting that the Contractor is in compliance with the best pricing provision in section 4(b) of the PUR 1000 form. The Contractor agrees to submit to the Department, at least annually, the completed Preferred Pricing Affidavit.

1.11 Subcontracts

The Contractor is fully responsible for all work performed under this Contract. The Contractor may, upon receiving written consent from the Department's Contract Manager, enter into written subcontract(s) for performance of certain functions under this Contract. No subcontract, which the Contractor enters into with respect to performance of any of its functions under this Contract, shall in any way relieve the Contractor of any responsibility for the performance of its duties. The Contractor shall assure that all tasks related to the subcontract are performed in accordance with the terms of the resulting contract. All payments to subcontractors shall be made by the Contractor.

1.12 Employment Verification (E-Verify)

Pursuant to State of Florida Executive Order Number 11-116, Contractor is required to utilize the U.S. Department of Homeland Security's E-Verify system to verify eligibility of all new employees hired by the Contractor to work in the U.S. during the Contract term. Also, Contractor shall include in related subcontracts a requirement that subcontractors performing work or providing services pursuant to the Contract utilize the E-Verify system to verify the eligibility of all new employees hired by the subcontractor to work in the U.S. during the Contract term.

1.13 Scrutinized Company List

Pursuant to subsection 287.135(5), Florida Statutes, at the time a Vendor submits a proposal or before entering into a contract where the value exceeds \$1 million, the Vendor or Contractor must certify that it is not listed on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.

Pursuant to subsection 287.135(3)(b), Florida Statutes, Department may immediately terminate any contract for cause if the Contractor is found to have submitted a false certification under subsection 287.135(5), Florida Statutes, or if Contractor is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List during the term of the Contract.

1.14 Commitment to Diversity in Government Contracting

The State of Florida is committed to supporting its diverse business industry and population through ensuring participation by minority-, women-, wartime-, and service-disabled veteran business enterprises in the economic life of the State. The State of Florida Mentor Protégé Program connects minority-, women-, wartime-, and service-disabled veteran business enterprises with private corporations for business development mentoring. We strongly encourage firms doing business with the State of Florida to consider this initiative. For more information on the Mentor Protégé Program, please contact the Office of Supplier Diversity at (850) 487-0915 or osdhelp@dms.myflorida.com.

Upon request, the Contractor shall report to the Department, spend with certified and other minority business enterprises. These reports will include the period covered, the name, minority code and Federal Employer Identification Number of each minority Vendor utilized during the period, commodities and services provided by the minority business enterprise, and the amount paid to each minority Vendor on behalf of each purchasing agency ordering under the terms of this Contract.

1.15 Business Review Meetings

The Department reserves the right to schedule business review meetings as frequently as necessary. The Department will provide the format for the Contractor's agenda. Prior to the meeting, the Contractor shall submit the completed agenda to the Department for review and acceptance. The Contractor shall address the agenda items and any of the Department's additional concerns at the meeting. Failure to comply with this section may result in the Contractor being found in default and contract termination.

1.16 Ethical Business Practices

The Contractor shall work in partnership with the State to ensure a successful and valuable contract, and ethical practices are required of State employees, Contractors, and all parties representing the Contractor. All work performed under this contract will be subject to review by the Inspector General of the State of Florida, and any findings suggesting unethical business practices may be cause for termination or cancellation.

1.17 Delays and Complaints

Delivery delays and service complaints will be monitored on a continual basis. Documented inability to perform under the conditions of the contract, via the established Complaint to Vendor process (PUR 7017 form), may result in default proceedings and cancellation.

1.18 Sales and Use Tax

It is the responsibility of the Contractor to determine how work accomplished under this contract would be subject to a Use Tax as written in the "Sales and Use Tax" Rule 12A-1, Florida Administrative Code. Any questions concerning the Use Tax as it relates to this contract shall be directed to the Taxpayer Assistance Section at the Department of Revenue (DOR) (800) 352-3671, Monday through Friday, 8 a.m. to 7 p.m. (ET). For more information visit the DOR website at <http://dor.myflorida.com/dor/businesses>.

1.19 Insurance, Loss Deductible

The Customer shall be exempt from, and in no way liable for, any sums of money which may represent a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the contractor providing such insurance. Upon request, the Contractor shall furnish the Customer an insurance certificate proving appropriate coverage is in full force and effect.

1.20 Insurance, Subcontractor's Public Liability and Property Damage

The Contractor shall require each of its subcontractors to secure and maintain during the life of the subcontract, insurance of the type specified in this Contract, or, the Contractor may insure the activities of its subcontractors in the Contractor's policy, as specified in this Contract.

1.21 Performance and Payment Bonds

The authority and responsibility for requesting performance and payment bonds shall rest with the Customer. Under this contract, the Customer issuing the purchase order may request a performance and payment bond, as deemed necessary by the size of the job. Inability to provide a bond may result in the Contractor being found in default of the purchase order.

1.22 Contract Revisions

Notwithstanding General Contract Conditions section 42 of the PUR 1000 Form, the following types of revisions can be made to the Contract upon written authorization by the Department:

- 1) Contractor's Company Information and Contacts
- 2) Contract Manager
- 3) Contract Report Forms

Only the above listed provisions can be made without a formal Contract amendment. General Contract Conditions, section 42 of the PUR 1000, applies to all other modifications to the Contract.

1.23 Financial Consequences

1.23.1 Financial Consequences for Nonperformance

Financial consequences shall apply for nonperformance of the contract by a Contractor. The State shall apply financial consequences identified in this solicitation in Purchase Order or Contract issued by Customers. In addition:

In the event that a deliverable is deemed unsatisfactory by the Customer, the Contractor shall re-perform the deliverable as needed for submittal of a satisfactory deliverable, at no additional cost to the Customer, within the timeframe established by the Customer.

Continued Contractor inability to perform under the conditions of the contract, via the established Complaint to Vendor process, per Rule 60A-1.006 Florida Administrative Code (PUR 7017 form), may result in default proceedings.

Failure to respond to a Customer request to correct a deficiency in the performance of the Contract may result in termination of the Contract.

1.23.2 Financial Consequences for Failure to Comply with Purchase Order Requirements

In addition to 1.23.1 and any other remedies provided at law, if Contractor fails to comply with the requirements of the Customer's purchase order, Contractor shall pay to the Customer financial consequences for such failures, unless the Customer waives such failure in writing based upon its determination that the failure was due to factors beyond the control of Contractor. A financial consequence in the amount of one (1) times the hourly rate(s) of each Contractor employee assigned to the purchase order will be assessed against Contractor for each submittal of an invoice during the period that the Contractor is out of compliance of the purchase order. This amount shall be reflected as a credit on the invoice submitted to the Customer. The Customer at its sole discretion shall determine when the Contractor is failing to comply and the Contractor at its sole discretion shall determine when the Contractor has remedied the failure.

These consequences for non-performance are not to be considered penalties and are solely intended to compensate for damages.

1.24 Invoicing

The Contractor shall be paid upon submission of monthly or quarterly invoices to the Customer after delivery and acceptance of services. Invoices shall contain detail sufficient for a proper pre-audit and post-audit thereof and shall contain the purchase order number, state contract number and the Contractor's Federal Employer Identification Number. The Customer reserves the right to request additional documentation.

The State's performance and obligation to pay under this contract are contingent upon an annual appropriation by the Legislature.

1.25 Cooperation with the Inspector General

Pursuant to section 20.055(5), Florida Statutes, contractor and any subcontractors understand and will comply with their duty to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing.

1.26 Contractor Employee Conduct

The Contractor's employees shall adhere to the standards of conduct prescribed in Chapter 33-208, Florida Administrative Code, and as prescribed in the Customer's personnel policy and procedure guidelines, particularly rules of conduct, security procedures, and any other applicable rules, regulations, policies and procedures of the Customer.

The Contractor shall ensure that the Contractor's employees wear attire suitable for the position, either a standard uniform or business casual dress.

The Contractor's employees shall be subject to searches of their person or searches of equipment and/or products at any time.

1.27 Contractor Security Clearance

Customers may designate certain duties and positions as positions of "special trust" because they involve special trust responsibilities, are located in sensitive locations or have key capabilities with access to sensitive or confidential information. The designation of a special trust position or duties is at the sole discretion of the Customer.

Contractor or Contractor's employees who, in the performance of this Contract, will be assigned to work in positions determined by the Customer to be positions of special trust are required to submit to a Level 2 background screening and be approved to work in special trust positions prior to being assigned to the position.

Level 2 screenings may include fingerprinting of individuals and submission of the fingerprints through the Florida Department of Law Enforcement (FDLE) for a local, state and National Crime Information Center (NCIC) check of law enforcement records through the Federal Bureau of Investigation (FBI).

Contractor or Contractor's employees, who have criminal histories, are under criminal investigation or become the subject of a criminal investigation for any disqualifying offense, including, but not limited to, theft, fraud, forgery, embezzlement, crimes of violence or any similar offenses should not be assigned to do work on this Contract. Contractor or Contractor's employees whose screening results indicate convictions of disqualifying offenses will not be allowed to work on this Contract. This includes individuals who plea or pled nolo contendere or no contest to disqualifying offenses.

1.28 Confidentiality and Safeguarding Information

Contractor or Contractor's employees may have access to confidential information. The provisions of the Florida Public Records Act, Chapter 119, F.S., and other applicable state and federal laws will govern disclosure of any confidential information received by the State of Florida.

Contractor must implement procedures to ensure the protection and confidentiality of all data, files, and records involved with this Contract.

Except as necessary to fulfill the terms of this Contract and with the permission of the Customer, Contractor and Contractor's employees shall not divulge to third parties any confidential information obtained by Contractor or its agents, distributors, resellers, subcontractors, officers, or employees in the course of performing Contract work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or the Customer.

Contractor and Contractor's employees agree not to use or disclose any information concerning a recipient of services under the State or the Customer for any purpose not in conformity with state and federal law or regulations except upon written consent of the recipient, or his responsible parent or guardian when authorized by law, if applicable.

If Contractor or Contractor's employees have access to confidential information in order to fulfill Contractor's obligations under this Contract, Contractor agrees to abide by all applicable Customer Information Technology Security procedures and policies. Contractor (including its employees, subcontractors, agents, or any other individuals to whom Contractor exposes confidential information obtained under this Contract), shall not store, or

allow to be stored, any confidential information on any portable storage media (*e.g.*, laptops, thumb drives, hard drives, *etc.*) or peripheral device with the capacity to hold information. Failure to strictly comply with this provision shall constitute a breach of contract.

Contractor shall notify the Department and the Customer in writing of any disclosure of unsecured confidential information by Contractor, its employees, agents or representatives which is not in compliance with the terms of the Contract (of which it becomes aware). Contractor also shall report to the Department and the Customer any Security Incidents of which it becomes aware, including those incidents reported to the Contractor by its sub-contractors or agents. For purposes of this Contract, "Security Incident" means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of Customer information in Contractor's possession or electronic interference with Customer operations; however, random attempts at access shall not be considered a security incident. Contractor shall make a report to the Department and the Customer not more than seven (7) business days after Contractor learns of such use or disclosure. Contractor's report shall identify, to the extent known: (i) the nature of the unauthorized use or disclosure, (ii) the confidential information used or disclosed, (iii) who made the unauthorized use or received the unauthorized disclosure, (iv) what Contractor has done or shall do to mitigate any deleterious effect of the unauthorized use or disclosure, and (v) what corrective action Contractor has taken or shall take to prevent future similar unauthorized use or disclosure.

In the event of a breach of security concerning confidential personal information involved with this Contract, Contractor shall comply with section 501.171, F.S. When notification to affected persons is required under this section of the statute, Contractor shall provide that notification, but only after receipt of the Department's approval of the contents of the notice. Defined statutorily, and for purposes of this Contract, "breach of security" or "breach" means the unauthorized access of data in electronic form containing personal data. Good faith acquisition of personal information by an employee or agent of Contractor is not a breach, provided the information is not used for a purpose unrelated to Contractor's obligations under this Contract or is not subject to further unauthorized use.

1.29 Request for Quotes

1.29.1 Customers needing independent verification and validation services will create a Request for Quotes (RFQ) eQuote event in MyFloridaMarketPlace Sourcing, each time they desire to solicit independent verification and validation services. The Customer shall issue a detailed RFQ that includes a term, service levels, educational qualifications and experience needed.

1.29.2 The Customer shall select at least three (3) awarded Contractors for the RFQ event in MyFloridaMarketPlace.

1.29.3 The specific format of the RFQ is left to the discretion of the Customer's Contracting Officer. Pursuant to s. 287.056(3), F.S., RFQs performed within the scope of this Contract are not independent competitive solicitations and are not subject to the notice or challenge provisions of s. 120.57(3), F.S.

1.29.4 When drafting an RFQ, the Customer must include the following information, but may also include additional information:

- a) Statement of Purpose / Need
- b) Scope of Work
- c) Project Tasks and Deliverables
- d) Project Timeline
- e) List of Contractor Responsibilities
- f) Qualifications / Certifications of the Consultant(s)
- g) Method of Compensation

- h) Financial Consequences for Non-Performance
- i) Special Terms and Conditions

1.29.5 RFQ Pricing Models

Two RFQ pricing models are available to Customers to procure services pursuant to this state term contract:

- a) Hourly Rate Pricing - The Contractor shall provide services at an hourly rate price that does not exceed their hourly rate in this Contract. Contractor prices in this Contract are “not to exceed” prices and lower pricing may be negotiated by the Customer.
- b) Project-Based Pricing - A project-based pricing model may be used by the Customer instead of an hourly rate model to accomplish goals and tasks that include more complex requirements. The Contractor shall multiply hourly rate prices, which do not exceed their hourly rate in this Contract, by the number of hours per task to determine each deliverable price.

Customers who choose to use a project-based pricing model shall negotiate all pricing associated with the completion of each task and deliverable with the selected Contractor. Project-based pricing should be fully detailed in the Customer’s Statement of Work. Customers requesting project-based pricing shall ask Contractors submitting quotes for supporting information and / or documentation that will allow Customers to better understand the offer and thus more effectively negotiate pricing.

1.30 Purchase Orders

A Customer shall order services via a purchase order. Customers are permitted to negotiate terms and conditions which supplement those contained in this Contract. Such additional terms shall not conflict with the terms and conditions established by this Contract (and any such conflicting terms shall be resolved in favor of terms most favorable to the Customer, as determined by the Department). Purchase order-specific terms and conditions are only applicable to that specific purchase order and shall not be construed as an amendment to this Contract.

1.31 Quarterly Contractor Performance Reporting

Customers shall complete a Contractor Performance Survey (Exhibit D) for each Contractor on a Quarterly basis. Customers will submit the completed Contractor Performance Survey(s) by email to the Department Contract Manager no later than the due date indicated in Section 1.34.

The completed Contractor Performance Survey(s) will be used by the Department as a performance-reporting tool to measure the performance of Contractors. The Department reserves the right to modify the Contractor Performance Survey and introduce additional performance-reporting tools as they are developed, including online tools (e.g. tools within MyFloridaMarketPlace or on the Department's website).

1.32 Monthly Transaction Fee Report

The Contractor is required to submit monthly Transaction Fee Reports electronically through VIP. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and vendor training presentations available online through MFMP U on the MyFloridaMarketPlace website (located at <http://dms.myflorida.com/mfmp>). Assistance is also available from the MyFloridaMarketPlace Customer Service Desk at feeprocessing@myfloridamarketplace.com or 866-FLA-EPRO (866-352-3776) between the hours of 8:00 AM to 6:00 PM, Eastern Time.

1.33 Quarterly Sales Reports

Each Contractor shall submit a sales report on a Quarterly basis.

Contract Sales Reports must include the Contractor's name, the dates of Quarter covered, each Customer's name, services provided, and the amount paid by the Customer.

Initiation and submission of the Contract Sales Reports are to be the responsibility of the Contractor. The Contractor will submit the completed Sales Report forms by email to the Department Contract Manager no later than the due date indicated in Section 1.34. Submission of these reports is considered a material requirement of this Contract and the Contractor.

Failure to provide quarterly sales reports, including those indicating no sales, within thirty (30) calendar days following the end of each quarter (January, April, July and October) is considered as Non-Performance by the Contractor.

Exceptions may be made if a delay in submitting reports is attributable to circumstances that are clearly beyond the control of the Contractor. The burden of proof of unavoidable delay shall rest with the Contractor and shall be supplied in a written form and submitted to the Department.

The Department reserves the right to request additional information as needed.

1.34 Quarterly Reporting Timeframes

Quarterly reporting timeframes coincide with the State Fiscal Year as follows:

Quarter 1 - (July-September) – Due by October 31

Quarter 2 - (October-December) – Due by January 31

Quarter 3 - (January-March) – Due by April 30

Quarter 4 - (April-June) – Due by July 31

Information Technology Independent Verification and Validation
Contract No. 80101507-IVV-15-1

Exhibit B
Pricing Sheet

Respondent Name: Gartner, Inc.

IN ORDER TO BE ELIGIBLE FOR AWARD RESPONDENTS MUST PROVIDE PRICES FOR ALL HOURLY POSITIONS LISTED BELOW. IN OTHER WORDS, THE RESPONDENT IS REQUIRED TO PROVIDE A PRICE IN EVERY BLANK ON THIS PRICING SHEET.

Mandatory Positions	
Position	Do Not Exceed Price Per Hour
Principal	\$395.00
Contract Manager	\$80.00
Project Manager	\$380.00
Analyst — Senior	\$280.00
Analyst — Junior	\$80.00
Subject Matter Experts	\$380.00

Descriptions for each Mandatory Position are contained in Attachment F-2.

All prices shall be inclusive of all costs, including staffing, fringe and other overhead, travel, and other expenses.

Prices shall be firm and shall not increase for the entire contract term.

**Exhibit C
Work Plan & IV&V Methodology**

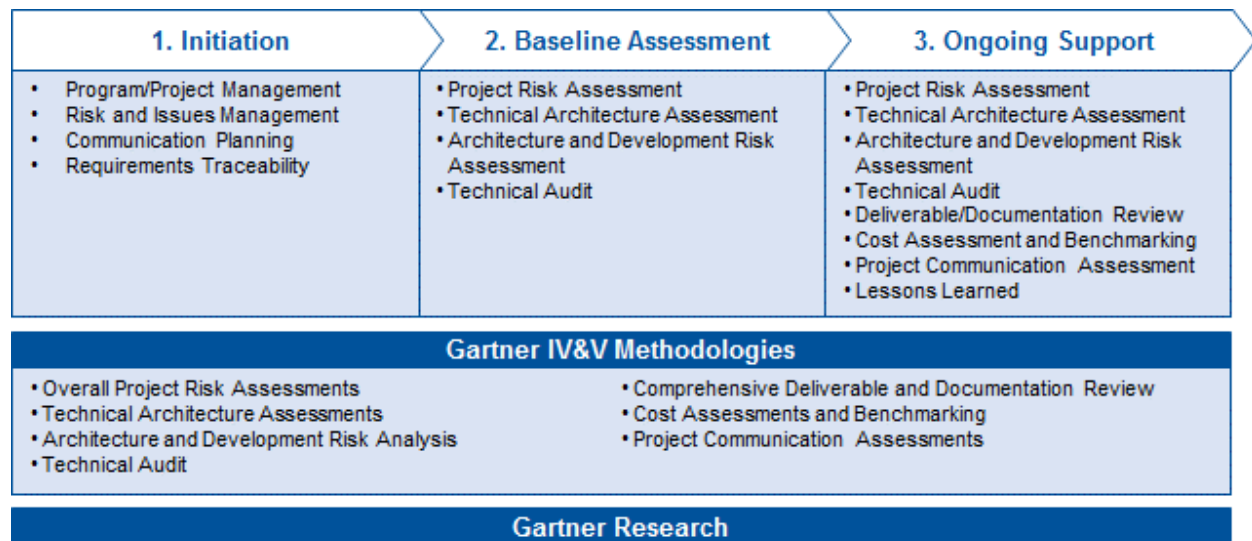

The following five pages are the Work Plan & IV&V Methodology for Gartner, Inc.

Part 3 — Work Plan and IV&V Methodology

Gartner’s proposal to deliver IV&V services is based on our extensive track record of successful IV&V delivery and our world-class capabilities. Gartner consultant delivery teams are expert on using our integrated methodologies supported by our expansive research. Our approach is based on industry standards and best practices and is flexible enough to evolve and adapt to varying needs, changing priorities and diverse risk profiles encountered on projects. Rather than a recycled IV&V approach, we use findings and discussions with the agency as the basis for calibrating our IV&V services throughout the life of the project — working with each agency to evaluate, regularly reassess and redefine the IV&V services which are truly needed.

Furthermore, Gartner is an independent and objective firm that does not sell hardware, software or system integration services. Our rigorous standards to ensure independence and objectivity is the cornerstone of our business, and when working with Gartner Consulting, Florida will know that its best interests are being protected by our associates. Our approach is comprehensive and flexible and positions us to participate in projects as committed IV&V team members.

Figure 1. Gartner IV&V High Level Approach and Work Plan Framework

The Gartner value-focused approach to IV&V is backed by our proven methodologies and is designed to enhance — and not merely repeat — the system integrator’s quality assurance activities while ensuring that the benefits of new programs and systems are achieved for our clients. Gartner will ensure agencies always have an accurate and complete picture of projects, including strengths and weaknesses, performance metrics and adherence to industry standards and best practices.

3.1 Methodology Snapshots

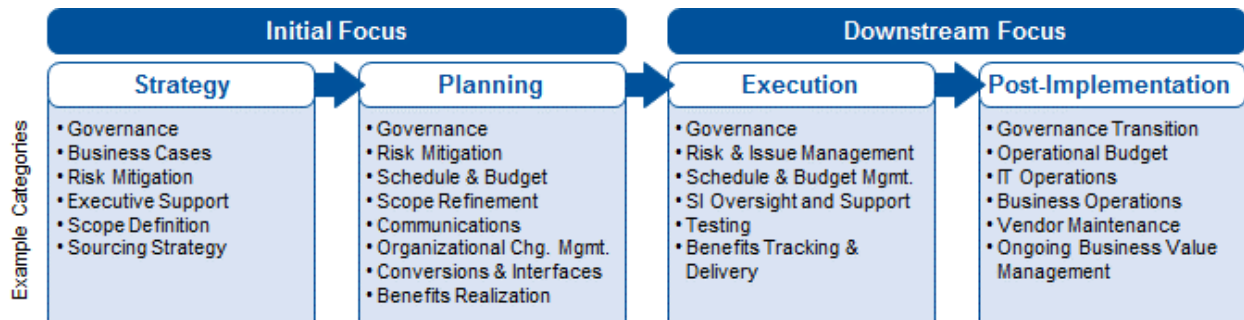

Based on the RFP, we provide several snapshots of select Gartner IV&V methodologies to provide a better understanding of the breadth and depth of our capabilities and to demonstrate how our balanced, evidence-based approach for ensuring progress, quality and process adherence allows for tremendous flexibility while providing a comprehensive method for assessing project risk and deliverable quality. Our methodologies are driven by establishing a risk-based balance between process maturity and development, ensuring a project is not process burdened, but has enough process to reduce risk and produce quality results. As well as an evidence-based approach to assess progress and quality — like comparing what a

systems integrator is producing vs. what they are reporting, ensuring that the “as built” applications are “as designed” versions and no corners were cut. In addition, we are well positioned to provide Florida agencies guidance and training on standards and best practices for projects.

3.1.1 Overall Project Risk Assessments

Our approach for performing both baseline and ongoing project risk assessments for a project follow a standardized, repeatable process which designed to ensure thoroughness and transparency. This approach includes the examination of the targeted, parallel programs across a number of risk categories based on where they are in the project life cycle. Our risk framework is based on Gartner Research, and extended through our significant Consulting experience.

Figure 2. Risk Category Framework

We have found that our risk category framework enables the detection of root causes of risk that can be corrected before they impact success or lead to failure. In all assessments, selected deliverables and project processes are examined and an ongoing risk scorecard is produced that reflects both the changes since the last assessment and the prioritized focus from the current risk assessment.

Figure 3. Example Risk Scoring

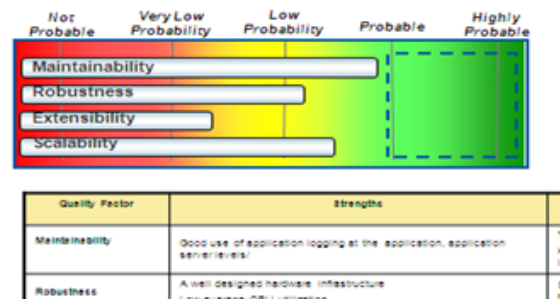

ID	Category	Scores	Include?	Raw
1	Strategy			
1.1	Project Prioritization	30%	Yes	1
1.2	Benefit Specification	30%	Yes	1
1.3	Business Value Measure.	40%	Yes	1
1.4	Estimation Quality	60%	Yes	1
1.5	Scope Management	50%	Yes	1
1.6	Project / Program Strategy			0

3.1.2 Technical Architecture Assessments

Architecture quality assessments provide insight into how well an application can be expected to behave from a business and technical perspective as well as help establish a baseline to establish metrics regarding progress on key technical elements of a project. The purpose of the assessment is to:

- Understand how maintainable a system will be. We are looking to highlight SI’s taking time-saving shortcuts. We are focused on ensuring that SI’s take reasonable approaches to ensure isolation of function in their development.
- Understand the extensibility characteristics of a system. Design decisions will have to be made that ensure that future phases of the project, as well as future system requirements, can be met cost-effectively. In addition, we will ensure that proper consideration be given to future system maintainability.

Figure 4. Example Architecture Quality Assessment

Build reports examine the work products developed by a vendor and help answer the following:

Figure 5. Example Build Dashboard

- What is the vendor's actual progress? Assessed based on the amount of configuration, schema objects created or configuration scripts updated.
- What is the quality of the vendor's work? Assessed based on test results, manual code inspections, automated code inspections and manual tests.
- Did the vendor follow the processes it was supposed to? Assessed based on build checks applied for the specific technology stack being implemented and the defined software development lifecycle (SDLC) and project phase.

3.1.3 Architecture and Development Risk Analysis

Architecture and development risks analysis and reports provide insight into the amount of "inherent" risk within the project. These reports answer questions like:

- Is the vendor following the processes it agreed to at the start of the project?
- Have there been any team changes which are impacting project risk?
- Are the architecture and development risks being managed?

Figure 6. Architecture and Development Risk Summary Example

Finding the right balance between frequency and level of detail is key to making the Technical Risk report most valuable and actionable. With a too-frequent assessment interval, the project team can feel inundated and distracted by the assessment process, and not have time to implement suggested changes. Too much time between assessments can leave key risks unattended and make them more significant over time.

Gartner takes seriously both the assessment process — how we interact with the team — and frequency — when we conduct our review and provide our findings. Since each project is different, with different team dynamics, levels of experience and working processes, we work closely with the project team during the initial assessment to determine the best approach for the technical risk summary so that we can provide the maximum visibility into a project's technical risk.

Figure 7. Overall Technical Risk Dashboard Example

3.1.4 Technical Audit

Technical audits are an important element within the full software development life cycle as well as in our comprehensive approach to quality assurance. Technical audits can be conducted either when a failure or material risk occurs on a project or periodically to ensure the highest quality of an end state system. Gartner believes that regardless of whether a project is on track, it is critical to conduct technical audits. In order to produce a sound technical audit of a system,

Gartner applies an evidence-based approach to assess the quality of a given system design and implementation. Our approach includes traditional interviews and documentation reviews, as well as methodologies for technical analysis of software artifacts.

3.1.5 Comprehensive Deliverable and Documentation Reviews

In determining the quality of any project deliverable, artifact, document or process, our approach takes into account two factors — the extent to which the content of the deliverable meets the project objectives (including all the requirements defined in preceding project deliverables) and the extent to which the deliverable or process conforms to contract requirements, project standards, plans and industry best practices. This also enables us to evaluate the effectiveness of project management controls, procedures and methodology.

Our primary tool for assessing deliverable and documentation content is the requirements traceability matrix. As each project artifact is created, the project objectives and requirements defined therein are captured in a matrix. This matrix is then used as a checklist to verify the completeness of content in subsequent documents and deliverables. To assess conformance with plans and practices, Gartner lists these plans and practices in a quality assurance checklist prior to the start of the related activity. Gartner's assessments focus on the following:

- **Project deliverables** including work plans, technical architectures, functional and technical designs, system integrations and data conversions, testing and training.
- **Deliverable templates and acceptance criteria** including working with the SI to create and make extensive use of templates to define project deliverables as well as acceptance criteria, ensuring best practices, and leveraging our own template repository.
- **Sampling larger deliverables** to facilitate deeper dives on deliverable creation processes and to determine if those processes are sound, increasing the sampling rate as needed.
- **Quality management deliverables** that complement the SI's QA activities which allow Gartner to review the output of these activities to ensure they are working effectively.
- **Project processes** including analyzing project plans and observing project activities which allow Gartner to assess how diligently processes are being followed and if they are effective.
- **Interim work product** including examining project artifacts and documentation in various stages to determine the likelihood quality deliverables and other final work product will be delivered on schedule and on budget. Comparing to best practices and industry standards we are actually able to measure SI performance metrics and facilitate the tracking of progress and completion of project tasks and milestones.

3.1.6 Cost Assessments and Benchmarking

Gartner leverages its benchmarking methodologies to analyze and validate project and system costs, including efficient distribution of available funds. Gartner is the IT benchmarking pioneer and a world leader in IT benchmarking solutions, with more than 30 years of experience, and a pioneer in benchmarking tools and methodologies such as total cost of ownership. We continually drive innovation in the industry, leveraging Gartner Research. Our benchmarking advantages include the industry's largest database, current and relevant data that has not lost its relevance in today's rapidly changing IT marketplace, and no syndicated data (many of our competitors buy syndicated data to provide clients — we never do this).

For instance one of our benchmarking methodologies, the Comprehensive Price Benchmark, utilizes a selection of four (4) outsourcing contract peer data points for each evaluated service. Gartner then utilizes proprietary service profile factors to separately analyze each peer contract

and provide recommended market pricing for the specific services under analysis. Each selected peer service profile, with the normalizations categorically applied to each peer contract by data element, is provided as support for the benchmark analysis.

3.1.7 Project Communication Assessments

The figure below depicts Gartner’s framework for assessing project communications which is designed around four dimensions critical to success anchored in the underlying principle that project communications must continuously improve and adapt to project changes and needs.

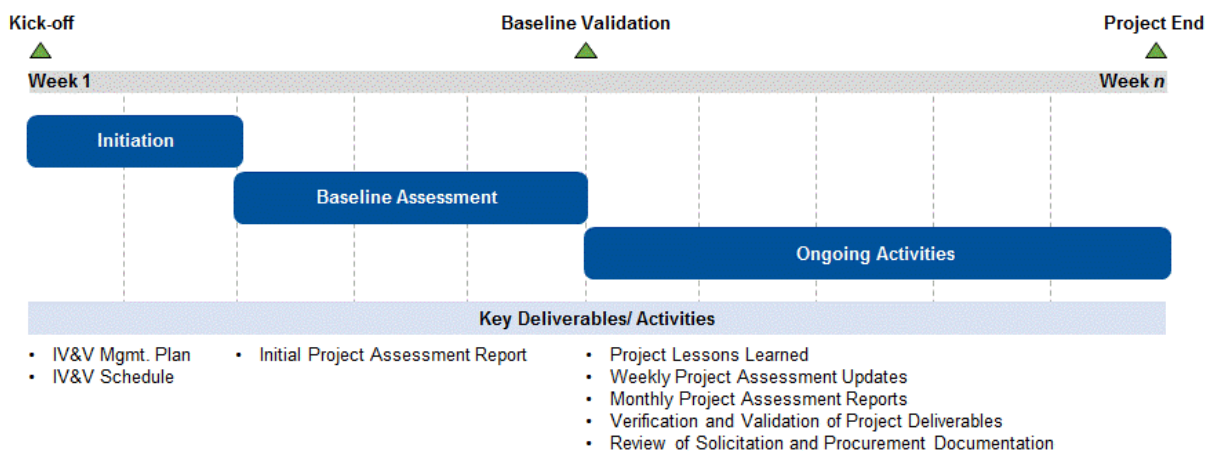

Figure 8. Project Communications Assessment Framework

Gartner Research				
Consistency	Determining if all communications are consistent with regarding to language, vehicle and timing – leveraging our repository of templates and best practices.	Continuous Improvement Rating how adept the communications plan is at incorporating and adapting to project changes.	Assessing the degree communications activities bi-directional and collaborative with customers and other end-users versus being rigid and inflexible.	User Focus
Simplicity	Evaluating the degree to which communications are designed to be simple and easy to understand by all internal and external stakeholders.		Evaluating the extent communications planning has been tailored to meet the specific needs and goals of the project and facilitates stakeholder buy-in.	Tailoring

3.1.8 IV&V Work Plan

Gartner will perform IV&V tasks as defined in Florida agency statements of work emanating from the IV&V State Term Contract and generally depicted in Figure 9. The specific schedule for a given IV&V project will be tailored to the unique requirements of the customer and is dependent on the requirements included in their Statement of Work.

Figure 9. Typical IV&V Engagement Schedule

Gartner’s independence and objectivity is backed by rigorous standards to ensure when working with Gartner Consulting, Florida will know that its best interests are being protected by our associates. Our approach is comprehensive and flexible and positions us to participate in Florida’s most important projects as committed IV&V team members.

1 Introduction

The State of Florida (State), Department of Management Services (Department), invites interested Vendors to submit proposals in accordance with these solicitation documents for information technology Independent Verification and Validation (IV&V) services (Services).

The purpose of the solicitation is to establish a new State Term Contract (STC), for use by all Eligible Users to procure the Services. Also, please note that as specified in rule 74-1, Florida Administrative Code, collectively known as the Florida Information Technology Project Management and Oversight Standards (FITPMO Standards), State Agencies are required to employ Services for any IT project that meets the criteria identified therein. The FITPMO Standards became effective on July 16, 2015. It is unknown how much spending under the prospective contract will occur pursuant to the requirements in the FITPMO Standards vs. spending that will result from other needs identified by Customers; however, it is important for Vendors to be aware of the requirements contained in rule when responding to this RFP.

The Department intends to make multiple awards from this solicitation. However, the Department reserves the right to award to one or multiple Responsive and Responsible Vendors or to make no award, as determined to be in the best interest of the State.

This solicitation will be administered using the Department's e-procurement system, MyFloridaMarketPlace (MFMP). Information about submitting a proposal can be found in Section 3, Instructions, of this solicitation. Vendors interested in submitting a proposal to this solicitation must comply with all of the terms and conditions described within.

1.1 Objective

The objective of the Department in issuing this solicitation is to establish a STC as defined by subsection 287.012(28), Florida Statutes for Services. Information regarding the desired services can be found in Section 6, Scope of Work, of this solicitation document.

1.2 Term

The term of the prospective contract will be two (2) years, with up to (3) three renewal years. Renewal prices will remain the same as the prices in the original term.

1.3 Definitions

The definitions listed below apply to this solicitation in addition to the definitions in the General Contract Conditions (PUR1000) and General Instructions to Respondents (PUR1001). In case of any conflict between these definitions and those of the PUR1000 and PUR1001, the definitions below will take precedence.

1.3.1 Contract(s)

An agreement that results from this competitive procurement, if any, between the Department and the Responsive and Responsible Vendor(s) who submit(s) the responsive proposal(s) (This definition replaces the definition in the PUR 1000.)

1.3.2 Contractor(s)

The Responsive and Responsible Vendor(s) awarded a Contract pursuant to this solicitation.

1.3.3 Customer

Any Eligible User as defined below in 1.3.4 & 1.3.7 that attempts to procure services under the Contract.

1.3.4 Eligible User

Per rule 60A-1.005, Florida Administrative Code (F.A.C.), the following entities are eligible users:

- 1.3.4.1 All governmental agencies, as defined in section 163.3164, Florida Statutes, which have a physical presence within the State of Florida;
- 1.3.4.2 Any independent, non-profit college or university that is located within the State of Florida and is accredited by the Southern Association of Colleges and Schools.

1.3.5 Independent

In the context of IV&V, "Independent" means that the process is objective and technically, managerially and financially independent from the agency whose activities are being evaluated.

1.3.6 Prior Relevant Experience

Working experience in the Services.

1.3.7 Other Eligible User (OEU)

An Eligible User that is not an "Agency" under section 287.012(1), Florida Statutes.

1.3.8 Respondent

A Vendor who submits a proposal to this solicitation.

1.3.9 Responsible Vendor

As defined in subsection 287.012(25), Florida Statutes, means a Vendor who has the capability in all respects to fully perform the contract requirements and the integrity and reliability that will assure good faith performance.

1.3.10 Responsive Proposal

As defined in subsection 287.012(26), Florida Statutes, means a proposal submitted by a responsible and responsive Vendor that conforms in all material respects to the solicitation.

1.3.11 Responsive Vendor

As defined in subsection 287.012(27), Florida Statutes, means a Vendor that has submitted a responsive proposal that conforms in all material respects to the solicitation.

1.3.12 Validation

In the context of IV&V, "Validation" is the assurance that a product, service or system meets the needs of the Customer.

1.3.13 Vendor

An entity representing to DMS that it is in the business of providing a commodity or contractual service.

1.3.14 Verification

In the context of IV&V, “Verification” is the evaluation of whether or not a product, service, or system complies with regulation, requirements, specification, or imposed condition.

1.4 Special Accommodations

Any person requiring a special accommodation due to a disability should contact the Department’s Americans with Disabilities Act (ADA) Coordinator, at (850) 922-7535. Requests for accommodation for meetings must be made at least five workdays prior to the meeting. A person who is hearing or speech impaired can contact the ADA Coordinator by using the Florida Relay Service at (800) 955-8771 (TDD).

1.5 Commodity Codes

The Commodity Code used for this solicitation and subsequent contract is 80101507, Information Technology Consulting Services, United Nations Standard Products and Services Codes (UNSPSC).

1.6 Procurement Officer

The person named below is the Procurement Officer issuing this solicitation. The Procurement Officer is the sole point of contact for information regarding this solicitation from the date of release of the solicitation until the contract award is made and announced in the Vendor Bid System (VBS).

Jerilyn Bailey, Bureau Chief
Division of State Purchasing
Florida Department of Management Services
4050 Esplanade Way, Suite 360, Tallahassee, FL 32399-0950
Phone: 850-488-2773
Email: jerilyn.bailey@dms.myflorida.com

1.6.1 Submitting Questions

All questions regarding the content of this solicitation must be submitted in accordance with section 5 of the PUR 1001, which is incorporated by reference in section 3 of this solicitation. Directions on submitting questions can be found in section 2.5 of this solicitation.

1.6.2 Limit on Contact Reminder

Please note: section 21 of the PUR 1001 incorporated into this solicitation by reference, provides the following:

“Respondents to this solicitation or persons acting on their behalf may not contact, between the release of the solicitation and the end of the 72-hour period following the agency posting the notice of intended award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the procurement officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response.”

1.7 Must, Shall, Will and Is Required

Although this solicitation uses terms such as “must”, “shall”, “will”, and “is required”, and may define certain items as requirements, the Department reserves the right, in its discretion, to waive any minor irregularity, technicality, or omission if the Department determines that it is in the best interest of the State to do so. However, failure to provide requested information may result in the rejection of a proposal. There is no guarantee that the Department will waive an omission or deviation, or that any Vendor with a proposal containing a deviation or omission will be considered for award of this procurement. The Department may reject any proposal not submitted in the manner specified by this solicitation.

1.8 Who May Respond

The Department will evaluate proposals from Responsive and Responsible Vendors that have Prior Relevant Experience to meet the specifications of this RFP.

The Department reserves the right to request additional information and/or clarification pertaining to the Respondent’s experience, ability, and qualifications to perform services described in this RFP, during the solicitation or after contract award.

A Respondent who fails to provide the requested information and/or clarification or submits false or erroneous information may not be deemed Responsive and shall not be awarded a contract.

If the Respondent’s Proposal is found to contain false and/or erroneous information after contract award, the contract may be terminated, and the Department may pursue any other legal action punishable by law. See section 9, 13th bullet, of the PUR 1001, regarding Respondent misstatements.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

2 Solicitation Overview

2.1 Governance

The solicitation is governed by Chapter 287, Florida Statutes, and Chapter 60A-1, Florida Administrative Code.

The solicitation has the following phases:

2.1.1 Posting Phase

A solicitation formally begins when the Department posts a Notice of Solicitation in the Vendor Bid System (VBS). The VBS is the State of Florida's system of record, and all competitive solicitations are posted there.

Generally, the Notice of Solicitation posted in VBS consists of the solicitation number and name, as well as instructions for responding to the solicitation. Since July 1, 2003, the Department of Management Services has also used an online e-procurement system known as MFMP. Solicitations are conducted in the MFMP Sourcing application.

Solicitations conducted in MFMP can exist in two statuses:

2.1.1.1 Preview Status

A solicitation published in MFMP is initially in Preview Status. When a solicitation is in Preview Status, potential Respondents, and the general public can view and download all the information related to a particular solicitation. Vendors who are registered with MFMP are able to submit questions using the MFMP "Messaging" tab. The Department will answer all questions submitted through the MFMP Messaging tab in a Question and Answer Addendum as described in section 2.4.

A solicitation remains in Preview Status until the Question and Answer Addendum is issued.

2.1.1.2 Open Status

Once the Question and Answer Addendum is issued, a solicitation enters Open Status. When a solicitation is in Open Status, all Vendors who are registered with MFMP may submit proposals until the Due Date listed in the Timeline of Events, section 2.2.

2.1.2 Evaluation Phase

Once all proposals are received, the Procurement Officer will examine the Mandatory Requirement Questions and other required documentation, as listed in Attachment G, to determine if each proposal is deemed responsive. Proposals deemed to not be Responsive will not be further evaluated or awarded.

Thereafter, the Evaluation Team will perform an evaluation of all responsive proposals using the Selection Methodology described in section 5. Following the evaluation, the Procurement Officer completes a Proposal Tabulation.

2.2 Timeline of Events

Respondents should become familiar with the Timeline of Events, Attachment H. The dates and times within the Timeline of Events may be subject to change. All events following the Proposal Opening are anticipated and subject to change in time, date, and location. Any changes to the Timeline of Events will be made through an addendum to the solicitation posted to the VBS and added to the solicitation in MFMP. It is the responsibility of the Vendor to check for any changes in both locations.

2.3 Pre-Proposal Conference

A pre-proposal conference will not be held for this RFP.

2.4 Public Meetings During the Solicitation

The Department may conduct public meetings related to this competitive solicitation. Members of the general public, current Vendors, potential Vendors, and interested persons may attend any public meeting. Anyone attending these meetings may be requested, but is not obligated, to register their attendance in a means provided by the Department at the time and location of the meeting.

Each public meeting will be held according to the Timeline of Events, section 2.2.

2.5 Question Period

The Department invites interested and registered Vendors to submit questions regarding the solicitation through the MFMP “Messaging” tab (referred to as the “Q&A Board” in PUR 1001) during the defined Question Period. The Question Period begins in MFMP when the Department publishes a solicitation and closes according to the Timeline of Events, section 2.2 of this solicitation.

The purpose of the Question Period is to assist the Department in “...assuring the vendor’s full understanding of the solicitation requirements”, in accordance with section 287.057(2), Florida Statutes, by providing registered Vendors with written binding answers to questions about the solicitation.

In order to submit a question, Vendors must be registered in MFMP and able to access the “Messages” tab in the MFMP solicitation dashboard, per the PUR 1001 Form, incorporated into this solicitation by reference. The following quoted text replaces Paragraph 5 of PUR 1001:

“Questions must be submitted via the Q&A Board within MyFloridaMarketPlace and must be RECEIVED NO LATER THAN the time and date reflected on the Timeline. Questions shall be answered in accordance with the Timeline. All questions submitted shall be published and answered in a manner that all respondents will be able to view. Respondents shall not contact any other employee of the Buyer or the State for information with respect to this solicitation. Each respondent is responsible for monitoring the MyFloridaMarketPlace site for new or changing information. The Buyer shall not be bound by any verbal information or by any written information that is not contained within the solicitation documents or formally noticed and issued by the Buyer's contracting personnel. Questions to the Procurement Officer or to any Buyer personnel shall not constitute formal protest of the specifications or of the solicitation, a process addressed in paragraph 20 of these Instructions.”

VENDORS ARE STRONGLY ENCOURAGED TO RAISE ANY QUESTIONS OR CONCERNS THEY MAY HAVE REGARDING THIS RFP, INCLUDING THE PROPOSED CONTRACT TERMS AND CONDITIONS, DURING THE OPEN QUESTION PERIOD.

2.6 Question and Answer (Q&A)

The Department will issue an addendum containing the questions submitted by Vendors and the written binding answers of the Department. This addendum will be issued according to the Timeline of Events, section 2.2.

2.7 Addenda

The Department reserves the right to modify this solicitation by issuing addenda. Addenda may modify any aspect of this solicitation. Addenda issued will be posted on the VBS and within the MFMP Sourcing application. It is the Vendor's responsibility to check for any changes to a solicitation prior to submitting a proposal.

2.8 Contract Formation

The Department intends to enter into a Contract with each awarded Vendor(s). The Contract(s) will be composed of the following:

- 2.8.1 Contract document
- 2.8.2 Solicitation document
- 2.8.3 Vendor's proposal to the Solicitation
- 2.8.4 Other Documentation (as required)

By submitting a proposal to this solicitation the Vendor agrees to and waives any objections to requirements contained therein. By submitting a proposal the Vendor certifies that it agrees to and satisfies all criteria specified in the solicitation.

Please note: Any outstanding MFMP transaction fees owed or open reports listed in MFMP must be resolved to the Department's satisfaction prior to entering into any contract.

2.9 Proposal Contents

The Vendor's proposal shall be organized as directed in section 4 of this solicitation. Vendors shall complete each section entirely or the Vendor may not be deemed Responsive.

2.10 Documentation

Pursuant to 119.071 Florida Statutes, a sealed proposal to this solicitation is exempt from public records disclosure until the Department provides notice of its intended decision or 30 days after opening of proposals, whichever comes earlier. Rejection of all proposals may result in up to 12 months of exemption from public records disclosure pursuant to section 119.071, Florida Statutes, for those proposals should the Department concurrently provide notice that it intends to reissue the competitive solicitation. Notwithstanding the prior statements in the section, portions of sealed proposals may remain confidential or exempt from disclosure if properly protected under other applicable law. See section 3.6.

2.11 Replacement or Withdrawal of Proposal

A Vendor may replace or withdraw a sealed proposal at any time prior to the Proposal Opening listed in the Timeline of Events, section 2.2.

2.12 Diversity

The Department is dedicated to fostering the continued development and economic growth of small, minority-, veteran-, and women-owned businesses. Participation of a diverse group of Vendors doing business with the State is central to the Department's effort. To this end, small, minority-, veteran-, and women-owned business enterprises are encouraged to participate in the State's procurement processes, including as subcontractors under prime contracts.

Enterprises that desire to be certified as a small, minority-, veteran-, or women-owned business can request certification information from the Department's Office of Supplier Diversity, which can be reached at this link:

http://www.dms.myflorida.com/other_programs/office_of_supplier_diversity_osd

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

3 Instructions

This section contains the special instructions to Respondents and additional instructions relevant to the solicitation. General Instructions to Respondents (PUR 1001) is incorporated by reference and may be downloaded and viewed by clicking on the link here: [PUR 1001](#).

3.1 MFMP Registration

In order to submit a question or a proposal, Vendors must have a current Vendor registration and elect "yes" to participate in Sourcing within the MFMP Vendor Information Portal (VIP). The VIP can be accessed via this link:

<https://vendor.myfloridamarketplace.com/>.

The MFMP Sourcing application may be accessed using the following link:

<https://sourcing.myfloridamarketplace.com>

Registered Vendors: Login using your MFMP VIP username and password to view active solicitations. To see other solicitation information, please go to the VBS by visiting this site: http://www.myflorida.com/apps/vbs/vbs_main_menu

Public Access: If you wish to view active solicitations in MFMP Sourcing click the 'Public Access' button. To see other solicitation information, please go to the VBS site. To participate in a solicitation within MFMP Sourcing, you must be a registered MFMP Vendor. If you are not currently registered with MFMP you must:

1. Create an account through the MFMP VIP.
2. Within MFMP VIP, indicate on the Solicitations page that you wish to participate in electronic solicitations.
3. Within the MFMP VIP, in the Commodity Selections section, select the commodity codes for the goods and services that your business would like to provide to the State. You will not receive notifications for commodities codes that you do not select here.

Please note that changes made in MFMP VIP, including new registrations, will take effect the following business day.

To register visit the MFMP VIP site: <https://vendor.myfloridamarketplace.com/vms-web/spring/login>

All Vendors must join the Event by the date listed in the Timeline of Events, section 2.2, in order to participate in the solicitation.

For questions, please contact the MFMP Customer Service Desk at 1-866-352-3776 or email vendorhelp@myfloridamarketplace.com.

The awarded Vendor(s) will be required to pay the required transaction fees as prescribed by rule 60A-1.031, Florida Administrative Code, or as may otherwise be established by law. Effective November 1st, 2015, through July 1st, 2016, in accordance with Senate Bill 2502-A, the Transaction Fees imposed for use of the State of Florida's eProcurement systems will change from one percent (1%) to seven-tenths of one

percent (.70%) of the payment issued. The Transaction Fees imposed shall be based upon the date of issuance of the payment.

3.2 MFMP Training

MFMP offers Vendor training materials on the Department's website at:

<http://www.dms.myflorida.com/mfmp/vendor/trainingmaterials>

Vendors may download the pdf documents for review.

3.3 How to Submit a Proposal

Vendors will submit their proposals electronically via the MFMP Sourcing tool. The Department will only evaluate proposals submitted using MFMP Sourcing. Vendors must answer the Mandatory Requirement questions listed in section 4.1 in order to be able to submit a proposal.

Vendors that fail to submit all required information may not be deemed Responsive.

Graphics, colored displays, and promotional material are not permitted. The emphasis of each Vendor's proposal shall be on completeness and clarity of content, prepared simply and economically, providing a straightforward, concise delineation of the Vendor's capabilities to satisfy the requirements of this solicitation.

Vendors are responsible for submitting their proposals by the date and time specified in the Event Timeline located in section 2.2 of this solicitation. The Department will not consider late proposals.

3.4 Additional Information

Failure to supply supporting information or documentation as requested by the Department may result in the Vendor being determined to not be a Responsive Vendor and their proposals not being considered.

3.5 No Alternate Proposal

Each Vendor may only submit one proposal. The Department seeks each Vendor's single-best proposal for the State of Florida, as outlined in the solicitation.

3.6 Redacted Submissions

The following subsection supplements section 19 of the PUR 1001. If a responding Vendor considers any portion of the documents, data or records submitted in response to this solicitation to be confidential, proprietary, trade secret or otherwise not subject to disclosure, pursuant to Chapter 119, Florida Statutes, the Florida Constitution or other authority, Vendor is to mark the document as "Confidential", simultaneously provide the Department with a separate redacted copy of its proposal, briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Department's solicitation name, number, and the name of the responding Vendor on the cover, and is to be clearly titled "Redacted Copy." The Redacted Copy should only redact those portions of material that the Vendor claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

In the event of a request for public records, pursuant to Chapter 119, Florida Statutes, the Florida Constitution, or other authority, to which documents that are marked as confidential are responsive, the Department will provide the Redacted Copy to the requestor. If a requestor asserts a right to the Confidential Information, the Department will notify the responding Vendor such an assertion has been made. It is the responding Vendor's responsibility to assert that the information in question is exempt from disclosure under Chapter 119, Florida Statutes, or other applicable law. If the Department becomes subject to a demand for discovery or disclosure of the Confidential Information of the responding Vendor in a legal proceeding, the Department shall give the responding Vendor prompt notice of the demand prior to releasing the information (unless otherwise prohibited by applicable law). The responding Vendor shall be responsible for defending its determination that the redacted portions of its proposal are confidential, proprietary, trade secret, or otherwise not subject to disclosure.

By submitting a solicitation, the responding Vendor agrees to protect, defend, and indemnify the Department for any and all claims arising from or relating to the responding Vendor's determination that the redacted portions of its solicitation are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If the responding Vendor fails to submit a redacted copy of information it claims is confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request for these records.

3.7 Price Sheet Instructions

RESPONDENTS SEEKING AN AWARD MUST PROVIDE PRICES FOR ALL HOURLY MANDATORY POSITIONS IDENTIFIED ON ATTACHMENT F-1 IN ORDER TO BE DEEMED RESPONSIVE.

Pricing offered to the State of Florida for this solicitation shall be the best price available to the State and shall be comparable to or better than the best available pricing offered by the Respondent to similarly situated government entities. Other states similar in size and buying power to the State of Florida are California, New York, Texas.

Prices shall not increase for the entire Contract term.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

4 Vendor Submission

This section contains the substance of the requested proposal. Vendors do not need to respond to any other sections, or provide any other documentation than what is required in this section. Vendors shall answer all mandatory questions and are to submit all documentation requested as part of this section, in accordance with the instructions presented for each subsection.

4.1 Mandatory Requirement Questions

Vendors will submit a Yes/No response to the following Mandatory Requirement Questions within MFMP Sourcing. A Vendor must meet the requirements identified and certify their compliance with the requirements through the following questions in order to be considered responsive and responsible.

VENDORS THAT ANSWER “NO” TO ANY OF THE MANDATORY REQUIREMENT QUESTIONS ARE CONSIDERED NON-RESPONSIVE VENDORS AND THEIR PROPOSAL WILL NOT BE FURTHER EVALUATED.

Mandatory Requirement Questions	
Question 1	Does the Vendor certify that it has an ACTIVE registration with the Florida Department of State, Division of Corporations?
Question 2	Does Vendor certify that it is not a Discriminatory Vendor or Convicted Vendor, as defined in sections 7 and 8 of the PUR 1001 ?
Question 3	Does Vendor certify that it is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List pursuant to section 215.473 , Florida Statutes?
Question 4	Does Vendor certify that it is not on the Suspended Vendor list? Click on this link to confirm: lists
Question 5	Does Vendor certify that it has read the entire solicitation document and agree to all Terms and Conditions?

4.2 Uploading Documentation

Responding Vendors must upload an electronic copy of all required documentation in the MFMP Sourcing application. The following conditions apply:

- In the case where the Department provides an attachment that is able to be filled in, responding Vendors are to download the attachment, fill it out, and then attach the completed copy in the link provided.
- In the case of original or signed documentation, responding Vendors may attach scanned copies of original documents.
- In the case where multiple original or signed items are requested as part of a single requirement, please combine multiple scanned items into a single PDF attachment. Each link in MFMP will only accept a single attachment.
- MFMP accepts files up to 20 megabytes (MB) in size.

4.3 Contents of Proposal

Vendors are to submit their proposal in the following format and organized with all information indicated in each part below.

Proposals are to be organized in parts as directed below. Respondents are to complete each section entirely or the Respondent may not be deemed Responsive.

The following is to be submitted as a single attachment through MFMP:

PART ONE: Vendor information is to be submitted as described below.

4.3.1 Vendor Introduction

- a) Cover Letter/Executive Summary: IV&V Vendor may submit a Cover Letter with its Response. The letter will not be scored but may be used by the Vendor to introduce and highlight the key aspects of its Response for the Evaluation Team.

4.3.2 Forms and Documents

Vendors shall submit:

- a) Vendor Information Form (Attachment A). Vendor is to submit one completed Vendor Information form.
- b) Background and Experience (Attachment B)
The Vendor is to submit Company's Information Technology and IV&V Experience, as described in section 5.3.1.
- c) Responsible Vendor Review Form
The Vendor is to submit one completed and notarized Responsible Vendor Review form (Attachment C), as described in section 5.2.
- d) Financial Certification Form
The Vendor is to submit one completed and notarized Financial Certification form (Attachment D), as described in section 5.2.

PART TWO: Staff Qualifications

- 4.4.2 The Vendor shall submit Staff Qualifications information, as described in section 5.3.2.

PART THREE: Work Plan and IV&V Methodology

- 4.4.3 The Vendor shall submit Work Plan and IV&V methodology, as described in section 5.3.3.

PART FOUR: References shall be completed as described below.

4.3.3 References (Attachment E)

The Vendor shall submit three (3) completed Reference forms (Attachment E), as described in section 5.3.4.

PART FIVE: Price information shall be completed as described below.

4.3.4 Price Sheet (Attachment F-1)

Vendor is to submit the completed Price Sheet as indicated in section 3.7, Price Sheet Instructions.

4.4 Submission Capacity Requirements

Due to the large amount of Vendor responses anticipated the Department has determined that the following shall be the capacity requirements of each Vendor's submission:

Part	Title	Page Limit
1	Executive Summary	1
	Vendor Information Form (Attachment A)	1
	Background and Experience (Attachment B)	1
	Responsible Vendor Review Form (Attachment C)	2
	Financial Certification Form (Attachment D)	1
2	Staff Qualifications	6
3	Work Plan and IV&V Methodology	5
4	References (Attachment E)	6
5	Price Sheet (Attachment F-1)	1
	Total page allowable for RFP Proposal Response	24

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

5 Evaluation Methodology

This section describes the methodology that the Department will use to evaluate responding Vendor(s). Evaluations will be conducted by an Evaluation Team. Scoring will be based on a possible total of 1000 points.

5.1 Vendor Responsiveness Evaluation

The Procurement Officer will examine the Vendor's answers to the Mandatory Requirement Questions, the Vendor's completed Price Sheets, and the Vendor's other required documentation, as listed in Attachment G, to determine if the Vendor is deemed Responsive. Vendors that fail to provide all required documentation, completed price sheet, or mandatory questions will not be deemed Responsive.

5.2 Vendor Responsibility Evaluation (Attachments C & D)

Respondent shall complete both the Responsible Vendor Review Form (Attachment C) and the Financial Certification Form (Attachment D). The Department will use these completed forms to determine if a Respondent is a Responsible Vendor.

5.3 Vendor Proposal Evaluation:

The following criteria will be used to evaluate proposals:

Criteria	Maximum Possible Score
Background and Experience	200
Staff Qualifications	100
Work Plan and IV&V Methodology	300
References	200
Price Evaluation	200
Total Score Possible	1000

5.3.1 Background and Experience (200 points)

Respondent will be scored based on their background and experience. Respondent shall complete the Background and Experience Certification form (Attachment B) and include it with its submission.

Score for the Background and Experience will be given as follows:

Up to 3 years IV&V experience	50
3 to 7 years IV&V experience	100
7 to 10 years IV&V experience	150
10 plus years IV&V experience	200

5.3.2 Staff Qualifications - (100 points)

This portion will be scored based on Respondent's ability to demonstrate their staff's IV&V experience. Respondent shall clearly demonstrate that their organization possesses relevant experience and expertise to effectively satisfy the requirements of this RFP.

Respondent's proposal should identify all staff qualifications to provide the services, including relevant and related IV&V experience, and educational backgrounds and degrees.

Respondent's proposal should show that Respondent's staff has the following:

- Extensive experience in providing Independent Verification and Validation of a projects with the intent of protecting Customer's interests.
- Specific experience in conducting Independent Verification and Validation to provide documented evaluations and assessments throughout the project lifecycle.
- Expertise in the review and analysis of the artifacts and deliverables to evaluate the effectiveness of project management processes, systems development methodologies, and execution.
- Sufficient experience with industry standard best practices and methodology in risk and issue analysis and management.
- Proficiency in guidance and training related to industry-standard best practices and methodologies in project management and systems development.
- Significant experience with industry-standard best practices regarding quality principles and techniques.

Staff Qualifications will be evaluated using the following scoring methodology:

Excellent	The Vendor's staff qualifications extensively demonstrate exceptional IV&V experience and expertise.	100
Acceptable	The Vendor's staff qualifications adequately demonstrate sufficient IV&V experience and expertise.	75
Fair	The Vendor's staff qualifications minimally demonstrate limited IV&V experience and expertise.	50
Poor	The Vendor's staff qualifications fail to demonstrate its IV&V experience and expertise.	0

5.3.3 Work Plan and IV&V Methodology - (300 points)

Respondent shall provide a well-conceived Work Plan and IV&V methodology that will become part of the prospective contract.

The Work Plan and IV&V methodology will be evaluated using the following scoring methodology:

Excellent	Vendor's work plan and IV&V methodology extensively demonstrates exceptional quality assurance & assessment protocols.	300
Acceptable	Vendor's work plan and IV&V methodology adequately demonstrates sufficient quality assurance & assessment protocols.	200
Fair	Vendor's work plan and IV&V methodology minimally demonstrates limited quality assurance & assessment protocols.	100
Poor	Vendor's work plan and IV&V methodology fails to demonstrate its quality assurance & assessment protocols.	0

5.3.4 References (Value of 200 points)

Respondent must provide three (3) completed Reference forms (Attachment E). To be eligible for award three completed Reference forms must be provided by the Respondent.

Each reference will be based on a SPECIFIC PROJECT for which IV&V services were provided by the Vendor.

The references submitted will be validated during the evaluation of proposals.

Score for the References will be given as follows:

Excellent	All of the Vendor's References are 3 stars	200
Average	All of the Vendor's References are 2 & 3 stars	150
Below Average	All of the Vendor's References are 1, 2 & 3 stars	100
Poor	All of the Vendor's References are 0 stars	0

5.3.5 Price Evaluation (Value of 200 points)

As detailed below, pricing for the six (6) mandatory positions identified on Attachment F-1, and as described in Attachment F-2, will be scored using the following methodology:

Position	Percent of Total Points Available Per Position	Highest Points Available Per Position
Principal	10%	20
Contract Manager	10%	20
Project Manager	25%	50
Analyst - Senior	25%	50
Analyst - Junior	20%	40
Subject Matter Experts	10%	20

The Respondent with the lowest total price per mandatory position shall receive the total points available per position. Other Respondents shall receive price evaluation points based upon the following formula:

$$\frac{(X)}{N} \times 200 = Z$$

Where:

X = lowest total price received per position

N = Vendor's submitted total lowest price per position

Z = points awarded per position

The total points awarded per position will be added together for each Respondent to determine the total price evaluation points awarded per Respondents.

The assignment of the points based on the above formula will be calculated by the Procurement Officer.

5.4 Basis of Award

The Department anticipates awarding up to 20 contracts to Responsive and Responsible Vendor(s) with the highest total scores that are found to be the most advantageous to the State.

5.5 Disqualification

Proposals that do not conform in all material respects to the requirements, specifications, terms, and conditions of the solicitation may be rejected as non-responsive. The Department reserves the right to determine which Vendors are Responsive and Responsible.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

6 Scope of Work

The Contractor shall perform ongoing project IV&V monitoring activities and will review and validate issues/deficiencies/risks identified with the project. Project monitoring activities include, but are not limited to:

- Providing an independent, objective, third-party view of project efforts with the intent of protecting the Customer's interests.
- Providing personnel, processes, approaches and tools to perform IV&V services for Florida information technology projects
- Performing assessments on both management processes and work products.
- Providing objective observations and recommendations
- Assessing and reporting overall project performance, extrapolating future project progress and success, and identifying any possible impediments to successful project completion
- Examining all project artifacts and documents to evaluate the effectiveness of the project management controls, procedures and methodology
- Assessing the effectiveness of project communication and assessing Customer involvement
- Developing performance metrics that facilitate the tracking of progress / completion of project tasks and milestones
- Reviewing all project cost and expenditure documentation and making recommendations for efficient use of funds
- Validating identified risks and issues and proposed response(s) and assessing impact to the project progress or success
- Verifying and validating the quality of project work products (deliverables)
- Reviewing statements-of-work, solicitations, and contracts to verify alignment between requirements and solicited or contracted terms
- Providing guidance and training on standards and best practices for project management
- Ensuring project teams follow required standards, including, but not limited to, Administrative Rule, Florida Statutes, and federal requirements.
- If additional specific requirements for any IV&V consulting services are needed they will be determined by the Customer in a project specific Statement of Work attached to a Request for Quote.

Note: More information on the Scope of Work can be found in the Draft Contract below.

6.1 Ongoing Contractor Performance Measures

The Department intends to use performance-reporting tools in order to measure the performance of Contractors. These tools will include the Contractor Performance Survey (Exhibit D of the draft Contract). Such measures assist the Department in ensuring that Contractors provide the best possible value to the State and its Customers. The Department reserves the right to modify the Contractor Performance Survey and introduce additional performance-reporting tools as they are developed, including online tools (e.g. tools within MyFloridaMarketPlace or on the Department's website).

7 Draft Contract Document

Information Technology Independent Verification and Validation

Contract No. 80101507-IVV-15-1

Between Florida Department of Management Services and _____

This Contract is between the State of Florida, Department of Management Services (Department), Division of State Purchasing (Division), with offices at 4050 Esplanade Way, Tallahassee, FL 32399-0950, and _____ (Contractor) with offices at _____.

The Contractor submitted a Responsive Proposal to the Department's Request for Proposal (RFP) 05-80101507-IVV-B for information technology independent verification and validation. After evaluation of proposals, the Department determined that the Contractor's proposal is among those that are the most advantageous to the State of Florida and has decided to enter into this Contract.

Accordingly, the Department and Contractor agree as follows:

1. Contract Term

The Contract Term of this Contract for information technology independent verification and validation will be for two (2) years with up to three (3) years of renewals. The Contract Term will begin on July 1, 2016, or the date of the last signature on this Contract.

2. Contract

As used in this document, the term "Contract" (whether or not capitalized) shall, unless the context requires otherwise, be considered to be references to this Contract.

This Contract, together with the following attached exhibits, and RFP 05-80101507-IVV-B, incorporated by reference, sets forth the entire understanding of the parties and supersedes all prior agreements, whether written or oral, with respect to such subject matter.

All exhibits attached to this Contract are incorporated in their entirety into, and form part of, this Contract. The Contract has the following exhibits:

- a) Exhibit A: Contract Conditions, General and Special
- b) Exhibit B: Contractor's submitted Pricing Sheet from RFP 05-80101507-IVV-B.

- c) Exhibit C: Contractor's submitted Work Plan & IV&V Methodology from RFP 05-80101507-IVV-B.
- d) Exhibit D: Contractor Performance Survey

In case of conflict, the terms of this Contract shall control. If a conflict exists among any of the attached documents, the documents shall have priority in the order listed below:

- a) The Contract
- b) Special Contract Conditions, Exhibit A, Section 1
- c) General Contract Conditions, Exhibit A, PUR 1000
- d) RFP 05-80101507-IVV-B
- e) Contractor's submitted proposal to RFP 05-80101507-IVV-B

3. Statement of Work

The Contractor shall provide information technology independent verification and validation services.

The Contractor shall possess the professional and technical staff necessary to perform the information technology independent verification and validation services required by this contract and the staff shall have sufficient skill and experience to perform the services assigned to them.

All of the information technology independent verification and validation services to be furnished by the Contractor under the contract shall meet the professional standard and quality that prevail among information technology professionals in the same discipline and of similar knowledge and skill engaged in related work throughout Florida under the same or similar circumstances.

The Contractor shall maintain during the term of the Contract all licenses, permits, qualifications, insurance and approvals of whatever nature that are legally required to perform the information technology independent verification and validation services.

4. Minimally Required Activities and Deliverables

The Contractor shall perform ongoing project IV&V monitoring activities and will review and validate issues/deficiencies/risks identified with the project. Project monitoring activities include, but are not limited to:

- Providing an independent, objective, third-party view of project efforts with the intent of protecting the Customer's interests.
- Providing personnel, processes, approaches and tools to perform IV&V services for Florida information technology projects
- Performing assessments on both management processes and work products.
- Providing objective observations and recommendations
- Assessing and reporting overall project performance, extrapolating future project progress and success, and identifying any possible impediments to successful project completion
- Examining all project artifacts and documents to evaluate the effectiveness of the project management controls, procedures and methodology

- Assessing the effectiveness of project communication and assessing Customer involvement
- Developing performance metrics that facilitate the tracking of progress / completion of project tasks and milestones
- Reviewing all project cost and expenditure documentation and making recommendations for efficient use of funds
- Validating identified risks and issues and proposed response(s) and assessing impact to the project progress or success
- Verifying and validating the quality of project work products (deliverables)
- Reviewing statements-of-work, solicitations, and contracts to verify alignment between requirements and solicited or contracted terms
- Providing guidance and training on standards and best practices for project management
- Ensuring project teams follow required standards, including, but not limited to, Administrative Rule, Florida Statutes, and federal requirements.
- If additional specific requirements for any IV&V consulting services are needed they will be determined by the Customer in a project specific Statement of Work attached to a Request for Quote.

In addition to the activities listed above, the awarded Contractor(s) will be required to provide presentations and oral reports, attend meetings and events, perform records management and administrative responsibilities related to the contract, and maintain open and effective communication with the agency Project Manager, Sponsor(s), and oversight entities.

The activities identified above (and others) are necessary to provide input into the deliverables below which will be required in Statements of Work issued by Customers in a Request for Quote.

IV&V Management Plan	Develop an IV&V Management Plan to include: <ul style="list-style-type: none"> • A detailed description of how the IV&V Vendor plans to perform the IV&V services. This description must include methodologies, strategies, standards, and approaches employed by the IV&V Vendor for executing each of the IV&V activities within this Scope of Work. • An organizational structure which reflects, among other things, coordination activities among the IV&V Vendor, the Project Manager and team, the Project Sponsor, Customers, and any oversight entities involved in the project. • Description of resources assigned to IV&V activities, tasks, and deliverables. • Description of the deliverables to be produced as a result of the IV&V activities.
IV&V Schedule	Develop an IV&V schedule
IV&V Status Reports / Meetings	<ul style="list-style-type: none"> • Hold IV&V status meetings with IV&V team, Project Manager and Project Sponsor. • Hold IV&V status meetings with oversight entities as requested by these entities.

Initial Project Assessment Report	<ul style="list-style-type: none"> • Evaluate sufficiency of project scope and objectives, including alignment to legislative intent and its impact on agency processes and services • Review the Project Management Plan and the planned development of project's schedule, resources, tasks, structures, processes, and procedures, to assess the overall maturity of the project's planning. • Assess the project's organizational, governance, and communication processes • Review the impact of any procurement requirements and deadlines.
Project Lessons Learned	Document lessons learned throughout the project and provide a comprehensive report of lessons learned with recommendations for incorporation of best practices into future projects.
Weekly Project Assessment Updates	Provide weekly updates (between Monthly Reports) to assess project status, project management strengths and deficiencies, schedule effectiveness and earned value measures and recommendations for correcting identified variances from best practices.
Monthly Project Assessment Reports	Summarize the results of ongoing project monitoring and provide findings and recommendations for improvement of project management and processes.
Special Communication	Special communication to all stakeholders will be generated immediately when the awarded Contractor(s) determines that circumstances exist that put the scope, budget, schedule, or viability of the project at significant risk as defined in the IV&V Management Plan.
Phase Gate Assessment Reports	<ul style="list-style-type: none"> • Describe project status and progress for the current phase of the project, and plans for the upcoming phase • Provide an analysis of the project's ability to meet future project milestones and deliverables and recommendations on project/agency readiness to proceed to the next phase.
Verification and Validation of Project Deliverables	<p>Conduct verification and validation reviews of project deliverables. Deliverables may include, but are not limited to:</p> <ul style="list-style-type: none"> • Organizational Change Management Plan (includes any training plans) • Requirements Documents (Business, Functional, and Technical) • Requirements Traceability Matrix • Data and Document Conversion / Migration Plan(s) • Project Plan / Schedule • Design Specifications • Technical Architecture • Coding standards/style guides • Quality Assurance and Test Strategy / Test Plan / Test procedures • Customer acceptance criteria • Security Plans • Implementation / Cutover Plan • Sustaining engineering plan • Agency Project Management Status Reports • Disaster Recovery Plan
Review of Solicitation and Procurement Documentation	Review of any solicitation, procurement, or contract documents to verify that, at a minimum, the evaluation criteria are clearly articulated and are consistent with project objectives, and that the obligations of the Vendor, subcontractors, and external staff are clearly defined and aligned to facilitate success.

Customers may augment the minimally required activities and deliverables above with additional activities or deliverables as required by the project.

Customers shall use a Request for Quote per section 287.056(2), Florida Statutes as a result of this state term contract. Customer shall order services from the Request for Quote via a purchase order

In accepting a Purchase Order, the Contractor recognizes its responsibility for all tasks and deliverables contained therein, warrants that it has fully informed itself of all relevant factors affecting accomplishment of the tasks and deliverables and agrees to be fully accountable for the performance thereof.

5. Amendments

No oral modifications to this Contract are acceptable. All modifications to this Contract must be in writing and signed by both parties.

Notwithstanding the order listed in section 2, amendments executed after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent amendment will take precedence over anything else that is part of the Contract.

This Contract is executed upon signature of authorized officers as of the dates signed below:

**State of Florida,
Department of Management Services**

Contractor

EXHIBIT A

Contract Conditions

This Exhibit contains the Special Contract Conditions. The General Contract Conditions, Form PUR 1000, are incorporated by reference, and may be downloaded and viewed at: <http://www.dms.myflorida.com/content/download/2933/11777/1000.pdf>. If a conflict exists between the Special Contract Conditions and the General Contract Conditions, the Special Contract Conditions shall take precedence over the General Contract Conditions unless the conflicting term in the General Contract Conditions is required by Florida law, in which case the General Contract Conditions term will take precedence.

1 Special Contract Conditions

1.1 Electronic Invoicing (eInvoicing)

The Contractor may supply electronic invoices in lieu of paper-based invoices for those transactions processed through the MFMP. Contractor may establish electronic invoicing within ninety (90) days of written request to the Department. Electronic invoices shall be submitted to the Customer through the Ariba Network (AN) in one of three mechanisms as listed below. The Contractor will work with the MFMP management team to obtain specific requirements for the eInvoicing.

1.1.1 Commerce eXtensible Markup Language (cXML)

This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the AN for catalog and non-catalog goods and services. The cXML format is the Ariba preferred method for electronic invoicing.

1.1.2 Electronic Data Interchange (EDI)

This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an EDI environment. This transaction set can be used for invoicing via the AN for catalog and non-catalog goods and services.

1.1.3 Purchase Order (P.O.) Flip via Ariba Network (AN)

The online process allows suppliers to submit invoices via the AN for catalog and non-catalog goods and services. Contractors have the ability to create an invoice directly from their Inbox in their AN account by simply “flipping” the P.O. into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider of MFMP, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor’s trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the Contract.

1.2 Purchasing Card (P-card) Program

Contractor must accept the Universal card format Purchasing Cards (e.g., American Express, MasterCard, and Visa). However, the Purchasing Card is not the exclusive method of payment (e.g., Purchase Order). The method of ordering and payment (e.g., Purchase Order, Purchasing Card) shall be selected by the Customer.

1.3 Compliance with Laws

The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of Federal, State, and local agencies having jurisdiction and authority. For example, Chapter 287, of the Florida Statutes and Rule 60A of the Florida Administrative Code, govern the Contract. The Contractor shall comply with section 274A of the Immigration and Nationalization Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of any such applicable laws, roles, codes, ordinances and licensing requirements, shall be grounds for Contract termination.

1.4 Liability and Worker's Compensation Insurance

During the Contract term, the Contractor at its sole expense shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract, which, at a minimum, shall be: workers' compensation and employer's liability insurance per Florida statutory limits (currently \$100,000 per accident, \$100,000 per person, and \$500,000 policy aggregate) covering all employees engaged in any Contract work; commercial general liability coverage on an occurrence basis in the minimum amount of \$500,000 (defense cost shall be in excess of the limit of liability), naming the State as an additional insured; and automobile liability insurance covering all vehicles, owned or otherwise, used in the Contract work, with minimum combined limits of \$500,000, including hired and non-owned liability, and \$5,000 medical payment. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor and is of the essence of the Contract. The Contract shall not limit the types of insurance Contractor may desire to obtain or be required to obtain by law. The limits of coverage under each policy maintained by the Contractor shall not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies shall be through insurers authorized to write policies in Florida.

1.5 Detail of Bills

Contractor shall submit bills for fees or other compensation for services or expenses in detail, sufficient enough for a proper pre-audit and post-audit.

1.6 Return of Funds

Contractor will return to the Customer any overpayments due to unearned funds or funds disallowed pursuant to the terms of this Contract that were disbursed to the Contractor by the Customer. The Contractor shall return any overpayment to the Customer within forty (40) calendar days after either discovery by the Contractor its independent auditor, or notification by the Customer, of the overpayment.

1.7 Bills for Travel

Bills for travel expenses, if permitted, must be submitted in accordance with section 112.061, Florida Statutes.

1.8 Public Records

The Department may unilaterally terminate the Contract if the Contractor refuses to allow access to all public records, including documents, papers, letters, or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from section 24(a) of Article I of the State Constitution or section 119.07(1), Florida Statutes.

If, under this contract, the Contractor is providing services and is acting on behalf of the Department as provided under section 119.011(2), Florida Statutes, the Contractor, subject to the terms of section 287.058(1)(c), Florida Statutes, and any other applicable legal and equitable remedies, shall:

- (a) Keep and maintain public records that ordinarily and necessarily would be required by the Department in order to perform the service.
- (b) Provide the public with access to public records on the same terms and conditions that the Department would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
- (c) Ensure that public records that are confidential or exempt from public records disclosure requirements are not disclosed except as authorized by law.
- (d) Meet all requirements for retaining public records and transfer, at no cost, to the Department all public records in possession of the Contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the Department in a format that is compatible with the information technology systems of the Department.

If Contractor considers any portion of materials made or received in the course of performing the Contract ("contract related materials") to be trade secret under section 812.081, Florida Statutes, or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as "confidential" when submitted to the Department. Contractor must simultaneously provide the Department with a separate redacted copy of the information it claims as Confidential and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Contract name and number, and shall be clearly titled "Confidential." The redacted copy should only redact those portions of material that the Contractor claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

If the Department receives a public records request for contract-related materials designated by the Contractor as "confidential," the Department will provide only the portions of the contract-related materials not designated as "confidential." If the requester asserts a right to examine contract-related materials designated as "confidential," the Department will notify the Contractor. The Contractor will be

responsible for responding to and resolving all claims for access to contract-related materials it has designated “confidential.”

If the Department is served with a request for discovery of contract-related materials designated “confidential,” the Department will promptly notify the Contractor about the request. The Contractor will be responsible for filing, the appropriate motion or objection in response to the request for discovery. The Department will provide materials designated “confidential” only if the Contractor fails to take appropriate action, within timeframes established by statute and court rule, to protect the materials designated as “confidential” from disclosure.

Contractor shall protect, defend, and indemnify the Department for any and all claims arising from or relating to Contractor’s determination that the redacted portions of its proposal are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Contractor fails to submit a redacted copy of information it claims is Confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request for these records.

1.9 Intellectual Property

The parties do not anticipate that any Intellectual Property will be developed or created as a result of the Contract. However, in such case as it is developed or created, any Intellectual Property developed or created as a result of the Contract will belong to and be the sole property of the State of Florida. This provision will survive the termination or expiration of the Contract.

1.10 Preferred Price Affidavit Requirement

The Department will provide the Preferred Pricing Affidavit, incorporated by reference, for completion by an authorized representative of the Contractor attesting that the Contractor is in compliance with the best pricing provision in section 4(b) of the PUR 1000 form. The Contractor agrees to submit to the Department, at least annually, the completed Preferred Pricing Affidavit.

1.11 Subcontracts

The Contractor is fully responsible for all work performed under this Contract. The Contractor may, upon receiving written consent from the Department’s Contract Manager, enter into written subcontract(s) for performance of certain functions under this Contract. No subcontract, which the Contractor enters into with respect to performance of any of its functions under this Contract, shall in any way relieve the Contractor of any responsibility for the performance of its duties. The Contractor shall assure that all tasks related to the subcontract are performed in accordance with the terms of the resulting contract. All payments to subcontractors shall be made by the Contractor.

1.12 Employment Verification (E-Verify)

Pursuant to State of Florida Executive Order Number 11-116, Contractor is required to utilize the U.S. Department of Homeland Security’s E-Verify system to verify eligibility of all new employees hired by the Contractor to work in the U.S. during the Contract term. Also, Contractor shall include in related subcontracts a requirement that subcontractors performing work or providing services pursuant to the Contract utilize the E-Verify system to verify the eligibility of all new

employees hired by the subcontractor to work in the U.S. during the Contract term.

1.13 Scrutinized Company List

Pursuant to subsection 287.135(5), Florida Statutes, at the time a Vendor submits a proposal or before entering into a contract where the value exceeds \$1 million, the Vendor or Contractor must certify that it is not listed on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.

Pursuant to subsection 287.135(3)(b), Florida Statutes, Department may immediately terminate any contract for cause if the Contractor is found to have submitted a false certification under subsection 287.135(5), Florida Statutes, or if Contractor is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List during the term of the Contract.

1.14 Commitment to Diversity in Government Contracting

The State of Florida is committed to supporting its diverse business industry and population through ensuring participation by minority-, women-, wartime-, and service-disabled veteran business enterprises in the economic life of the State. The State of Florida Mentor Protégé Program connects minority-, women-, wartime-, and service-disabled veteran business enterprises with private corporations for business development mentoring. We strongly encourage firms doing business with the State of Florida to consider this initiative. For more information on the Mentor Protégé Program, please contact the Office of Supplier Diversity at (850) 487-0915 or osdhelp@dms.myflorida.com.

Upon request, the Contractor shall report to the Department, spend with certified and other minority business enterprises. These reports will include the period covered, the name, minority code and Federal Employer Identification Number of each minority Vendor utilized during the period, commodities and services provided by the minority business enterprise, and the amount paid to each minority Vendor on behalf of each purchasing agency ordering under the terms of this Contract.

1.15 Business Review Meetings

The Department reserves the right to schedule business review meetings as frequently as necessary. The Department will provide the format for the Contractor's agenda. Prior to the meeting, the Contractor shall submit the completed agenda to the Department for review and acceptance. The Contractor shall address the agenda items and any of the Department's additional concerns at the meeting. Failure to comply with this section may result in the Contractor being found in default and contract termination.

1.16 Ethical Business Practices

The Contractor shall work in partnership with the State to ensure a successful and valuable contract, and ethical practices are required of State employees, Contractors, and all parties representing the Contractor. All work performed under this contract will be subject to review by the Inspector General of the State

of Florida, and any findings suggesting unethical business practices may be cause for termination or cancellation.

1.17 Delays and Complaints

Delivery delays and service complaints will be monitored on a continual basis. Documented inability to perform under the conditions of the contract, via the established Complaint to Vendor process (PUR 7017 form), may result in default proceedings and cancellation.

1.18 Sales and Use Tax

It is the responsibility of the Contractor to determine how work accomplished under this contract would be subject to a Use Tax as written in the "Sales and Use Tax" Rule 12A-1, Florida Administrative Code. Any questions concerning the Use Tax as it relates to this contract shall be directed to the Taxpayer Assistance Section at the Department of Revenue (DOR) (800) 352-3671, Monday through Friday, 8 a.m. to 7 p.m. (ET). For more information visit the DOR website at <http://dor.myflorida.com/dor/businesses>.

1.19 Insurance, Loss Deductible

The Customer shall be exempt from, and in no way liable for, any sums of money which may represent a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the contractor providing such insurance. Upon request, the Contractor shall furnish the Customer an insurance certificate proving appropriate coverage is in full force and effect.

1.20 Insurance, Subcontractor's Public Liability and Property Damage

The Contractor shall require each of its subcontractors to secure and maintain during the life of the subcontract, insurance of the type specified in this Contract, or, the Contractor may insure the activities of its subcontractors in the Contractor's policy, as specified in this Contract.

1.21 Performance and Payment Bonds

The authority and responsibility for requesting performance and payment bonds shall rest with the Customer. Under this contract, the Customer issuing the purchase order may request a performance and payment bond, as deemed necessary by the size of the job. Inability to provide a bond may result in the Contractor being found in default of the purchase order.

1.22 Contract Revisions

Notwithstanding General Contract Conditions section 42 of the PUR 1000 Form, the following types of revisions can be made to the Contract upon written authorization by the Department:

- 1) Contractor's Company Information and Contacts
- 2) Contract Manager
- 3) Contract Report Forms

Only the above listed provisions can be made without a formal Contract amendment. General Contract Conditions, section 42 of the PUR 1000, applies to all other modifications to the Contract.

1.23 Financial Consequences

1.23.1 Financial Consequences for Nonperformance

Financial consequences shall apply for nonperformance of the contract by a Contractor. The State shall apply financial consequences identified in this solicitation in Purchase Order or Contract issued by Customers. In addition:

In the event that a deliverable is deemed unsatisfactory by the Customer, the Contractor shall re-perform the deliverable as needed for submittal of a satisfactory deliverable, at no additional cost to the Customer, within the timeframe established by the Customer.

Continued Contractor inability to perform under the conditions of the contract, via the established Complaint to Vendor process, per Rule 60A-1.006 Florida Administrative Code (PUR 7017 form), may result in default proceedings.

Failure to respond to a Customer request to correct a deficiency in the performance of the Contract may result in termination of the Contract.

1.23.2 Financial Consequences for Failure to Comply with Purchase Order Requirements

If Contractor fails to comply with the requirements of the Customer's purchase order, Contractor shall pay to the Customer financial consequences for such failures, unless the Customer waives such failure in writing based upon its determination that the failure was due to factors beyond the control of Contractor. A financial consequence in the amount of one (1) times the hourly rate(s) of each Contractor employee assigned to the purchase order will be assessed against Contractor for each submittal of an invoice during the period that the Contractor is out of compliance of the purchase order. This amount shall be reflected as a credit on the invoice submitted to the Customer. The Customer at its sole discretion shall determine when the Contractor is failing to comply and the Customer at its sole discretion shall determine when the Contractor has remedied the failure.

These consequences for non-performance are not to be considered penalties and are solely intended to compensate for damages.

1.24 Invoicing

The Contractor shall be paid upon submission of monthly or quarterly invoices to the Customer after delivery and acceptance of services. Invoices shall contain detail sufficient for a proper pre-audit and post-audit thereof and shall contain the purchase order number, state contract number and the Contractor's Federal Employer Identification Number. The Customer reserves the right to request additional documentation.

The State's performance and obligation to pay under this contract are contingent upon an annual appropriation by the Legislature.

1.25 Cooperation with the Inspector General

Pursuant to section 20.055(5), Florida Statutes, contractor and any subcontractors understand and will comply with their duty to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing.

1.26 Contractor Employee Conduct

The Contractor's employees shall adhere to the standards of conduct prescribed in Chapter 33-208, Florida Administrative Code, and as prescribed in the Customer's personnel policy and procedure guidelines, particularly rules of conduct, security procedures, and any other applicable rules, regulations, policies and procedures of the Customer.

The Contractor shall ensure that the Contractor's employees wear attire suitable for the position, either a standard uniform or business casual dress.

The Contractor's employees shall be subject to searches of their person or searches of equipment and/or products at any time.

1.27 Contractor Security Clearance

Customers may designate certain duties and positions as positions of "special trust" because they involve special trust responsibilities, are located in sensitive locations or have key capabilities with access to sensitive or confidential information. The designation of a special trust position or duties is at the sole discretion of the Customer.

Contractor or Contractor's employees who, in the performance of this Contract, will be assigned to work in positions determined by the Customer to be positions of special trust are required to submit to a Level 2 background screening and be approved to work in special trust positions prior to being assigned to the position.

Level 2 screenings may include fingerprinting of individuals and submission of the fingerprints through the Florida Department of Law Enforcement (FDLE) for a local, state and National Crime Information Center (NCIC) check of law enforcement records through the Federal Bureau of Investigation (FBI).

Contractor or Contractor's employees, who have criminal histories, are under criminal investigation or become the subject of a criminal investigation for any disqualifying offense, including, but not limited to, theft, fraud, forgery, embezzlement, crimes of violence or any similar offenses should not be assigned to do work on this Contract. Contractor or Contractor's employees whose screening results indicate convictions of disqualifying offenses will not be allowed to work on this Contract. This includes individuals who plea or pled nolo contendere or no contest to disqualifying offenses.

1.28 Confidentiality and Safeguarding Information

Contractor or Contractor's employees may have access to confidential information. The provisions of the Florida Public Records Act, Chapter 119, F.S., and other applicable state and federal laws will govern disclosure of any confidential information received by the State of Florida.

Contractor must implement procedures to ensure the protection and confidentiality of all data, files, and records involved with this Contract.

Except as necessary to fulfill the terms of this Contract and with the permission of the Customer, Contractor and Contractor's employees shall not divulge to third parties any confidential information obtained by Contractor or its agents, distributors, resellers, subcontractors, officers, or employees in the course of performing Contract work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or the Customer.

Contractor and Contractor's employees agree not to use or disclose any information concerning a recipient of services under the State or the Customer for any purpose not in conformity with state and federal law or regulations except upon written consent of the recipient, or his responsible parent or guardian when authorized by law, if applicable.

If Contractor or Contractor's employees have access to confidential information in order to fulfill Contractor's obligations under this Contract, Contractor agrees to abide by all applicable Customer Information Technology Security procedures and policies. Contractor (including its employees, subcontractors, agents, or any other individuals to whom Contractor exposes confidential information obtained under this Contract), shall not store, or allow to be stored, any confidential information on any portable storage media (e.g., laptops, thumb drives, hard drives, etc.) or peripheral device with the capacity to hold information. Failure to strictly comply with this provision shall constitute a breach of contract.

Contractor shall notify the Department and the Customer in writing of any disclosure of unsecured confidential information by Contractor, its employees, agents or representatives which is not in compliance with the terms of the Contract (of which it becomes aware). Contractor also shall report to the Department and the Customer any Security Incidents of which it becomes aware, including those incidents reported to the Contractor by its sub-contractors or agents. For purposes of this Contract, "Security Incident" means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of Customer information in Contractor's possession or electronic interference with Customer operations; however, random attempts at access shall not be considered a security incident. Contractor shall make a report to the Department and the Customer not more than seven (7) business days after Contractor learns of such use or disclosure. Contractor's report shall identify, to the extent known: (i) the nature of the unauthorized use or disclosure, (ii) the confidential information used or disclosed, (iii) who made the unauthorized use or received the unauthorized disclosure, (iv) what Contractor has done or shall do to mitigate any deleterious effect of the unauthorized use or disclosure, and (v) what corrective action Contractor has taken or shall take to prevent future similar unauthorized use or disclosure.

In the event of a breach of security concerning confidential personal information involved with this Contract, Contractor shall comply with section 501.171, F.S. When notification to affected persons is required under this section of the statute,

Contractor shall provide that notification, but only after receipt of the Department's approval of the contents of the notice. Defined statutorily, and for purposes of this Contract, "breach of security" or "breach" means the unauthorized access of data in electronic form containing personal data. Good faith acquisition of personal information by an employee or agent of Contractor is not a breach, provided the information is not used for a purpose unrelated to Contractor's obligations under this Contract or is not subject to further unauthorized use.

1.29 Request for Quotes

1.29.1 Customers needing independent verification and validation services will create a Request for Quotes (RFQ) eQuote event in MyFloridaMarketPlace Sourcing, each time they desire to solicit independent verification and validation services. The Customer shall issue a detailed RFQ that includes a term, service levels, educational qualifications and experience needed.

1.29.2 The Customer shall select at least three (3) awarded Contractors for the RFQ event in MyFloridaMarketPlace.

1.29.3 The specific format of the RFQ is left to the discretion of the Customer's Contracting Officer. Pursuant to s. 287.056(3), F.S., RFQs performed within the scope of this Contract are not independent competitive solicitations and are not subject to the notice or challenge provisions of s. 120.57(3), F.S.

1.29.4 When drafting an RFQ, the Customer must include the following information, but may also include additional information:

- a) Statement of Purpose / Need
- b) Scope of Work
- c) Project Tasks and Deliverables
- d) Project Timeline
- e) List of Contractor Responsibilities
- f) Qualifications / Certifications of the Consultant(s)
- g) Method of Compensation
- h) Financial Consequences for Non-Performance
- i) Special Terms and Conditions

1.29.5 RFQ Pricing Models

Two RFQ pricing models are available to Customers to procure services pursuant to this state term contract:

- a) Hourly Rate Pricing - The Contractor shall provide services at an hourly rate price that does not exceed their hourly rate in this Contract. Contractor prices in this Contract are "not to exceed" prices and lower pricing may be negotiated by the Customer.

- b) Project-Based Pricing - A project-based pricing model may be used by the Customer instead of an hourly rate model to accomplish goals and tasks that include more complex requirements. The Contractor shall multiply hourly rate prices, which do not exceed their hourly rate in this Contract, by the number of hours per task to determine each deliverable price.

Customers who choose to use a project-based pricing model shall negotiate all pricing associated with the completion of each task and deliverable with the selected Contractor. Project-based pricing should be fully detailed in the Customer's Statement of Work. Customers requesting project-based pricing shall ask Contractors submitting quotes for supporting information and / or documentation that will allow Customers to better understand the offer and thus more effectively negotiate pricing.

1.30 Purchase Orders

A Customer shall order services via a purchase order

Customers are permitted to negotiate terms and conditions which supplement those contained in this Contract. Such additional terms shall not conflict with the terms and conditions established by this Contract (and any such conflicting terms shall be resolved in favor of terms most favorable to the Customer, as determined by the Department). Purchase order-specific terms and conditions are only applicable to that specific purchase order and shall not be construed as an amendment to this Contract.

1.31 Quarterly Contractor Performance Reporting

Customers shall complete a Contractor Performance Survey (Exhibit D) for each Contractor on a Quarterly basis. Customers will submit the completed Contractor Performance Survey(s) by email to the Department Contract Manager no later than the due date indicated in Section 1.34.

The completed Contractor Performance Survey(s) will be used by the Department as a performance-reporting tool to measure the performance of Contractors. The Department reserves the right to modify the Contractor Performance Survey and introduce additional performance-reporting tools as they are developed, including online tools (e.g. tools within MyFloridaMarketPlace or on the Department's website).

1.32 Monthly Transaction Fee Report

The Contractor is required to submit monthly Transaction Fee Reports electronically through VIP. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and vendor training presentations available online through MFMP U on the MyFloridaMarketPlace website (located at <http://dms.myflorida.com/mfmp>). Assistance is also available from the MyFloridaMarketPlace Customer Service

Desk at feeprocessing@myfloridamarketplace.com or 866-FLA-EPRO (866-352-3776) between the hours of 8:00 AM to 6:00 PM, Eastern Time.

1.33 Quarterly Sales Reports

Each Contractor shall submit a sales report on a Quarterly basis.

Contract Sales Reports must include the dates of the Contractor's name, the dates of Quarter covered, each Customer's name, services provided, and the amount paid by the Customer.

Initiation and submission of the Contract Sales Reports are to be the responsibility of the Contractor. The Contractor will submit the completed Sales Report forms by email to the Department Contract Manager no later than the due date indicated in Section 1.34. Submission of these reports is considered a material requirement of this Contract and the Contractor.

Failure to provide quarterly sales reports, including those indicating no sales, within thirty (30) calendar days following the end of each quarter (January, April, July and October) is considered as Non-Performance by the Contractor.

Exceptions may be made if a delay in submitting reports is attributable to circumstances that are clearly beyond the control of the Contractor. The burden of proof of unavoidable delay shall rest with the Contractor and shall be supplied in a written form and submitted to the Department.

The Department reserves the right to request additional information as needed.

1.34 Quarterly Reporting Timeframes

Quarterly reporting timeframes coincide with the State Fiscal Year as follows:

- Quarter 1 - (July-September) – Due by October 31
- Quarter 2 - (October-December) – Due by January 31
- Quarter 3 - (January-March) – Due by April 30
- Quarter 4 - (April-June) – Due by July 31

**Exhibit D
Contractor Performance Survey**

Rating Definitions

Excellent ★★★★★ (4)

- There are no quality problems.
- There are no cost issues.
- There are no delays.
- Responses to inquiries, technical, service, and administrative issues are effective and responsive.

Average ★★★ (3)

- Non-conformances do not impact achievement of contract requirements.
- Cost issues do not impact achievement of contract requirements.
- Delays do not impact achievement of contract requirements.
- Response to inquiries, technical, service, and administrative issues is usually effective and responsive.

Below Average ★★ (2)

- Non-conformances require minor Agency resources to ensure achievement of contract requirements.
- Cost issues require minor Agency resources to ensure achievement of contract requirements.
- Delays require minor Agency resources to ensure achievement of contract requirements.
- Response to inquiries, technical, service, and administrative issues is somewhat effective and responsive.

Poor ★ (1)

- Non-conformances are compromising the achievement of contract requirements.
- Cost issues are compromising performance of contract requirements.
- Delays are compromising the achievement of contract requirements.
- Response to inquiries, technical, service, and administrative issues is not effective and responsive.

Scoring: Ratings will be averaged together and then rounded to achieve the Overall Contractor Performance Rating.
