Choosing a Primary Care Physician

One of the most important health care decisions you will make is selecting your primary care physician (PCP) — your health care partner and coordinator for everything pertaining to your health. You can select a PCP from our large, stable network of doctors and providers listed in our Network Directory at: <u>capitalhealth.com/ directories/provider-directory</u>.

Accessing Specialty Care

As a CHP member, you can access most specialists through direct appointment access. However, we encourage you to talk with your PCP before seeing a specialist as they can help coordinate your specialty care with your unique needs and medical history in mind. Your PCP can also assist with obtaining a referral or seeking pre-authorization for services, if necessary. You can view a list of specialists in our Network Directory at capitalhealth.com/directories/provider-directory.
